Dear Sir:-

Though we have not your authority,
we are printing your advertisement, "Tenders for
Ryerson School, Parry Island, Ont." in this
week's issue of the Contract Record.

If you do not see your way to auth-

of receiving this type of advertisement from the
government, and as we believe our pages can be of
real assistance in bringing this matter to the
attention of the proper parties, we are following
this course, which seems wisest to us.

TENDERS WANTED

Sealed tenders addressed to the undersigned and enclosed in the envelope "Tender for Ryerson School, Parry Island, Ont.," will be received up to noon of the 8th day of June next.

Plans and specifications may be seen at the Postoffices at Collingwood and Owen Sound, the office of Alexander Logan, Esq., Indian Superintendent, Parry Sound, Ont., and on application to the Department, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, for ten per cent. of the amount of the tender, payable to the order of the undersigned, which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The building to be fully completed and ready for occupation by the first day of September, 1915.

The lowest or any tender not necessarily accepted.

The unauthorized insertion of this advertisement in any newspaper will not be paid for.

is an error in the list of newspapers named.
It reads, The Canadian Echo, Owen Sound, I presume that should read
The Canadian, Parry Sound. I called up the Canadian Office here,
and asked if he had received an add re school, from the Department
and he said, no, so, as his paper is only weekly and comes out today
I took it upon myself to make a copy of the add in the Mail and

Sir,

Re Ryerson School Specifications.

On receipt of same I immediately passed them on to several local contractors. Since then I have had several enquiries from prospective tenderers that they are not very clear as to the heating specification, and would ask you to look over same and explain a little more fully. For instance you will notice only one hot air pipe from furnace to school room on north side and two cold air ducts on the south side, which the heating men claim is not enough to heat that space. Then there are two registers in the hall way. Please specify whether they are both hot or cold or one of each. I presume they are both hot.

The furnace has lots of capacity but it doesn't seem to be properly distributed. If this can be fixed up I can let the tenderers in town know before they put in their bids, as I do not think there will be any from places outside of Parry Sound, Town.

I would also recommend that the whole basement be excavated, as it would not cost any more than to take earth put. You will notice that the centre wall will cost more, than by putting the south outside wall down to the full depth, and have a running beam in centre on brick piers.

The full size basement is almost necessary for storing fuel etc. It might also be added that bell from old school be hung in new tower as it would be cheaper, when construction work is going on.

The building will face East.

Sir,-

The Registers shown on the floor plan are all warm air, two in cloak-rooms, two in class-room floor, one in class-room walls in addition to the register in living quarters.

The cold air is shown in basement plan one inlet from front and opening shown to be carried to ground floor. The cold air face is not marked on the plan, but is to be put in.

The other matter referred to will be taken up when contract is let. The tenderers might state the cost of additional excavation.

There are enquiries from a great many quarters and several plans have been sent out from here, so it will not be wise to assume that tenders will only be received from Parry Sound.

PARIPAN

Made by RANDALL BROS., LONDON, England

FOR PAINTING EVERYTHING

IN SIXTY DIFFERENT SHADES

PARIPAN has the reputation of having been washed for 10 to 20 years without being renewed. Because of its artistic value and durability it has been used on the best residences in the world, including the Royal Apartments at Windsor Castle, Buckingham Palace, etc.; such hospitals as London Hospital, the New King's College Hospital of London, England, etc., and it was used exclusively on the new Toronto General Hospital,

because 

PARIPAN flat, or with gloss sublime,
Endures like a rock in every clime,
True British Paint, no rival it brooks,
The more you wash it "the better it looks."

"The more you wash it the better it looks."

PARIPAN is not just an Enamel, but a Lacquer Enamel. The Glossy has an exceptionally brilliant surface. The Flat has a dull silk sheen which makes it "the acme of artistic decoration." Both are equally washable.

The cost of Paripan when compared with ordinary paint should be about 15 per cent. more for three-coat work. We recommend for best work four-coat process.

The following figures on a recent contract are an interesting study:

Three-coat work of Paripan was called for on a small job on a hospital. The lowest tender was \$975. As the trustees did not wish to go to this expense they called for three coats of good oil and lead paint. The lowest tender was \$890. Taking the life of paint as 7 years and Paripan as at least 14 years, the paint bill on the above figures would be for 14 years as follows:—

Paint, \$1,780; Paripan, \$975.

Note.—Not only would the saving be large, but during the 14 years there would be a washable surface; the place would be cleanly and the appearance would be all that could be desired.

House in Rosedale, 28 Hawthorne Ave., "Paripanned."

Drawing Room in a well-known English house finished with Paripan Flat. Note the panel and relief effects brought out with "Paripan."

SUGGESTION FOR DECORATING YOUR HOUSE WITH PARIPAN PROCESS

Remember that bright and cheerful paint work adds 50 per cent. to the home. You cannot get light-colored paint in the ordinary way that will wash down. Specify and see you get Paripan Glossy or Flat; they will wash and wear for an indefinite time and retain their color.

INTERIOR.

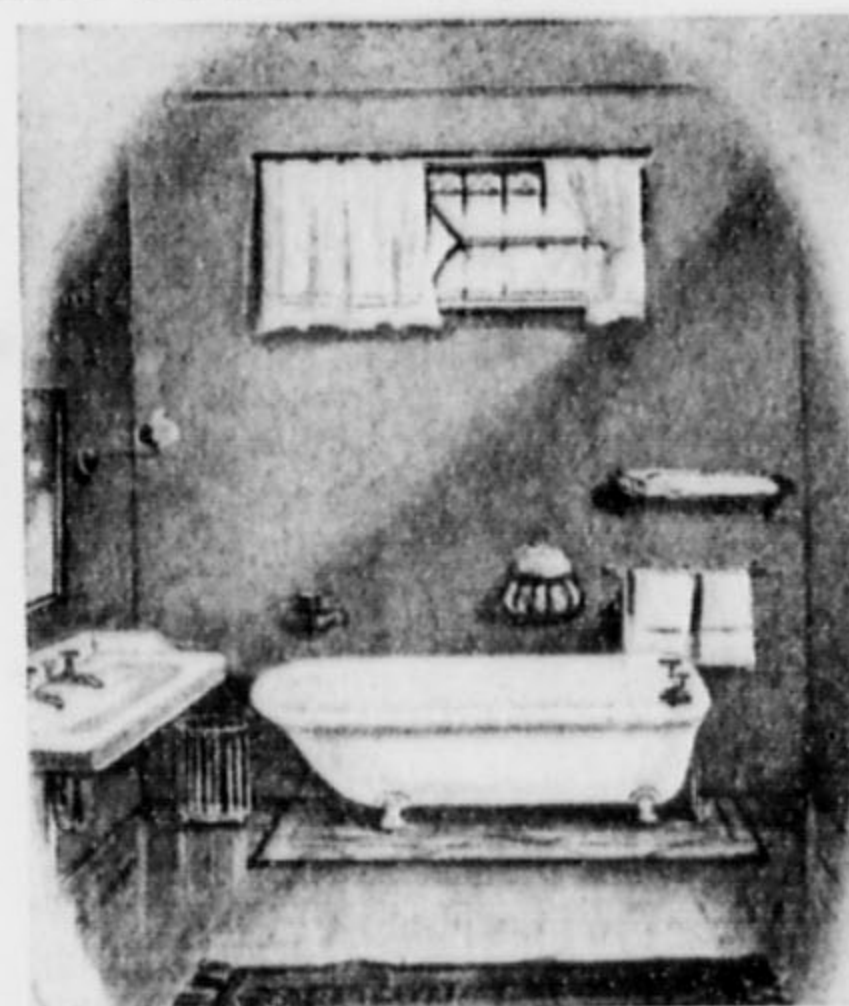

BEDROOMS.—Woodwork in Glossy, white or cream; plaster walls in Flat tint to suit furniture, etc.

BATHROOMS AND KITCHENS.—Woodwork in Glossy, white, cream or grey; walls and ceiling in light shade of blue or green.

RECEPTION, DRAWING ROOMS AND HALLS.—Panels of deep Flat color, filling in with very light Flat tints to match woodwork in Flat or Glossy.

EXTERIOR.

WOODWORK.—Finished entirely with the Glossy light colors and trim of a deep color.

Bathroom finished with Paripan: walls, outside of bath tub, basin, etc.

SPECIFY AND SEE YOU GET "PARIPAN"

Plaster walls and woodwork of the Toronto General Hospital were treated throughout with Paripan. Above photograph shows one of the wards. Painting contracts were carried out by Messrs. J. McCausland & Sons, Conlan Bros., I. W. Rich, A. E. Phillips, Taylor & Co., all of Toronto.

Architects, Messrs. Darling & Pearson.

The above photograph shows one of the corridors in the Toronto General Hospital. Note the reflection on the Paripanned surface.

WHERE AND HOW TO USE "PARIPAN"

Paripan is recommended for all classes of work. It is used on wood, metal of all kinds, plaster and stone, inside or outside.

Specifications will be furnished for treating any work on request, but the following may be taken as a basis:

For interior plaster, ceilings, doors and woodwork, metal, or any new surface.—Two coats of Paripan Filler or undercoat (the second coat tinted with some of the Glossy or Flat, in case colors are to be used for final coat), then one or two coats of Glossy or Flat Paripan, according to finish desired. The Filler or undercoat is given to prepare a good base for the finish—a glance will tell you if another coat is needed. Naturally the better the base the better the job.

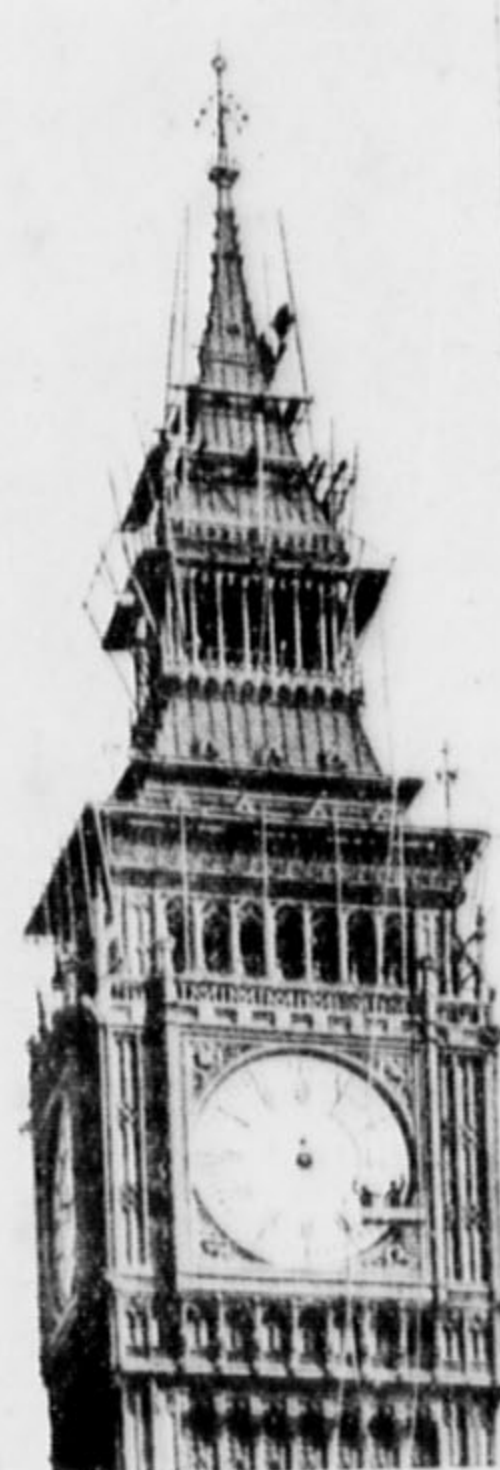

For Old Surfaces.—One or two coats of either Glossy or Dull. This must depend on the condition of surface to be treated and if the same color is to be applied again. If a light color is to be applied to an old dark color, then base of one coat of filler, mixed with a little of the finishing coat (Glossy or Flat) should be applied before putting on Glossy or Dull.

For exterior work, new metal or wood.—Two coats Paripan Filler and two coats of Glossy Paripan.

Stopping.—This should be done with Paripan Filler, stiffened if necessary with a little dry white lead. Putty should not be used on any account.

Plaster walls and ceilings must be perfectly dry and dead before any paint is put on, or the free lime and moisture will change the color and cause the material to flake off. If necessary to treat before plaster is in proper condition, give one or two coats of Paripan Filler tinted. This treatment is more satisfactory than distempering, as the Filler will do for priming coat when the wall is to be finished with Paripan Glossy or Flat.

BIG BEN, Houses of Parliament, London, England—one of the world's most famous landmarks—is treated with Paripan. The photograph shows the clock face being painted. Note the size of the men.

Residence of Mr. Turner in Eglinton. All woodwork outside Paripanned.

A FEW HINTS WHEN PARIPANNING.

Open tin as per instructions on tin.
Stir thoroughly; remove skin, if any; be careful to get no loose hairs on work; give 24 hours between each coat; get a regular surface before applying final coat (it may be necessary to rub surface down to obtain this). *Do not* put on a thick coat; work it out well on surface when applying. The result is worth the extra care. Use a good varnish brush. To obtain an egg-shell or semi-gloss surface, add a small proportion of Glossy to Paripan Flat. See that the surface on which you intend putting Paripan is thoroughly clean. All grease and dirt must be removed, and see that no dust is around.

WASHING PARIPAN

Only cold water and sponge. If surface is very greasy use a little soap—not coarse washing or gritty. Dry the glossy surface with a soft cloth and polish with a dust-free leather to increase gloss. The Flat should be dried with a dabbing motion, not by rubbing forwards and backwards, as this creates gloss.

On any points that may arise, please write us and we will give you full information.

Residence of Mr. Shutt of Eglinton. The exterior of this house was treated with Paripan Glossy exclusively.

"The more you wash it the better it looks."

Note the reflection of light on this corridor in the Bournemouth Royal Victoria Hospital in England.

Paripan was used because it can be washed down indefinitely with soap and water. "The more you wash it the better it looks."

A FEW FACTS ABOUT PARIPAN.

There are 16 acres of Paripanned walls in the London Hospital, England.

The English Navy gave one order for Paripan amounting to 5,643 gallons.

Dr. Eyre, of Guy's Hospital, London, Eng., states by merely rubbing the Paripanned surface bacteria can be removed owing to the polish and evenness of the surface.

Verandahs and outside woodwork when treated with Paripan can be washed down and should not require re-coating for 7 to 10 years.

Paripan has been used on some of the finest Canadian homes, clubs and public buildings.

Paripan was one of the first enamels made in England, over 40 years ago.

Paripan is used on railway coaches, motor cars, yachts, etc.

PARIPAN

PRODUCTS

COVERING CAPACITY

PARIPAN GLOSSY.—1 gallon covers 810 square feet.

PARIPAN FLAT.—16 lbs. cover 810 square feet.

PARIPAN FILLER (or Undercoating).—16 lbs. cover 810 square feet.

These covering capacities may be relied upon.

Glossy is supplied in $\frac{1}{8}$, $\frac{1}{4}$, $\frac{1}{2}$ and 1-gal. cans, in various colors, ready for use. Note the wonderful covering capacity. It dries from the base upwards, is absolutely waterproof, tough and elastic, besides being so brilliant that it has a surface like glass. It is improved by washing, and in fact "the more you wash it the better it looks."

Paripan Flat is supplied in various packages, 8 and 16-lb. tins, ready for use. This is a beautiful material, equally washable as the Glossy. It has a beautiful dull sheen which is particularly fine. The use of our Flat **Paripan** avoids the old method of rubbing down the Glossy to obtain a Flat finish.

Paripan Filler, or undercoating, is supplied in 7, 14 and 100-lb. packages. It is recommended to use this exclusively under **Paripan Glossy** or **Flat**, as it forms a hard, non-absorbent base and throws the finishing coat out well. It is also recommended to use **Paripan Filler in place of white lead** for general purposes, as it is a better obscurer and goes much further. For the sake of comparison, 9 lbs. of Filler are generally reckoned to be equal to a gallon of white lead and oil paint.

C.V.C. CLEANER AND POLISHER.—If you have a good piece of furniture so dirty that you cannot see the finish—dirty paint or varnish work—put some C.V.C. on a flannel and rub it gently; it will remove the dirt and stains, etc. When dirt is removed, rub lightly with a soft rag and it will bring up the finish and add to the lustre.

If you polish your floors, your furniture, your paint-work, etc., with C.V.C., you will keep it clean, and at the same time improve the finish you have on it.

PREVENTION OF THE SPREAD OF DISEASE THROUGH WALL CONTAMINATION FROM BREATH

Vide "The Times" Report (August 14th, 1906) of Dr. Mervyn Gordon's investigation into impurities of the atmosphere of the House of Commons, and Report to Local Government Board, 1902-3, re investigation in Schoolrooms.

PARIPAN: THE REMEDY

CHEAP, EFFICIENT, PERMANENT

THE Government Investigations as to the spread of disease, such as epidemics of diphtheria in schools, and of influenza in the House of Commons, have proved that the cause is attributable to bacterially-contaminated moisture, projected from the mouth when speaking.

Experiments show that persons infected with, or convalescent from contagious and infectious diseases, and carrying the bacilli on the mucus membrane of the mouth and throat, can project them to a *distance of 40 feet!* A specially prepared plate having been placed upon the Cabinet Minister's box in the House of Commons, a speaker's throat was inoculated with a special, but harmless and easily recognized bacillus (*B. prodigiosus*); subsequent examination proving that no less than 83 colonies of this particular bacillus had been formed upon the prepared test-plate, and this from the mouth and throat of *one speaker only!*

HOSPITALS, SCHOOLS, BARRACKS, WORKHOUSES

A heavy responsibility is therefore shown to rest on those in control of buildings where numbers of human beings congregate, to employ a material upon the walls and ceilings which will permit of their being easily and frequently freed from infectious deposits arising from condensation of breath, or projection of particles.

"Prevention is better than cure," and for such purposes Paripan is better than a Policy of Insurance.

If the act of speaking by one person in a great chamber such as the House of Commons can cause 83 colonies of bacilli to be formed upon a small plate within it, how great must be the possible area of contamination in a room or ward say of 60 ft. x 40 ft. x 20 ft. (the walls and ceiling of which would have a surface of some 6,400 square feet!) when occupied by a large number of persons.

If these walls be finished with Paripan the cost of keeping them clean and free from infection is but very small, and can be constantly repeated. With ordinary paints and enamels such an operation would destroy their appearance, and owing to their rough surfaces (see diagram on page 3), but small benefit would be derived.

The reverse is the case with Paripan, for "the more it is washed the better it looks."

**REPORT Dr. by JNO. EYRE,
of Guy's Hospital, London.**

The Bacteriological Laboratories,
Guy's Hospital, S.E

July 23rd

1904

Messrs Randall Bros.,
Palmerston House,
Old Broad Street, E.C.

Gentlemen,

In accordance with your request I have carried out a series of experiments on ("Glossy") Paripan, and from the results obtained conclude that the preparation is an excellent one for the purpose you suggest, viz., to replace glazed tiles, distemper and paint on the walls and ceilings of Hospital Wards, on the grounds of efficiency no less than economy.

The surface of Paripan is of a high polish, even and continuous, appearing perfectly smooth under the half-inch power of the microscope, and moreover it is easily and thoroughly cleaned. Emulsions of pathogenic microbes including those of plague, cholera, typhoid, diphtheria, etc., were applied to the paripanned surface of plaster tablets, and there allowed to dry. It was subsequently found that owing to the polish and evenness of the surface, nearly all the bacteria could be removed by vigorously rubbing the infected area with cotton wool - a preliminary washing with plain water removing all the micro-organisms. As the surface of Paripan is unaffected by the disinfectants in ordinary use (Carbolic acid, 5 %; Lysol, 4 %; Mercuric perchloride 1 : 500 ; Formaldehyde) the freedom of paripanned surfaces from pathogenic germs can be ensured, although the preparation after its application to walls etc., can be in no way regarded as an active antiseptic. (Note. In this connection it should be observed that Alcohol, Chloroform and concentrated acids destroy the high polish and even surface of Paripan).

Paripan is extensively used here in Guy's Hospital and its durability is evidenced by the present condition of the walls of one of our Isolation Wards, which were coated with this preparation upwards of six years ago.

I am, Gentlemen,

Yours faithfully,

SPECIFICATIONS - FOR
PARIPAN PROCESS
IN GLOSSY OR FLAT
FINISH

ANY COLOR MATCHED

No. 1.—Plaster Walls. Allow to dry thoroughly. Apply two coats of Paripan filler as per directions and finish with two coats of Paripan No. glossy or flat as desired.

No. 2.—Plaster Walls. If it is wished to treat before they are properly dried out, then apply two coats of Paripan filler as directed. The final coating of Paripan glossy or flat can be added directly on to this later on.

No. 3.—Woodwork. Clean thoroughly then put on two coats of Paripan filler, finishing with two coats of Paripan No. in glossy or flat as desired.

No. 4.—Old Plaster Walls which are cracked. Line with lining paper and size, then apply two coats of Paripan filler finishing with two coats of Paripan No. glossy or flat as desired.

No. 5.—For Wall Paper or dark surfaces on which it is desirable to put a light color, apply one coat of Paripan grey body filling, then one coat of Paripan white filler followed by two coats of Paripan No. glossy or flat as desired.

No. 6.—Old Paint. Rub down and if base is good, apply two coats of Paripan No. in glossy or flat as desired.

No. 7.—On Old Enamel, wash down thoroughly and apply two coats of Paripan No. in glossy or flat as desired.

No. 8.—On Metal, apply one coat of Paripan grey body filling after removing any loose scale or rust, then apply one coat of Paripan white filler followed by two coats of Paripan No. glossy or flat as desired.

No. 9.—On Cement, Brick or Stone, fill with one good coat Paripan painter's white, then one or two coats of Paripan filler followed by two coats of Paripan No. in glossy or flat as desired.

These Specifications are given for good work; very satisfactory results may be obtained by reducing the number of coats when cost is a consideration.

For Public Institution, we prefer to give Special Specifications.

Paripan Process should only cost the price of good paint work. In case of your being unable to get a suitable price from your Decorator, we will give you a tender on the job.

Dear Sir :- Re Parry Island School.

One of the principle points to be considered by you in connection with the above school should be, the use of a sanitary wall covering, and we would therefore draw your attention to the enclosed report by Dr. Mervyn Gordon, and secondly to the use of PARIPAN, which is the only washable material on the market.

No. 1 specification for plaster, and No. 3 specification for wood give best results, but if cost is a consideration one coat of the finishing may be omitted, thus making three coats in all.

Shall be pleased to give further particulars on request,

Yours truly,

Memorandum.

Mr. Scott,-

Tenders for Ryerson Indian Day School to be erected on Parry Island, Ont., were advertised for in the papers circulating in that district, and in response the following tenders have been received:-

John Lockton,	Collingwood, Ont.,	\$5,754.00
Wm. Fryer,	Collingwood, Ont.,	5,200.00
Green & Woolrich,	Owen Sound, Ont.,	5,114.00
W. T. Bath, Ltd.,	Midland, Ont.,	4,799.00

Alex. Bannan,	Parry Sound, Ont.,	3,998.00
Simon Woods,	Parry Sound, Ont.,	3,700.00
J. D. Riddell,	Parry Sound, Ont.,	3,450.00

Each of the tenders received is in regular form and accompanied by the required deposit security.

The tender of J. D. Riddell, Parry Sound, is the lowest received, and this a fair and reasonable one for the work to be done.

The Department's estimate for the erection of the building is \$4000.00. The building is to be erected from Band Funds.

Certified copy of a Report of the Committee of the Privy Council, approved by His Royal Highness the Governor General on the 19th. June, 1915.

*****0:*****

470112

The Committee of the Privy Council have had before them a Report, dated 10th. June, 1915, from the Superintendent General of Indian Affairs, submitting that, it being necessary to erect a new combined Indian Day School and teacher's residence to take the place of the old residence and school known as the Ryerson school, on the Parry Island Indian reserve, in Georgian Bay, in the Province of Ontario, tenders were called for, receivable up to noon of the 8th. day of June, 1915, and the following were received:-

1. - John Lockton,	Collingwood, Ont.,	\$5,754.00
2. - Wm. Fryer,	do	5,200.00
3. - Green & Woolrich,	Owen Sound, Ont.,	5,114.00
4. - W. T. Bath, Limited,	Midland, Ont.,	4,799.00
5. - J. A. McKeown,	Duncan, Ont.,	4,712.00
6. - Ernest E. G. Crockford,	McKellar, P. O. Ont.,	4,645.38
7. - Alex. Bannan,	Parry Sound, Ont.,	3,998.00
8. - Simon Woods,	do	3,700.00
9. - J. D. Riddell,	do	3,450.00

The Minister recommends, pursuant to the requirements of Sub-section 2 of Section 36 of the Public Works Act, that the contract be awarded to the lowest tenderer, Mr. J. D. Riddell, for the amount of his tender, namely, \$3,450. and that, under Section 89 of the Indian Act, authority be given for charging the same to the capital at the credit of the Parry Island band of Indians, which amounts to \$95,479.02. The Architect of the Department of Indian Affairs states that Mr. Riddell's tender is a fair and reasonable one for the work to be done.

The Committee submit the same for approval.

Mr. Scott, -

The contract has been awarded and the instructions issued to the contractor, requiring him to commence the erection of the Parry Island School. The Indian Superintendent has also been requested to locate the exact position of the proposed building. It will, therefore, be necessary to name a Superintendent for the construction. Superintendent Logan is fully competent providing he has the time to attend to it. Should he be requested to act, or will an Officer be appointed for the purpose?

Sir,—

I beg to report to you progress on New School building now under construction at Parry Island, by J.D. Riddell, Contractor.

Exterior has second coat of paint on, inside plaster about finished. Furnace partly set up.

I expect the building will be completed by Sept. 15th.

In the meantime I have arranged with the teacher to open school tomorrow, Sept. 1st., in old school house.

I also arranged with Contractor to extend drain from front of building to about 65 ft. as water was accumulating in basement.

There is nothing in the specifications about covering the back cellar stairs. They should be covered or the area will fill up with snow in winter, also a storm door for rear kitchen door as it is on the north side. I would also recommend the removal of old bell and setting up same in new tower.

Trusting this may meet with your approval.

Sir,-

On September 23rd you wrote stating that the Parry Island School building was almost completed, and as no further report has been received from you or any ~~other~~ certificate issued in payment for the work, I have to request that you will inform me as to the reason for the delay.

sub
You will please note that 90% of the work is to be paid when completed and the balance to be retained for 30 days when payment will be made.

Nov. 18th, 1915
TO DATE OF THIS LETTER.

DEPT. OF INDIAN AFFAIRS,
NOV 20 1915
ARCHITECT.

475689

I beg to report to you that Ryerson Indian School has been completed and I am sending certificate for balance due contractor less 10% as per contract, to be kept for 30 days.

The reason for delay in reporting progress was that I have had some trouble with contractor about the foundation. The water runs through the cement at rear and in at rear door of basement and keeps the cement floor wet all the time.

I have been wanting him to remedy it and he has done nothing yet.

It has been drying up some since the weather has been dry.

Also the bell he put does not work yet. He has promised to go over and fix it several times. Of course the 10% held back will bring him to time.

Certificate No. 2 for balance coming to him as per contract, less 10%, with extras on the building as follows,

80 ft. 4 in. tile drain	\$ 22.50
Roofing outside basement area	7.50
Moving old bell to new building	6.00
Total	\$ 36.00

If the Department insists there may be a balance kept off contract for difference between 1 1/2" hard wood floor specified and the 1" floor allowed to be used.

That may be arranged before the final payment is made. Trusting this may meet with your approval.

The Secretary,
Dept. of Indian Affairs,
Ottawa.

Sir,-

I beg to acknowledge the receipt of your letter of the 18th instant in reference to the Parry Island School, enclosing certificate and in reply to inform you that no further payment will be made to the contractor until the work has been completed to your satisfaction. It will be necessary for the contractor to make good the walls and basement entrance so as to prevent access of surface water to the basement either through the walls or floors.

Providing the concrete used in the walls and floor is of the proportions specified, water should not come through them under ordinary circumstances such as exist there.

The difference in values between the 1" and 1½" hardwood flooring should be deducted, the value probably being about \$15.00. This, however will be left to your judgment.

The amount paid on the last certificate was \$630.00. This leaves the extras to be paid with the final certificate which should be issued when the buildings have been completed 30 days. The completion to date from the time when ^{the} repairs are made satisfactory to you unless these have already been completed or undertaken and finished at once.

Photos of the completed building showing the different elevations should also be sent if possible.

Sir,

I beg to report to you re Ryerson New School House
basement.

I did not grant the final certificate last fall as I was suspicious of concrete wall
keeping out the water in the spring. I have asked the contractor several times to
get it fixed up but he wants to plaster on the inside.

I have told him the only remedy is to dig a 2 ft. trench around the rear wall to the
bottom of cement work and plaster up with good cement on outside of wall and leave
trench open until thoroughly dry before refilling.

The water is oozing through the rear wall for three feet up and around the cement
steps leading to basement in rear. Otherwise the building is in good shape.

I beg to report that I received the key from the late teacher at Ryerson School and went over on Monday to check up the furniture and found it all there, but the house was in a very filthy condition. I instructed the caretaker to get it cleaned out at once and ask your authority to have the walls white washed. I would think the cost probably \$25.00. I have asked a local painter to have a look at it and give me a price which I shall submit to the Department. I may also say that there are two broken windows in the school also the putty is all dropping off the sash and they should all be reputtied.

This building is very modern but there is no

It is uncovered and the cattle drink out of it.

I would strongly recommend a well near the
building. It is difficult to teach cleanliness when we

It is uncovered and the cattle drink out of it. I would strongly recommend a well near the building. It is difficult to teach cleanliness when we cannot practice it".

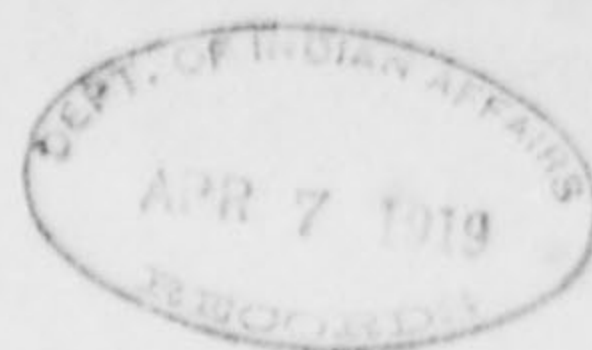

I have to ask you to be good enough to state how far the well is from the school and who owns it; also whether one could be dug close to the school, and, if so, what the probable cost would be.

Sir,—

Re Ryerson School Parry Island

I beg to report to you that the well is about 300 yards from the school. It is very hard to estimate what a well would cost as the school is quite high above the lake and unless we happened to strike a spring we might have to go very deep. I would think a fair estimate would be \$75.00. The present well is first class spring water and the distance of 300 yards is not very far but I think it might be boxed in and a pump put in. To box it in would cost \$10.00, a pump \$25.00. I think this would be alright in the meantime. I would like to get authority to level off school grounds and fence in same. Put two cement walks into the school from road and one to teachers house, total cost probably \$125.00. I have spoken to the truant officer and he says he is doing all he can to encourage attendance. During sugar making time there are always some absentees.

Sir,—

I beg to report on above letter re well etc., at Ryerson School, Parry Island. It is about 275 yards from the school and on about a level with the school room floor and would be no use for gravitation. The school stands on a level with the highest surroundings and about 60 feet above the lake level. The teacher would like very much to have it in the school grounds but as I said before it would cost \$75.00 or more. I am enclosing a sketch showing school grounds and buildings and about what should be enclosed by a wire fence, some 40 rods and about 500 square feet of cement walks. The walks would cost about \$100.00 and the fencing \$75.00.

I beg to acknowledge the receipt of your letter dated 2nd instant in reference to Ryerson school, and in reply to say that the Department approves of the building of fences around the school grounds with an additional fence dividing the rear yard as shown on the amended plan enclosed, also the building of concrete walks and curb for well and providing a pump. A fence should also be placed around the pump if this is required to protect it and render the surroundings sanitary.

June 30, 1919.

Sir,-

I beg to acknowledge the receipt of your letter dated the 25th instant enclosing tender for fencing and concrete work at Ryerson School, Parry Island, and in reply to inform you that a temporary fence should be put around the spring to prevent contamination of the spring. The other work will be deferred until it can be completed at a reasonable price.

ms

You will no doubt be able to arrange for the building of the fence around spring with a member of the band, provided wire and a gate are furnished.

Your obedient servant,

W. M. LEAN

In the meantime I am enclosing a tender from Tucker and Wilson, Painters, here who went over to the Island with me and gave me an estimate as to what it would cost to kalsomine the school walls and teachers house, also to paint the wood work of dwelling inside and re-puttie the sash and put in two lights of glass in school. The price I think is reasonable and would recommend that this work be done as it is in very bad shape.

Sir,-

In reference to the minute of the meeting of the council of the Parry Island Band, held on the 2nd instant, recommending that a well be dug for the Ryerson Indian Day School I beg to say that you should obtain a price for the digging of this well. You should decide whether it would be cheaper to have the well drilled or dug and the price for doing the work should be for the method thought best by you to be used in obtaining a good water supply. If an outfit for drilling can be obtained, it might be cheaper to have work done in that manner. However, you will be able to decide this point and, as soon as the cost of the work is ascertained, the Department will be in a position to consider this request. The price submitted by you should also cover the cost of the pump and equipment. It is understood that, if this work is authorized, the cost will be paid from the funds of the Parry Island Band.

Sir,—

I beg to make further report re well at Ryerson School, Parry Island and may say that I have gone into the matter with D.L.King, school caretaker, who is the only Indian there who can be depended upon to do any work of this kind and think the most suitable and likely place to get water is about seventy-five yards in front of school house. The well will have to be twelve feet deep at least and as it will be sand it will be necessary to stone it up, and with a platform on top. The cost would be \$55.00. A pump would cost from \$15.00 to \$25.00, altogether about \$75.00. Of course as you know it is hard to get an exact estimate, but my idea is to get a good well and have it in a place where a number of the Indians can use it and the more it is used the better. I will be pleased to get your authority to have this done as soon as possible.

Sir,-

I have to acknowledge the receipt of your letter of the 13th instant furnishing a report as to the cost of providing a well at the Ryerson Indian Day School, Parry Island.

In reply I beg to say that, if you consider that this work could be satisfactorily performed and a good supply of water obtained, you may arrange to have the work done, including the cost of the labour in digging the well to a sufficient depth to obtain a good supply of water and furnishing a pump. The Department could not approve of any expenditure for the purpose in excess of approximately \$75.00 to \$90.00. It is understood that an exact estimate of the cost of digging the well cannot be given, as this will depend upon the depth required to be excavated. You should see that the work is properly performed and stoned up with a platform on top and that the pump is properly installed. The Department will leave this matter in your hands and you should arrange to have the work done as cheaply as possible. You should give this matter your prompt attention, in order that the work can be done before the winter season.

As soon as the work is completed you should furnish properly certified vouchers, in duplicate, covering the cost of the labour and also the cost of the pump. In purchasing the pump competitive prices should be obtained and you should purchase from the firm quoting the lowest price.

I beg to enclose to you account and vouchers in favor of Wm. Beatty Co. for pump and the Conger Lumber Co. for lumber also labor of D.L. King and others in digging the well at Parry Island.

I am pleased to report to you that the well is finished and all stoned up with a platform on top, a firstclass pump installed and lots of water. We had to go down about nineteen feet and the cost comes a little higher than my estimate notwithstanding the fact that I cut the Indians down some \$20 on their labor account but they are satisfied to take \$78.00 in full which I had to pay them as the work proceeded or I could not get the work completed.

The following is a copy of resolution passed at regular meeting of the Parry Island Band, June 3rd.

Moved by — John Miller.
Sec'd by — Peter James.

That the Dept. give permission to buy an organ for the Ryerson Indian Day School, out of the band funds.

I should state that there is an organ in the school, belonging to Joseph Partridge of Parry Island. He will sell same to the band for the sum of forty dollars (\$40.00).

I approve of this resolution as I think it helps in the harmony of the school.

Trusting this will meet with the approval of the Dept.

Sir:

I have to acknowledge your letter of the 9th instant, embodying a resolution passed at a regular meeting of the Parry Island Band on the 3rd instant authorizing the purchase from band funds of an organ for the use of the Ryerson Indian Day School.

In reply I beg to say that it is doubtful whether this organ would be of any permanent use. While the present teacher may be able to utilize the organ, another teacher might not be able to use it. As this is a second-hand organ, it is considered that the price asked, viz: \$40, is greatly in excess of that for which an organ of this type can be obtained. Unless the present owner is prepared to dispose of the organ at a much reduced price, the Department is not prepared to authorize its purchase.

J. D. McLean,

MEMO.

R.T. Ferrier Esq.,
Supt. Indian Education,
Ottawa, Ont.

Dear Sir:

I beg to state that the Hyerson Indian Day School is badly in need of repairs in the inside. The plaster is loose and the walls and ceiling require a general clean-up.

I have discussed the matter with the local painter and he tells me that he would put the place in good shape for approximately \$100.00. This is too nice a school to be allowed to fall to pieces. I would also like to have about 20 loads of gravel put down in front of the school house to prevent mud from being tracked into the school. The whole transaction including the gravel should not exceed \$125.00. I would recommend that the above be done during the vacation.

Trusting that this will meet with the approval of the Dept.

Sir:

I have your letter of the 9th instant, relative to the repairs required to the plaster, walls and ceiling of the Ryerson Indian Day School.

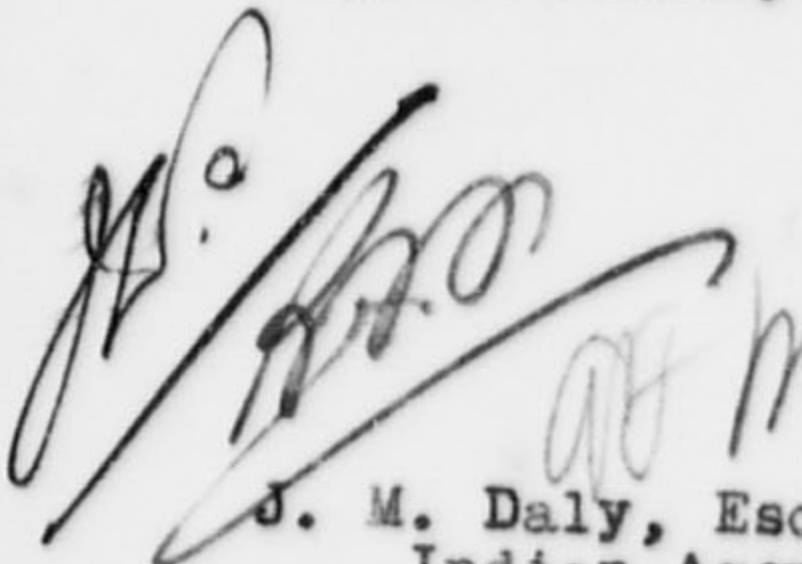

In reply I beg to say that the Department will approve of an expenditure of approximately \$100 in having the interior of this building repaired and painted and placed in good condition. You may arrange with a local painter to do the work during the summer vacation.

We will also approve of having approximately 20 loads of gravel put down in front of the schoolhouse, in order to level up the entrance to the building and make it dry.

Properly certified vouchers, in duplicate, should be forwarded covering the expense of the above authorized work. The account should show the cost of any material, such as paint, etc., separately from the amount charged for the labour. A separate voucher should also be forwarded for the expenditure incurred in supplying the gravel and spreading it in front of the school building. The Department will leave this matter in your hands to have the work completed when considered timely by you. No unnecessary expense should be incurred, and the total expenditure for the painting and cleaning of the school building and the supplying of the gravel should not exceed your estimate of approximately \$125.00.

A. F. MacKenzie,

Sir,—

Enclosed please find competitive prices for putting in of sink at teacher's house, Parry Island, and also for interior decorating of Ryerson Indian Day School. Regarding the putting in of the sink. As there is over twenty feet of piping it costs a little more than I expected, but I am satisfied that a good job will be done at a reasonable price.. As Fleming had lower *for decorating* prices, I gave him the job, and as he cut prices on the understanding that he would start in the Easter Holidays. The school will be finished when school takes up after Easter.

Trusting that this will be satisfactory.

That the Dept. be asked to grant permission to have the dock fixed at Parry Island to make it suitable for landing. At the present time it is useless because owing to the water in the lake lowering the dock is now too high. Also that the Dept. grant permission for a new well to be dug for use of the school and teacher's house.

Noted
J.D.

Re resolutions No. 12, I have to state that this dock is useless owing to the lowering of the water in the lake. It is absolutely essential that a new well be dug for the school as there has been no water in the present well for a considerable length of time. As there are quite a number of cases of diphtheria in this district, I would strongly recommend that a well be dug right away.

Sir,

Enclosed please find bill for
work done on well of Ryerson Indian Day School.

I should state that this well
is of no use as we can't get water from it. I think
that the cause of this is on account of the lowering
of the water in the lake. We hit rock and no water.
Enclosed please find also bill for repairs on pump.

There should be a new well dug

Ottawa, December 4th, 1925.

Sir:

I have your letter of the 27th ultimo, enclosing accounts in payment for the work performed on the well at the Ryerson Indian Day School. Cheques in payment of these accounts have been sent. We note that this well is of no use, as no water can be obtained from it.

Relative to your request for authority to dig a new well near the shore of the lake, I shall be pleased if you will state approximately the cost of this work, also whether you would advise that the well be dug at the present time, or whether it would be advisable to wait until next Spring. Please also state what arrangements you can make for the labour, or how you purpose having the work done.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Sir

[Handwritten mark]

Replying to yours of the 4th. inst. 22-3-5, I have to report that I have gone over the ground for the proposed well very carefully along with the Indian in charge of repairs on the dock at Parry Island. It is expected that we will encounter quicksand in digging the well and it is thought that the best time to dig would be as soon as work on the dock is completed. To make a job worth while and a credit to the Dept. it will take three men between three and five days to complete the well.

What I purpose doing is to dig deep enough so that the well will not go dry even should the lake drop other four feet, crib with with stone, there is plenty of rock handy, and put the pump in. In the Spring of the year, put a cement coping over the well to keep out surface water. To fix it up for immediate use, the cost would be the labour of three men for five days at three dollars making a total of forty-five dollars, if possible, and it is possible that the work might be done in three days.

cheaply as possible.

I will endeavour to have it done as

Trusting that this will be satisfactory.

I have the honour to be.

Sir:

I have your letter of the 8th instant, stating the approximate cost of having a well dug at the Ryerson Indian Day School, and also how you propose having the work carried out.

In reply I beg to say that you may arrange to have the work in digging this well carried out at a time considered by you most advantageous to do so. We note that it will take 3 men from 3 to 5 days to complete the work. If a pump is required, you may arrange for the purchase of same.

When the work has been completed, please forward properly certified vouchers, in duplicate, for the amount due for the labour employed and for any other expenses incurred. Please endeavour to keep the total cost of the work down to the lowest possible point.

Sir,—

Enclosed please find pay sheet for work done on the well of Ryerson Indian Day School.

I have used the pump out of the old well as it is in pretty fair condition. We have four feet of water and trust that this will be satisfactory for the meantime. As stated in mine of recent date, this well can be finished with cement coping some time in the Spring.

Trusting that this will be satisfactory.

Sir:

I have your letter of the 26th instant, requesting that a grant be provided for the purchase of supplies for a Christmas treat for the pupils of the Indian Day Schools in your Agency.

In reply I beg to say that you may incur an expenditure for this purpose for each of the schools as follows:

x	x	x
Ryerson.....	\$10.00	

x	x	x
---	---	---

These amounts should not be exceeded in the case of each school.

Please forward properly certified vouchers, in duplicate, covering the expenditure incurred for each school separately.

I note that each of these schools is arranging for a concert and Christmas tree, and hope that the closing exercises will be a success.

OFFICE OF
INDIAN AGENT

T-886

Parry Sound, Ont.,

March 15, 1927.

The Secretary,
Dept. Indian Affairs,
Ottawa, Ont.

Sir:

I have to report that the basement of the Ryerson Indian Day School, Parry Island, is flooded by water. I was advised on Sunday that the drain was stopped and the water was rising. I gave instructions to the caretaker, Mathew King, to get the poles and wires his father, the late D. L. King, had for the purpose of clearing the drain. Mathew has been working at it off and on since Sunday. I have made an inspection as far as possible and have come to the conclusion that, as the same thing happened last spring, the drain should be opened up and cement-jointed, also the connection from the rain pipes should be cemented, that is where the rain pipe enters the tile. This, I think is the cause of the trouble, as these connections have been open and the possibility is that some rubbish has slipped down this part of the drain. There are three of such connections. Yesterday and to-day, there was a pungent odour in the school and as the water is up to the furnace door, no fire could be put in the furnace, accordingly, there is no school being held.

Please instruct if I can go ahead and open up the drain and have the tile fixed with cement at all the connections, as soon as possible. If the weather keeps mild, school will be held to-morrow. I am leaving on the 2:55 A.M. for Gibson to meet Mr. McGibbon and may be away for a day or two. Should you wire instructions to repair the drain, my stenographer will attend to the matter.

I have the honour to be.

Sir:

I have your letter of the 15th instant, reporting on the condition of the drain leading from the basement of the Ryerson Indian Day School, and recommending that it be opened up and properly cemented at the joints and different connections.

In this connection I have to confirm the following telegram of yesterday's date:

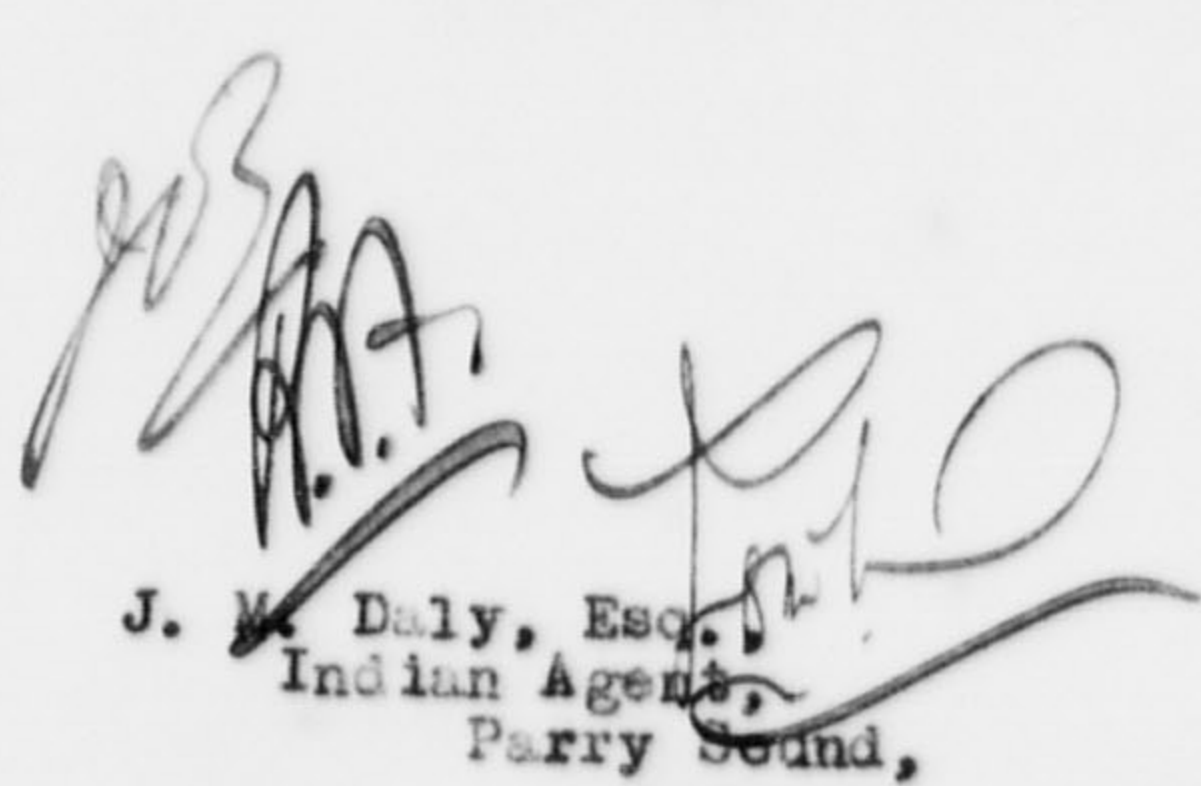

"You may open and repair drain Ryerson School. Keep cost as low as possible."

You may arrange to have this drain opened up and the tile fixed with cement at the joints and connections, as soon as weather conditions permit.

The cost of having this work done should be kept down to the lowest possible point and, when the work is completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Sir:

I have to report that while visiting Ryerson Indian Day School, at Parry Island and inspecting the buildings, on complaint of Miss McFarland, the teacher, I examined the upstairs and found that the roof has been leaking at the chimney.

The flashing requires to be looked after, and a few shingles put on. This is not to be wondered at, owing to the terrific windstorms we have been having recently. The steps approaching the school are in need of repair, and the doors will have to be rehung, as they are catching.

It appears to me that the centre foundation, which is also the foundation of the chimney seems to have settled somewhat. This defect is now being shown in the school by the plaster being cracked on both sides of the chimney. This cracking does not hurt in any way, except to the appearance, but the doors, flashing, shingles, and the steps approaching the school will have to be looked after right away.

Your early consideration would be appreciated.

I have the honour to be,
Sir,
Your obedient servant,

John M. Daly

Parry Island school is in very fair condition. The plaster on the inside walls is broken off in places. This should be repaired and the interior painted next summer. The closets are very dirty inside. The front screens have been destroyed. These should be replaced and both closets painted. This might possibly wait until next summer, but the screens should be attended to as soon as possible. Three broken window lights should be replaced.

Sir:

Mr. Inspector McGookin, who recently visited your agency, reports that the plaster on the inside walls of the Ryerson Indian Day School is broken off in places; that the closets are very dirty inside; the front screens have been destroyed and that three broken window lights require to be replaced. I have to request that you will arrange to have the repairs mentioned by the Inspector carried out. You should also see that the closets are thoroughly cleaned and placed in a sanitary condition before the extreme cold weather sets in, and the repairs to the screens should be attended to as soon as possible.

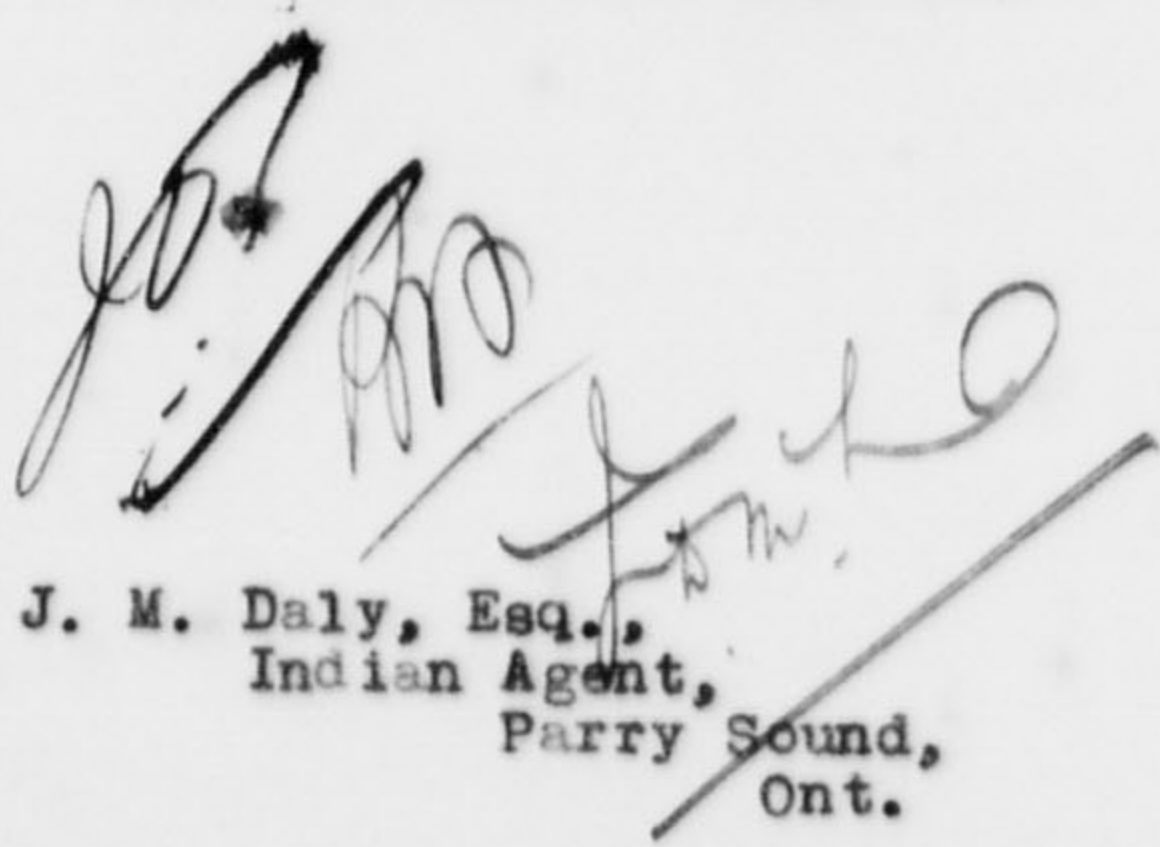

The Inspector also recommends that both closets be painted, but states that this might possibly wait over until next summer. Please state whether you would recommend that the closets be painted at the present time and the approximate cost of same, or whether you would recommend that this work be left over until next summer.

Accounts, in duplicate, properly certified, should be forwarded covering the expenditure incurred in the carrying out of the above mentioned repairs.

I have come to the conclusion after a number
of years that I cannot get satisfaction by having
Indians to do this work, and I have got an experienced
painter and am well satisfied with the job. The prices
are very reasonable.

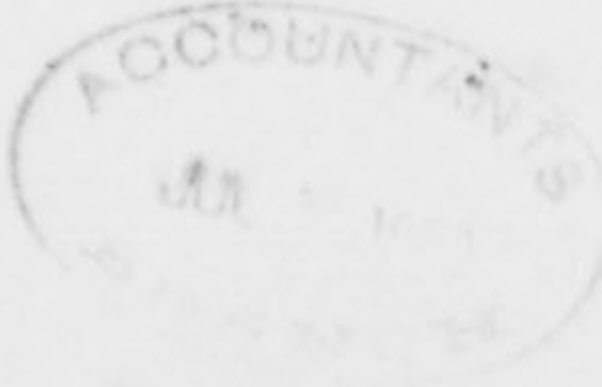

This man will start at the Shawanaga teacher's
house next week.

Please forward a cheque to cover this amount at
your very earliest convenience, as this is a hard working
man and he needs the money.

Your consideration will be appreciated.

Ryerson School - is in very good condition. The teacher, Miss Donald Young an Indian girl, is giving very satisfactory service. The classroom and residence are spotlessly clean and tidy. There is a good healthy live atmosphere in this school and the average attendance is good. The drain pipe in the kitchen of the residence is stopped. It will probably have to be taken up and cleaned out. This should be done at the earliest opportunity.

School supplies ordered before the Easter recess have not been delivered at the school. The teacher would like about a dozen simple story books for the use of the older pupils.

Requisition for School Material

Date August 26th 1931

For Myerson Indian Day School Parry Sound Agency

NOTE:—Teachers should secure from the Department of Education, of the Province in which the Indian School is located, a list of the text books authorized for use in the white schools. In ordering text books, only those authorized in this list should be requested.

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "No. Authorized".

The Secretary,
Department Indian Affairs,
Ottawa, Ont.

Sir;

In inspecting the teacher's house and Ryerson Indian Day School at Parry Island, I find that the following have to be repaired.:-

A lock is required for the back door of the teacher's house.

Three panes of glass for the cellar, two for the storm windows and two other panes of glass.

There are eight panels on the two outside doors of the school, which have been weather cracked which will have to be renewed.

The platform of the teacher's house at the back door is rotten and has to be renewed. The flooring is rotten and two of the steps will have to be renewed.

The front platform and back platform of the teacher's house have to be painted.

To preserve the back platform a gutter will have to be made to carry the water off, for which I am getting two pieces of pine to make the gutter. This, I think, will preserve the platform from the drip and keep the ice off in the winter time.

Part of the wall where the wood is thrown in, has given way and I am getting a bag of cement and having a man fix it to make the building weatherproof.

Sir;

While on a visit of inspection to Ryerson Indian Day School Parry Island, yesterday, in the course of conversation with Mr. Bolton, the teacher there, he informed me that he had received the charts and cards but on checking up he finds that he has not received six Beacon Gate to Reading, Six Beacon Primers, and teacher's Manual.

He seems to be fitting in all right and is anxious to receive these books. Your consideration in this matter will be greatly appreciated.

I have to state that on examining the back door platform, that in my endeavour to keep down expenses of repairs I had mentioned that we would put in a wooden gutter to carry the water off the back door platform. I find that this will not do, and that it will be necessary for me to put a covering over the platform in the form of a porch. I found on looking around that there was one bundle of shingles and what would be required would be about 150 feet of one inch lumber, tongue and groove, and five pieces of scantling, 2 x 4 dressed. This, I think, would be the cheapest way of getting this thing fixed up for a number of years.

I would appreciate it very much if you would grant the requisition for this.

I presume there is no use in asking for the interior of the teacher's house to be calsumined just now. It has been some time since this was done. If it is at all possible I would like to have it done between this and Christmas. If there is not sufficient funds we will have to let the matter ride until next March.

I have had a letter from Miss Emily Donald. She seems to be fitting in all right at Moose Point, and had 12 in attendance on the first day.

*Action

I met Mrs. Munson and child and Miss O'Meara and went with them north. I could not go with Miss O'Meara to the school as I had to go on to Lower French with Mrs. Munson. There is a requisition for School Material in this mail to you, for Mrs. Munson's School, Lower French, and I would be very grateful if you would pass this requisition as soon as possible. All the things mentioned are absolutely necessary, except the shelving for books. There was shelving for books made in the form of a shelf, which was not there when I looked around the place, nor mentioned in the inventory left by the teacher. I will make enquiries about this in the near future and find out what has become of it.

I am a little up against it today, not feeling very good, but expect to be able to get around and make a trip up north to see Miss O'Meara, when I shall also go to Lower French and make enquiries about this shelf. I would like to state that I believe Mrs. Munson will fit in at Lower French all right. She appeared to make a good impression on the members of the Band who were at the station and with the white people whom she came in contact with.

I should also state that the seats in the boat and the knees for same have to be fixed up, and I gave instructions to the caretaker to go ahead and make the best job possible. You will remember, Mr. Ferrier, this boat was second hand when it was bought.

We will try to make it do this season, but I am very much afraid that we will have to get another boat for next spring, but if possible I will try and make it do for another year.

Mrs. Munson seems will pleased with her school.

With kind regards to the staff, and you and yours.

Ottawa, September 11, 1931.

Sir:

I have your letter of the 3rd instant, reporting on your visit of inspection to the Ryerson Indian Day School.

Regarding the 6 Beacon Gate to Reading, 6 Beacon Primers and Teacher's Manual which the teacher informed you he had not received, I have to say that it was necessary to obtain these texts from the publishers in New York, and it is hoped that Mr. Bolton will receive them at an early date.

Regarding your recommendation as to the best means of carrying the water off the back door platform, the Department will approve of you arranging to put a cover, in the form of a porch, over the platform, and you may purchase the lumber, etc., required, in having this work carried out. Please keep all expense as low as possible, and forward an account, in duplicate, properly certified, covering the cost of the materials and for any labour employed.

The Department has no funds to provide for the kalsomining of the interior of the teacher's house at the present time.

Almond
You will be written in a separate communication regarding the furnishing of the supplies asked for by Mrs. Munson, teacher of the Lower French River Indian Day School.

to be done
It is noted that you have authorized the caretaker to make sufficient repairs to the boat at the Maganetawan School to place it in serviceable condition during the present season.

The Department is pleased to note that the teachers who have been engaged this year for the schools in your Agency appear satisfactory to you. It is hoped that they will all meet with success during the present academic year.

Your obedient servant,

A. F. MacKenzie

Ottawa, Ont.

Sir;

Enclosed please find bill for cleaning of three toilets at the Parry Island School, the boys, girls, and the teachers. I had some job getting this thing done, and have to report that the box of the girls toilet is almost past use and at the end of this school term will have to be renewed. I have arranged to have it patched up for the present.

A cheque to cover the amount of the bill, at the earliest convenience of the Department will be very much appreciated.

I have the honour to be,
Sir,
Your obedient servant,

Agent.

The Secretary,
Department Indian Affairs,
Ottawa, Ont.

Sir;

Enclosed please find requisition for school material and supplies for the teacher's house at the Ryerson Indian Day School.

I have marked the sheets 1, 2, and 3.

You will observe that on No. 2. sheet I have marked "Dont approve, never had any, and dont want to start" and have put my initials to it. That is the request for wash basins and washstands, pails for water, drinking cups, towels, soap and requisition sheets. It seems to me silly for Mr. Bolton to put on his requisition sheet, "Requisition Sheets" I did not notice it when he was here last night or I would have drawn his attention to it. He can get all the requisition sheets he requires here.

The children of this school are not the same as in the other outlying Reserves and should be made to wash at home. The drinking cups and pails, I do not think are necessary. When Miss Smiley was in this school, to keep down scaboy mouths she had them bring their own drinking vessels and in many cases provided glass pickle jars for this purpose. The reason for this order, is because of an article in the local paper written by the Missionary preacher on Parry Island, about the well ordered arrangement at Moose Deer Point School regarding the washing and teeth drill, that is practised there.

Moose Deer Point School is out of the way and is necessary to insist on this as the mothers are not so up to date as the mothers on Parry Island. In any case I don't approve of this request being granted as I think it is just a fad on the part of the teacher.

No. 1. Sheet I have marked "Seats for rear desks" and have initialed same. This means that the rear desks of the school require to be used but there are no seats for them. This is a good thing to have. I have told the teacher that I have been trying to keep down expenses and to get along as best he can until after March, however he has put it in his requisition and as it is necessary for the school, I have put in my remarks so the Department will understand what is meant.

On Sheet No. 1, the items "Kindergarten tables and chairs" I don't approve of. I have signed my initials to same. I think there is a lot of unnecessary fluff attached to the kindergarten work that the children are getting here. I don't think it is necessary to go to the expense of getting tables and chairs. I certainly don't approve of it under the present circumstances. I would like to get a little progress in the three R's in this school more than anything else.

I am very much of the opinion of the Inspector Mr. Moore, I don't know what his report was but I agree with him whatever it is, after conversation I had with him.

For the information of the Department I might say that Mr. Bolton has kindly consented to fill in and take the service of the Anglican Church at Depot Harbour, on Sundays, which is about three miles from where he is. I am pleased with him doing this.

But being cursed or blessed with an insight into human nature I am afraid it will be a case of swelled head for Mr. Bolton. I am satisfied it is only a passing phase as I know the people in this district very well, and you can do anything you like coming into this district, until after you are tried out, then you are allowed to wither and die if you are that kind.

Trusting this will give the Department an idea just how the case stands regarding this requisition.

Ottawa, December 15, 1931.

Sir:

I have your letter of the 9th instant, enclosing a requisition from the teacher of the Ryerson Indian Day School for classroom supplies and supplies for the use of the school and residence. I have noted your remarks regarding several of the requests made by the teacher. A requisition is being forwarded to the Government Stationery Office to send to the teacher's address the classroom supplies considered necessary.

You may arrange for the purchase and delivery of the following:

50 Lbs. sweeping compound	6 Tumblers,
1 Broom	1 Water dipper,
2 Sauce pans	1 Blind, green, 56" x 26",
6 Cups and saucers	10 Lbs. chloride lime for toilets.

After the above purchases have been made, you should forward an itemized account, in duplicate, properly certified, covering the expenditure incurred.

The Department is not prepared to supply the kindergarten tables and chairs, wash basins and stands, drinking cups and towels.

Regarding the 5 rear seats asked for, I have to say that the Department is of opinion that the desks at present in use were purchased from the E. N. Moyer Co. Ltd., Toronto, in 1915. If the desks were obtained from that firm, they will likely bear the stamp of the manufacturer - W. F. Vilas Company. You should ascertain the size of the desks for which the rear seats are required, and you may place an order with the E. N. Moyer Company, Toronto, for the 5 extra rear seats required. You should furnish them with full shipping directions and request them to forward you their account, in duplicate, covering the cost F.O.B. point of delivery. After this equipment is received, if in good condition, you should certify the account and send it to the Department for payment.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

Supt. Indian Education Canada,
Department of Indian Affairs,

Ck. sent June 28/32
Dear Mr. Ferrier,

EXT 22-5-3
This is to thank you for sending the teachers
cheques. I received them all except Mrs. English's
and have been wondering if it is possible that this
cheque might have gone to some other Agency. I do
know that Mrs. English needs her cheque in the worst way,
and if it has not been sent out, I would appreciate
it very much if you would send it along as soon as possible.

Refund 2.00
I was examining the well at Parry Island
and am sorry to state but it is true, we will require
to have some lumber to build a covering over the well,
a little building 6 x 6 x 7, of rough lumber, and which
should not cost any more, for materials, building and
transportation, than \$15.00. They have tried having this
well left open but it is no good, the Indians come and
use it, and the result is that it is liable to be broken.

I have to get planking eight pieces 2 x 8
for the platform, and thought when we had to get that
we might just as well get more rough boards and
2 x 4's and put a cover on the well. A padlock will also
be required to keep the well under lock and key
for the teachers use. I would be very glad if I
could have this done and I will guarantee it will be done
as cheap as anywhere in Canada.

Please let me know about this, Mr. Ferrier,
as soon as you can, as we have the pump now and I am anxious
to have this thing fixed up.

Yours truly,

John M. Daly

Sir:

I have your letter of the 24th instant, and have to inform you that cheque in payment of the salary of Mrs. English, teacher of the Ryerson Indian Day School, was forwarded in your care yesterday.

Regarding your request for authority to purchase the lumber required to build a cover over the well, I have to say that the Department will approve of you arranging for the purchase of the materials required and for the transportation of same to the school. It is noted you estimate the cost to be approximately \$15. You may also purchase a padlock, with key.

When this well house is completed, you should place the key in the possession of the teacher and forward accounts, in triplicate, properly certified, covering the expenditure incurred in the purchase of the materials and for the labour.

This work should be completed during the summer holidays.

Your obedient servant,

A. F. MacKenzie,

Sir:

I have to report that the cellar of the teachers house in the Ryerson Indian Day School is flooded. This drain has been giving a lot of trouble. I am afraid it will have to be taken up the whole way across the road to the outlet, and perhaps some new pipe put in.

Mr. Bolton the school master informs me that there is about six or seven inches of water in the cellar now. This is very unhealthy for the teacher and his family, and for the school too, and I would like to have the authority of the Department to go ahead and have it fixed up before the frosty weather comes on.

The consideration of the Department at their very earliest will be very much appreciated.

It is noted from your T-3847 of the 7th instant that the cellar of the teacher's residence at the Ryerson Indian Day School is flooded and that it is necessary to repair the drain.

You may have the drain fixed, but, as our funds are very limited, the Department will depend on you to keep the cost as low as possible.

Sir:

Enclosed please find pay sheet for work
done on the drain at the Ryerson Indian Day School.

This was a nasty job, and were it not
for the hard times, I would have thrown out the
tile that was in there, it is only four inch and
should at least, be six inch tile. However,
we made as good a job as possible and we are hoping
it wont give trouble for quite a long while.

RECORDED

Ottawa, May 10th, 1933.

Dear Dr. Mc Gill:

I inspected the Parry Sound Agency on the
25th-28th ultimo and beg to submit the following report.
x x x

The Ryerson School will need a new furnace next
winter. The one in use at present was installed in 1915
and is burned out past repair. The building is very
badly in need of paint. This should be done as soon as
possible otherwise it will deteriorate rapidly. The
interior of the residence and classroom also needs
painting. The front steps of the residence are badly
worn and should be replaced.

Sir:

Mr. Inspector McGookin, who recently visited the Parry Sound Agency, states that a new furnace is required for next winter's use in the Ryerson Indian Day School, as the present one is burned out and past repair. He also recommends that the school building be painted, both inside and outside.

I would request that, in due time, you furnish an estimate of the cost of installing a new furnace of a type considered satisfactory by you to properly heat the building. I may add that, as our Appropriation this year has been so considerably reduced, we will have no funds to carry out the painting or redecorating required at any of the Indian day schools this year.

The Inspector also states that the front steps of the residence are badly worn and should be repaired. I would request that you give an estimate of the cost of repairing or replacing these steps.

Your obedient servant,

Sir:

Replying to yours of May 19th 22-3-5 re the visit of Inspector McGookin to the Ryerson Indian Day School. I have to state that I will get an estimate of the cost of installing a new furnace and will make it plain to the hardware men that it must be good, and cheap.

Re the steps of the schoolhouse that is just a matter of the material and the time which will not exceed \$10.00. As the carpenter is not doing very much just now, I would suggest that the Department give permission for this work to be done right away.

I will endeavour to have the estimate of the cost of the furnace submitted to the Department for their consideration, some time this week.

Trusting this will be satisfactory.

Sir:

Replying to yours of May 19th, 22-3-5, and following mine of May 23rd, T- 5164, re estimate of cost of instalment of a furnace in the Ryerson Indian Day School, Barry Island Reserve, enclosed please find an estimate by Mr. T. H. Marwood. Mr. Marwood has installed the furnace at Shawanaga Hall, and at Lower French School, which we have found very satisfactory, and it appears to me that according to the work that has to be done, \$250.00 is a reasonable price.

The old furnace is quite a cumbersome affair and has a large number of bricks. The furnace that Mr. Marwood proposes to install is a good furnace which I think will be more satisfactory than the one that is in at the present time.

I would recommend that Mr. Marwood get consideration as the furnaces that he has installed in the past have given every satisfaction.

The consideration of the Department at their earliest will be very much appreciated.

MEMORANDUM:

Mr. Buckard.

It is necessary to install a new furnace in the Ryerson Indian Day School, Parry Island Reserve No. 16, in the electoral district of Parry Sound. The cost of supplying and installing the furnace will amount to approximately \$250. Funds for this purpose are available in our Appropriation for Indian Education. Mr. J. M. Daly, Indian Agent, forwarded a quotation from T. H. Marwood, Parry Sound. I shall be pleased to be advised if it will be satisfactory to place the business with Mr. Marwood or what other firms should be asked to quote.

Resolution No. 5.

That we ask the Indian Department to grant \$100.00 to

Re Resolution No. 4. that a fence be built around
the schoolhouse, I am certainly not in favour of this. This
is a case of where the schoolmaster does not understand the
situation and the same applies to Resolution No. 5 re the

all right, and as this is a time for keeping down expenses
the resolution in my opinion is ridiculous.

June 28, 1933.

DR. MCGILL.

I sent you a memorandum on June 15th, (Your File No. 22-3-5) re the installation of a new furnace in the Ryerson Indian Day School on Parry Island Reserve No. 16.

If the tender of Mr. T. H. Marwood, of Parry Sound, is regarded as reasonable, the work may be placed with him.

Sir:

I have to acknowledge your letter of the 9th ultimo, enclosing a quotation which you received for the supplying and installing of a furnace in the Ryerson Indian Day School.

In reply I have to say that, if you consider the tender which you enclosed in your letter, from T. H. Marwood, Parry Sound, is a reasonable and fair price, you may place the order with him to supply and install one McClary's "Magnet" Hot Air Wood Furnace and also to alter all pipes to suit new furnace, to repair cold air ducts, take down and remove old furnace, for the sum of \$250. I enclose Encumbrance Certificate authorizing the funds for the purpose.

The work of installing the new furnace should be carried out during the present summer holidays and you should see that a satisfactory job is completed. After the furnace has been installed to your satisfaction, you should obtain an account, in triplicate, covering the cost. This you should attach to proper voucher forms, certify in the usual manner and forward for payment. Please state on each copy of the voucher that the expenditure was incurred under authority of E. R. No. 666.

You might inform the Department what should be done with the old furnace after it is removed from the school building. Please state if it would be of any use or what disposal you would recommend be made of it.

Sir,-

The Department is in receipt of the enclosed account covering the cost of the furnace recently installed in the Ryerson Indian Day School.

The account reads "installation of furnace as per contract". You should either attach the contract to the account or give more details on your accompanying voucher. The account is, therefore, returned in order that you may prepare it in the manner required by the Department.

When returning the account, you should report fully regarding the installation of the furnace at the Ryerson Indian Day School. You should advise the make of the furnace installed and state definitely whether or not all work has been done to your satisfaction.

You should, also, let the Department have the information requested in the last paragraph of official letter of the 3rd ultimo.

Sir;

Replying to yours of August 30th,
22-3-5 re installing of furnace in the Ryerson
Indian Day School, enclosed please find account
with copy of the contract.

When writing to the Department about
this furnace I sent the contract to the Department,
and as Mr. Marwood was away from home doing some work,
I could not get the copy of the contract sooner.

I have been to the Ryerson Indian Day
School and examined this furnace and everything seems
to be in first class shape. I had Mr. Marwood
put a fire on and went over the radiators in the
school and teacher's house, and find that the new
furnace sends up heat very much more quickly than
the old one did.

I examined the old furnace. It is all
cracked and broken up, and it is scrap. I do not know
of any person who is buying scrap around here at the
present time, but owing to it being on the Island
it is going to be a hard job to turn the scrap
into money, but if possible I will do so.
There are about 1300 bricks or parts of bricks.
These bricks are cement ones and in the taking down
of the furnace they were pretty nearly all broken
in two, and the lime adheres to the bricks that were
not broken, and it is going to be a pretty hard
job to make a sale of them.

In the meantime, I have them piled at the back of the teacher's house and if it is possible to make a sale of them I shall do so. So far as I can see it is all scrap but if it is possible to turn it into money I shall do so, and whatever I get for it I shall send to the Department.

I trust that a cheque will be sent forward to Mr. Marwood as soon as possible. Mr. Marwood has taken over the Plumbing and Heating business of Wm. Beatty Company here, and would appreciate it if you would send on the cheque as soon as possible.

I consider this is a very good job. All the work that Mr. Marwood has done for the Department has been satisfactory. He installed the furnaces in the Shawanaga Hall and in the Teacher's house at the Lower French Indian Day School.

The consideration of the Department at their earliest will be very much appreciated.

I have the honour to be,

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.,

Sir;

I would respectfully draw to the attention of the Department the fact that the following schools in this Agency are very much in need of being painted. I intended to talk about this when at the Department, but unfortunately forgot about it. I therefore draw it to the attention of the Department that they might have it in the estimates for the coming year:-

Parry Island School and residence.
Lower French School and teacher's house.
Shawanaga School and teacher's house and woodshed.

It would appear to me according to the trend of prices that it would be much cheaper getting these schools and residences painted this coming summer than later on.

The consideration of the Department will be very much appreciated.

I have the honour to be,
Sir,
your obedient servant,

John M. Daly

Sir:

I have your letter of the 23rd instant, regarding the painting, during the coming summer, of the following schools in your agency:-

Parry Island School and Residence,
Lower French School and Residence,
Shawanaga School, teacher's house,
and woodshed.

In this connection I have to say that the Department is not aware as to what funds will be available for the purpose of painting and decorating school buildings during the next fiscal year. However, I would suggest that, during the month of May, next, you again draw this matter to the attention of the Department, giving full particulars concerning the painting, etc., required at each of the schools. You should indicate how you would advise having the work performed and state the cost involved. When giving this information, please report on each school, separately.

Sir:

Following mine of Sept. 11th, T- 5273 I have to state that Alfred Tabobingdong, a member of the Parry Island Band, has been to this office and offered to buy the old furnace and brick which is of no use and to remove same from the grounds of the Ryerson Indian Day School. He will pay \$12. 00 for the brick.

This, I think, is the best that I can do, for this brick is part cement and is decreasing in value the longer it stays outside, as it crumbles away.

I would recommend that this offer be accepted.

A reply at the earliest convenience of the Department will be appreciated.

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario,

Sir:

I have to report that the drain from the Ryerson Indian Day School is choked up in some way and there is water in the cellar, so much so that they cannot put a fire on in the furnace. This water has been bothering them for a day or two but we thought it would seep away however it appears that we will have to open up the drain.

The weather is raw and cold and there is no fire in the furnace so I sent word to the teacher to let the children go, and put a man on the job to find out what the trouble is. I do not think it is necessary to open up all the drain and I have instructed the man how to try and find out the trouble.

We will endeavour to get the drain fixed as soon as possible so that the children can come back to school with as little delay as possible.

Trusting the Department approve of my actions.

Sir:

Following mine of April 11th, T-5524 re the obstruction in the drain from the teacher's house at the Ryerson Indian Day School, Stephen Partridge whom I have had looking the situation over informs me that the pipes are a solid block of ice and it may take some time before they will thaw out. I do not think it advisable to open up the drain as I think in the natural course of events the ice will thaw sufficient in the pipes to let the water get away. The weather is moderating some now.

In the meantime I have instructed the teacher to hold school in the hall where the children are quite comfortable. If it is the wish of the Department that I should open up the drain and have the ice knocked out of the pipes I shall do so, but I do not think this will be necessary as it will thaw sufficient in a day or so to allow the accumulated water in the cellar to get away.

I am very much puzzled about the way this drain has been stopped up under the present occupants of the school. It never gave any trouble before. I expect to be at Parry Island in a day or so paying, and I am going to look the matter up and see if there is any way whereby we could force the ice out. I think it would be an expense to open up the drain and the possibilities are that

Following mine of May 17th, 1934,

21st, 22-3-5, re the painting of schools in this Agency.
As it has come near the time for making out the estimates
I would respectfully request that the scholastic branch
of the Department take into consideration the painting
of the schools as stated in mine of May 17th; namely
Parry Island School and Residence.
Lower French School, and Residence,
Shawanaga School and teacher's house and wood shed.

Might I state that these buildings are
very much in need of paint and if allowed to go any longer
than the coming summer they will require more repairs
and it will be more costly to have them done, therefore
I would strongly recommend that an effort be made
to get a sufficient appropriation to cover this expenditure.

The consideration of the Department in
the making out of their estimates to include these items
will be very much appreciated.

Sir:

I have your letter of the 17th instant, giving an estimate of the cost of the interior and exterior painting of the school building and teacher's house at each of the Ryerson, Shawanaga and Lower French Indian Day Schools.

In reply I have to say that our funds this year to paint buildings are extremely limited, and it is doubtful if there will be any funds to paint the exterior of these buildings. However, you might advise the Department of the cost of the kalsomine and paint required in redecorating the interior of the school buildings and teacher's residences. This information should be given for each school separately. You should also state how you would recommend that the work be carried out. Would it be satisfactory for you to purchase the paint and materials required and have the work performed by Indian labour, or would it be necessary to employ outside labour? When we have this information, consideration will be given as to the work that can be authorized.

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario,

Sir;

Replving to yours of
April 23rd, 22-3-5, re the painting of the school
buildings and teachers houses, at Ryerson, Shawanaga,
and Lower French Indian Day Schools, I have visited
the reserves recently and following are the conclusions
I have come to,-

no
The Lower French School and
teacher's residence can get along nicely with nothing
done to the interior but they are badly in need of painting
outside. I think it could be arranged to have some
of the Indians paint the buildings on the outside at Lower
French. I have not much faith in the Indians painting
as they make it patchy, but there are one or two white
people there that I could get to do this satisfactorily.
The Department could buy the paint and pay them day's
wages for the job, holding them down to a certain number
of days.

Re the Ryerson school, it will
be necessary to do some plastering, calsomining, and painting
of the ceiling of the school, calsomining, and painting
of the doors and wainscoting in the interior of the house.

In the Shawanaga Teacher's house,
the plaster is in very bad shape. Where there are only
a few places that are broken there is quite a lot of the
ceiling and walls cracked and when the plastering would
start it might turn out to be a big job, that is, where the
workman would start out to do one yard of plastering it
might turn out to be ten yards.

The man doing the plastering could
do the calsomining. There is some work to be done on the
verandah of the Teachers house at Shawanaga. I have a
requisition for this, but was leaving the whole job to be
done at the one time.

The tradesman doing the Ryerson teacher's house could do the Shawanaga Teacher's house, too.

If the Department approves of my suggestions I will get a tradesman to look over the work. I think I can get it done at a reasonable price at the present time as the men are in need of work. It would not be advisable to get Indian labour to do this work as they do not know anything about plastering and would only make a mess of the job.

to the Department.

Sir,-

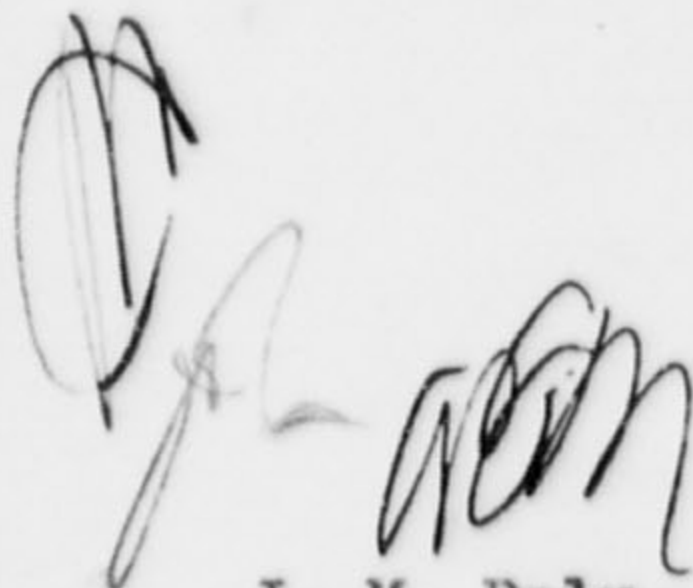

With reference to your T-5167, which has just been received, I beg to say that, in view of your report, the Department is not prepared to incur any expenditure in painting the Lower French River Indian Day School and teacher's residence this year.

With reference to the plastering, kalsomining and interior painting required at the Ryerson and Shawanaga Schools, you may have a tradesman look over this work and obtain a price from him. This information should be forwarded to the Department and the expenditure required at each school should be stated separately. You should, also, give the name and address of the tradesman whom you recommend be given the work.

Sir;

Replying to your letter of May 13th, 22-3-5, with reference to the plastering, kalsomining and interior painting required at the Ryerson and Shawanaga Schools, according to the Department's instructions I have interviewed a tradesman, Mr. Percy Emes of Parry Sound, who is a good tradesman, and will do the job correctly. This man was recommended by Col. Arthurs. M.P.

He will do the work on time, the Department supplying the material. This I think is the cheapest way to get this thing done. I know Mr. Emes to be a real decent fellow and I think he will give satisfaction. He charges 60¢ an hour for himself and 30¢ for his labour. Mr. Emes will not make an estimate as he thinks it would not be fair, he might charge too much. I would recommend that this man's offer to do the work, be accepted.

Trusting this will be satisfactory.

Replying to yours of May 25th, 22-3-5, re the approximate length of time that would be required to do the work at the Ryerson and Shawanaga Indian Day Schools, I have to state that the approximate wages for Shawanaga would be about, \$43. 20, and about the same for the Ryerson Indian Day School.

The material would have to be supplied by the Department, which would not exceed \$20.00, or the approximate cost for the two jobs and travelling expenses would be somewhere around \$146.40. If possible we will keep within this. There will be no charges except for actual work done.

Sir:

I have your letter of the 29th ultimo, stating the approximate length of time that would be required to carry out the plastering, kalsomining and interior painting necessary at the Ryerson and Shawanaga Indian Day Schools.

In this connection I have to say that you may purchase the materials required, from firms on the approved list, and arrange with Percy Emes, of Parry Sound, to perform the work. You should forward itemized accounts, in triplicate, properly certified, covering the cost of the materials for each school, separately, and also returns of the labour, in triplicate, for each school. These returns should show the number of days employed and the rate paid per day or per hour.

Please have this work carried out during the coming summer holidays and see that a satisfactory job is completed at each of the schools. It is noted that the cost for the two jobs, including travelling expenses, will be, approximately, \$146.40. You should see that all expense in connection with the work is kept as low as possible, having in view the completing of a satisfactory job.

Sir;

Enclosed please find requisition for school material at the School and Teacher's house Myerson Indian Day School, Parry Island.

I am sending this covering letter to explain that Miss McArthur is a new teacher in this school. I have known this girl ever since she was a pupil in the school here. She passed with honours and now has her B.A. (Queen's University), and has also been a teacher in the High School. The reason she accepted this school was that she wishes to be at home near her mother. Her father died about two months ago. Her father was a returned soldier and an employee of the Ontario Forestry Branch here, for the last 13 years. I knew both her father and mother well.

The late teacher of the Myerson School did not keep the house in very good shape. These supplies are required, for both the house and the school. This puts the school and house in fairly good shape to carry on.

The consideration of the Department will be very much appreciated.

RECORDED

T- 6369

Parry Sound, Ont.,
December 11, 1935,

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario,

Sir,

I have to report that the roof of the school building of the Ayerson Indian Day School is leaking. I had a carpenter go up the other day and examine this. He informed me that the zinc gutter requires to be renewed. The frame work of the bell tower has also to be renewed. The water is coming down into the school and streaking the wall.

The weather is suitable at the present time to get this thing done as there is no snow on the roof. It will require about 36 feet of zinc for both the gutters, 2 bundles of shingles, and about 50 feet of hardwood for the frame of the bell. The labour will cost more than the material as it is one of these jobs where you have to tear up and replace.

This thing has to be done right away.

The exact cost I cannot state, but I can assure the Department that everything will be done at the lowest possible price.

Please reply by return mail if I can go ahead and have this work done.

I have the honour to be,
Sir,
Your obedient servant,

I have to inform you that the sum of \$200 is provided in our Appropriation for the current fiscal year to give two coats of paint to the exterior of the Ryerson Indian Day School, this being the amount as requested in the estimates submitted by you.

Please advise how you would recommend having this work carried out. Would it be satisfactory for you to arrange for the purchase of the paint, etc., required, and have the work done by Indian labour? Would it be necessary to engage the services of a competent carpenter-foreman to oversee the work?

Sir:

I have to report that in an interview with A. G. Slaght, K.C., M.P. for Parry Sound District, he talked to me about the painting of the Shawanaga Indian Day School and in the course of conversation I explained to him that there are two other schools to paint, one Parry Island and the other Lower French.

We talked of Widow Wm. Fritsche, who has a man by the name of Nurnberg employed to do the painting, and I explained to Mr. Slaght that Nurnberg had painted my house and made a good job of it and I was sure that he would make a first class job of the school at the price quoted. Mr. Slaght asked me if it was satisfactory for me to have Mrs. Fritsche get the contract with Nurnberg to do the work for her, and I told him that I was satisfied that we would get a better job done on the schools than has ever been done before. He advised me to go ahead and get the work done as the weather is suitable.

I might explain to the Department that this is the first time I have ever been interviewed by the member for the District in connection with work, and I would appreciate it very much if the Department will advise me that Mrs. Wm. Fritsche can have the contracts for the schools as follows:-

Parry Island	-	\$200.00
Lower French	-	230.00
Shawanaga	-	230.00

I am perfectly satisfied that I can get a good job done

for this money. I should state that these schools have been long overdue for painting and I am anxious to see that the best possible job will be done on a two coat job.

I would appreciate it very much if the Department would say if I can go ahead and get the painting done.

There is a lot of painting being done in this section of the country at the present time and as one of these schools is out of the way I would like to have them all done by the end of August, if possible.

The consideration of the Department in this matter by return mail, if possible, will be very much appreciated.

Dear Sir:

I have your letter of the 13th instant, regarding the painting of three Indian Day Schools in the Parry Sound agency, viz.: Shawanaga, Lower French River and Ryerson (Parry Island).

You were written yesterday, regarding the painting of the exterior of the Shawanaga Indian Day School and teacher's residence.

The Department will approve of you making the same arrangements for the purchase of materials and for the carrying out of the work at the Lower French and Parry Island Schools as in the case at Shawanaga. You should arrange for the purchase of the materials, paints, oils, etc., from the McKinley Hardware Company, Parry Sound, or other firms on the approved list, and the work can be performed by F. Nurnberg, in the employ of Mrs. Wm. Fritsche. It is understood that Indian labour will be utilized to assist Mr. F. Nurnberg in carrying out the work.

I may say that the funds provided for the painting at each of these schools are as follows:-

Shawanaga	-	\$230.00
Lower French	-	230.00
Ryerson (Parry Island)	-	200.00

The total cost of material and labour at each school should not exceed the amount provided. After all work has been completed to your satisfaction, you should forward accounts, in triplicate, properly certified, covering the cost of the paint, etc., and returns, in triplicate, for the labour. The number of days or hours employed and the rate paid should be definitely stated.

It is noted that the Federal member for the constituency approves of the work being carried out as stated above. The matter of colours of paint and the work to be done for the funds provided will be left in your hands.

Sir;

Replying to yours of Oct. 8th, 22-3-5
re the roof of the Myerson Indian Day School leaking,
I might state that this leak is in connection with
the chimney and I think it is the flashing that is
wrong. It has been fixed up before and seems not
to be satisfactory. When the wind is blowing from the
North west it seems to leak.

I will have the carpenter, Stephen Partridge
look the matter over with as little delay as
possible and have him give an estimate of the cost.

I will notify the Department as soon as I get
this statement.

Oct. 29th, 1936,

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario,

Sir;

Enclosed please find pay sheet for repairs done
on the Myerson School Parry Island Reserve.

I have to state that in discussing the matter
with Stephen Partridge re the condition of the roof, he
is of the opinion that it will have to be resingled
in the very near future. I had him go over the whole
roof of the building because to me it seemed that there
were quite a lot of the shingles split, and as the
Department knows, when shingles are split there is liable
to be a leaky roof.

I would therefore suggest to the Department that
in their estimates for the coming year that they would
allow for the shingling of the roof. The Department
have the plans of the building there and would be able to
estimate how many shingles it would take to do the
building.

The consideration of the Department in this
matter will be very much appreciated.

I have the honour to be,
Sir,

The Secretary,
Dept. Mines & Resources,
Indian Affairs Branch, Ottawa, Ont.,

Sir;

I have to report that the following repairs
will have to be done at the Myerson Indian Day School,
Parry Island,-

The cement wall on the outside of the stairway
leading to the cellar has collapsed and will have to
be repaired.

The drain, leading from the kitchen, to across
the roadway, will have to be cleaned out.

The three toilets will have to be cleaned.

I cannot give an estimate of the cost of this,
but can assure the Department that it will be done at
the least possible cost.

Trusting that the Department will grant
these necessary repairs.

I have the honour to be,
Sir,
Your obedient servant,

John M. Daly

Dear Sir:

With reference to your letter of the 18th instant you may arrange for cleaning the toilets at the Ryerson Indian Day School. You may also have the drain cleaned out and the cement wall on the outside of the stairway repaired. The cost of the above should be kept as low as possible.

Yours truly,

Philip Phelan,

THE SECRETARY,

OTTAWA, Ontario.

Dear Sir:- Re your letter of June 23rd,
file No. 22-3-5 granting permission for
repairs to Myerson Indian Day School.

I beg to report that I have
examined the school and find that besides the
repairs authorized in your letter the following
work should be done. The main foundation wall,
where the wall around the outside stairway abuts
it, is broken 4' by 6'. In my opinion, it would
be useless to fix the wall around the stairway
without fixing the portion of the main wall which
is broken.

I also find that the shingles
are half off the roof of one lavatory, and that
the steps leading to one of the school entrances,
are in very bad condition. There are also three
panes of glass out of the basement windows.

These three last items mentioned,
would not cost very much. The main expense would
be the cement work.

I would be glad if you would give
this matter your consideration and advise me.

Thanking you, I am,

Very truly yours,

Gerald M. Taylor

Dear Sir:-

I am enclosing voucher No. 35
in favour of Mr. Frank McCallum. This
expenditure was incurred to deliver
material for repairing the Parry Island
School. Under ordinary circumstances,
the merchants from whom this material
was purchased, would have delivered it
but on account of having to cross over
to Parry Island on a ferry from Parry
Sound, they were unable to do so as the
ferry will not carry heavy trucks.

Trusting this explanation will
be satisfactory, I am,

Dear Sir:- Re water supply for Ryerson Indian
Day School.

I wish to advise you that there are two wells
from which this school may get water and they
both appear to be in bad condition.

Mr. Horne, the present teacher at Ryerson
School has sent samples of water from both these
wells to the Health Department at Toronto for
analysis and they both have been rated "D",
which I believe is very poor.

I am enclosing reports received by Mr. Horne
and I wish you would give this matter your
consideration and advise me what should be done.

Kindly return the reports as I wish to give them
back to Mr. Horne.

Thanking you, I am,

Dear Sir:

I am in receipt of your letter of the 25th ultimo with reference to the water supply at the Ryerson Indian Day School.

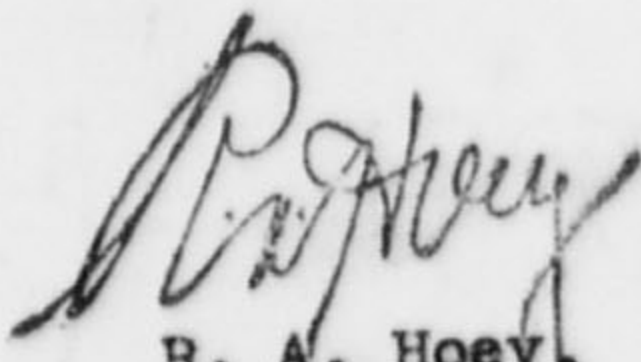

In view of the report that has been received regarding the condition of the water the teacher should be instructed to boil all water used for drinking purposes. If it is necessary to purchase any special vessel in which to boil the water you may do so. At the present season of the year it is impossible to consider digging another well.

Have you made certain that there is no sewage that might be contaminating the water in the well? The reports which you forwarded are enclosed.

Dear Sir:- Re your letter of December
12th, file No. 22-3-5.

I am enclosing a clipping of a stove which
I think would be suitable for Ryerson Indian
Day School. This is a wood stove with four
large holes and two small ones. It burns
eighteen inch wood and has a reservoir attached.

I am also enclosing a letter from McKinley's
Hardware in which they submit the price of
\$55.00 for this type of stove installed in
Parry Island School.

Mr. McKinley assures me that this is an
exceptionally good price and if you care for
me to purchase it locally, here in Parry Sound,
I will be glad to look after the matter for
you.

Trusting this will be satisfactory, I am,

Dear Sir:-

As you know, we recently purchased a new cook stove for Ryerson Indian Day School, and I have had the old one stored in the basement.

I wish you would give me permission to sell this old stove for the best price I can. It is of no use to us, and although it is not of much value, I think I could dispose of it and thus get it out of the way.

Trusting to hear from you, I am,

Yours very truly,

Dear Sir:

I wish to have authority for the following expenditures:

Deepening the well at Ryerson school on Parry Island Reserve and building cover and windlass, \$35.00.

Repairing and cleaning well at school on Shawanaga Reserve and building windlass, \$35.00.

Both the above named schools are now without any near water supply and I would like to have this work carried out as quickly as possible. I propose to use the windlasses on these wells instead of pumps, as public pumps do not last any length of time and when they get broken the well is definitely out of commission.

Yours very truly.

Dear Sir:

Re: Vouchers Nos. 765 and 769 enclosed.

I have been obliged to exceed the amount authorized for expenditure for the purpose of digging a well for the Parry Island school. My original intention had been to repair an old well near the school which had caved in, but I found this to be impracticable and decided to dig a new well in a better situation. Under the difficulties encountered with quicksand this proved to be a little more expensive than I had originally estimated and I found it necessary to exceed the sum authorized by the amount of these two vouchers for material, which expenditure I hope you will be able to authorize.

Samuel Devlin

Dear Sir:

I would like to have your authority for the expenditure of a sum of approximately \$20.00 for repairs to the Ryerson Indian Day School on Parry Island. The roof leaks in a few spots and needs patching up with shingles and at least two of the windows require to be hung on hinges for convenient opening for ventilation.

Yours truly,

Samuel Devlin,
Indian Agent.

Dear Sir:

I am in receipt of your letter of the 23rd instant with reference to the expenditure of \$20.00 required for repairs to the Ryerson Day School. You may arrange for these repairs.

An amount of \$250.00 is being provided in the current year's appropriation for repairs at all the day schools in your Agency. It should be distinctly understood that owing to present conditions it will be impossible to provide any larger amount and consequently you should report to the Department regarding the repairs required at the other schools keeping in mind the amount provided.

Yours truly,

I wish to have your authority to purchase the following equipment for the teacher's residence, Ryerson Indian Day School, Parry Island.

- 3 Dinner plates
- 3 Tea plates
- 3 Soup plates.
- 1 Saucepan
- 2 Pudding dishes
- 1 Cream Pitcher
- 1 Sugar Bowl
- 6 Teaspoons
- 3 Tablespoons
- 3 Knives and forks
- 3 cups and saucers
- 2 Pr. Sheets
- 1 Pr. Pillow slips.

I might say in explanation that most of these articles have formerly been part of the equipment of the teacher's residence, but as teachers for a number of years at this point had been married, as the articles wore out they replaced them with their own, which accounts for the present shortage.

The items listed are necessary to establish the new teacher, Miss Fairservice.

I request authority for the expenditure of approximately \$77.31 for repairs to the Ryerson Day School, Parry Island as per enclosed estimate.

nc
The bulk of this expenditure will be for two new sets of steps for the front entrance. The old steps are getting very unstable and I am afraid of an accident. Other items are the renewal of boxes in the three toilets and some small incidental repairs.

Gentlemen:-

We have an account open on our books in
the amount of \$3.24 as per statement enclosed.

A number of rebills have been mailed to
you, none of which has been returned by the Postal
Department. Not having heard from you to the
contrary, it would appear that the account - although
quite in order - has just been overlooked.

Having brought the matter to your attention
again, we trust we may be favoured with an early
remittance.

Yours very truly,

I am enclosing estimates of repairs necessary to the various schools in this Agency. Some of these estimates may appear high but the fact is that various repairs which were put off during the war years have accumulated.

The largest amount is for the Gibson Day School, the bulk of which is for fencing the school grounds and the erection of two new toilets. Authority was granted last year for these toilets to the amount of \$112.00. I was unable to proceed with the work last year due to both the shortage of material and labour. I propose, if possible, to have it done this summer but a review of the situation shows the costs to be considerably increased due to prices of both material and labour.

I would be glad to have these costs for the various schools passed if at all possible but should it not be possible to pass on the amounts requested because of non-inclusion in the estimates, you might indicate what amounts would be available for expenditure on the various schools and I will have as much as possible completed this year and the balance next year. Your prompt attention to this will be appreciated as I would like to have the work completed during the summer holidays.

Samuel Devlin,
Indian Agent.

OK

I request a further advance of \$150.00 to pay wages for school repairs in this Agency. I regret that my estimates in the first place were not sufficient but I had considerable difficulty in getting the work done, particularly at Parry Island where the original man whom I had figured on to do the job was taken ill and I was obliged to pick up one or another Indian until I had a half dozen eventually to complete the job. I was, of course, unable to be there continually and when the final bills were rendered the total was exorbitant and I have already reduced them by one-third.

Mr. S. Devlin, Supt. of Indian Agency,
Parry Sound, Ontario.

Ryerson Indian Day School.

We regret that Mr. Sampson has not arrived as teacher at the above Indian Day School as arranged for. The Department concurs in your having Mrs. Perry re-assume her duties as teacher at this school. Mrs. Perry will receive the same rate of salary as that paid her previously, namely, \$138.00 a teaching month.

It is our intention to include a sum for the erection of a new classroom at Ryerson in our next year's Main Estimates. Therefore, you can include the sum of \$14,000.00 for the erection of such a building in the estimates which you will be submitting shortly.

This will mean that the erection of the school should be begun in the Spring of 1949.

Supt. of Indian Education.

I am enclosing statement of repairs necessary for the various schools in this Agency.

The school on the Gibson Reserve had not been painted on the outside for a number of years and this job can now be done.

At the school at Shawanaga considerable damage had been done recently to the windows, as per my letter of July 20, and it will be necessary for me to send a glazier from Parry Sound to repair the damage. Hardwood flooring requires to be laid where the teacher's platform was taken out last year and the porch on the building needs considerable repair.

At the Lower French School the woodshed has collapsed and will require to be rebuilt entirely. There is also some work to be done on the foundation of the school proper.

At the Ryerson School on Parry Island the kitchen drain has blocked up on various occasions with the result that the cellar has been flooded for lengthy periods. I believe that the drain will have to be dug up throughout its whole length and replaced.

If these expenditures are possible, I would be obliged if you would give me an accountable advance of \$350.00 to pay for labour. Materials may all be purchased locally and the work will be done in all cases by Indian labour with the exception of the windows for the Shawanaga School.

Yours truly,

(Sgd) Samuel Devlin
Indian Superintendent.

I am enclosing a supplement to the estimates for 1949-50 covering repairs to day schools in this Agency.

Mr. Morris, Regional Supervisor, on a recent visit here advised that I should endeavour to have the Ryerson Day School re-shingled next year and the same for the Shawanaga Day School. The chimney on the Ryerson Day School is also in bad shape and might be rebuilt at the time we are having the roof shingled.

Mr. S. Devlin,
Superintendent, Indian Agency,
Parry Sound, Ontario.

Ryerson Indian Day School.

The Estimates for 1949/50 have now been approved by the Treasury Board and we are in a position to advise you that we have the sum of \$14,000.00 to spend on the erection of a one-room school and attached teacher's residence at the above school. This is intended to be a new building, preferably in the same school yard, and would not be an addition to the present school.

Please find attached the following documents:

- (a) Information Report to be completed by you on this project (three copies are to be filled, one for your files and two to be mailed here).
- (b) A blueprint, plan 888.

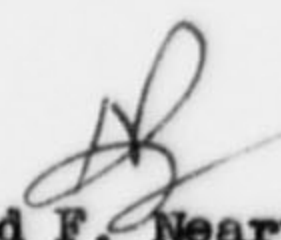

We feel that this school will be quite satisfactory for your purposes at Ryerson and the only change will have to be the provision of electricity. We are writing to the Hydro Electric Commission for the preparation of a lighting plan for this type of building. I presume, from previous correspondence, that you will wish to have tenders called for the erection of this building. However, your knowledge of local conditions will be necessary to advise the Department in this regard. It is

presumed that there will be sufficient space in the present school yard for the new building. In orienting this building, please note that it is designed to face in a southerly direction, but that the wall of windows could be faced towards the east. I would suggest that you send in a small sketch of how you propose to locate the school on the present property. You should also indicate whether additional land will be required.

Rate - \$1.50 per hour.
7. If by tender, give names of local newspapers in which you recommend we advertise:
8. Give complete details as to shipping instructions for supplies to this school: c/o Indian Supt., Parry Sound, Ontario
9. The first step in the construction of any School is the location of water. Have you had a well dug, and if so, with what success?
A well already dug close to school building. Intend to have it cleaned out and samples analysed.
10. Normally we do not provide one and two room Day Schools with electricity or running water unless hydro is available in the immediate vicinity of the school. Please state if hydro is available for this project.
No hydro at present available, but hope to have it extended to the Reserve in the near future.
11. What type of fuel would you recommend: Wood
12. What steps, if any, will be necessary to secure title to the selected school site?
Am arranging to purchase site from Indian owner and am submitting tentative agreement of sale.
13. Has an official of the Education Division assisted you in selecting this site?
Regional Supervisor Morris agreed with me on site.
14. Have you oriented the proposed school on the site?.....Yes.
 Remember: 1. The "Wall of windows" is designed by the Architects to face SOUTH
 2. Elevation should insure adequate drainage.

This will acknowledge receipt of your letter of April 27 with reference to the proposed new school building on the Parry Island Reserve. The Regional Supervisor, Mr. Morris was recently a visitor here and we looked over the proposed site for this building and he agreed with me that it would be the most satisfactory location. This location will be directly across the main Reserve road from the old school and is high enough to insure drainage. The site, however, is in the ownership of an Indian, Gilbert Tabobandung and I have arranged to purchase from him one acre of land at a price of \$25.00. I am enclosing a tentative agreement of sale and would be obliged if you would have the proper document drawn up and submitted to me for his signature. Gilbert Tabobandung holds approximately five acres of land, having a frontage on the road of approximately 416 feet and a depth of 625 feet. This was allotted to him by resolution of the Parry Island Band Council dated August 6, 1942. I am enclosing a sketch showing the location also two copies of the information report.

There is a well at present close to the new school location and which will be on the land which it is proposed to purchase. It is my intention to have this well cleaned out and the water tested.

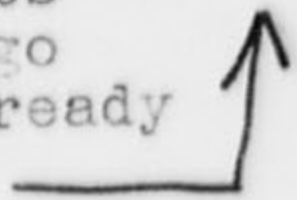

✓ I am recommending that the building be erected by day labour and can obtain the services of a foreman carpenter whom I believe to be an exceptionally good man and have seen him at work in charge of other buildings. There are only one or two contractors in town who might be interested in putting up this building on the basis of tender and I have not much confidence in their work and believe that we would get a much better job done in the manner I have suggested and at perhaps

less cost. I can very strongly recommend the man whom I have selected and whose name is Christopher Junck, a resident of Parry Sound. He will hold himself open for a few weeks and I would be pleased if final arrangements could be completed as soon as possible so that we may go ahead with the work and have the school, if possible, ready to open for the fall term. 

No electricity is at present available on the Reserve but the Band Council have recently signed a resolution requesting that the Hydro Electric Power Commission extend their services to the Parry Island Reserve and I am taking this up with the Commission.

Mr. Samuel Devlin,
Superintendent, Indian Agency,
Parry Sound, Ont.

Ryerson Indian Day School

Your letter of May 10 has arrived, and the necessary action has been taken:

1. A memorandum has been sent to the Deputy Minister requesting approval for the hiring of Mr. Christopher Junck of Parry Sound, Ont., as foreman-carpenter at the rate of \$1.50 per hour.
2. A request has been sent to the Departmental Purchasing Agent for all the materials required for the construction of a one-room Indian Day School and residence, Plan 888. We have mentioned all the firms included on your information report.
3. You should proceed to have the well cleaned and tested as soon as possible, as it is most important to have a satisfactory supply of water before proceeding with construction.
4. As it will take approximately three weeks to one month before building materials start arriving, I do not feel you will be able to do much more than the excavation before the end of June. The cement usually takes at least three weeks.

If the cement arrives and Purchase Orders have not been issued for the lumber, then wire me and we can arrange for an authority for local purchase of the form lumber required for the foundation. Then Mr. Junck can at least proceed with this part of the building.

5. When the building has been started, please write me immediately, and I will send you a set of blue prints and specifications covering the installation of electrical wiring in this building. You can then obtain tenders from local electricians for wiring the building as it is erected. It will be cheaper to have it done then than to wait until next year when Hydro is available.

Superintendent of Education.

Memorandum:DEPUTY MINISTER

Re: Ryerson Indian Day School
Parry Sound Indian Agency, Ont.

Included in our 1949-50 Estimates is the sum of \$14,000.00 for the erection of a one-room school and teacherage on the Ryerson Reserve, Parry Sound, Ont. This is to be a second classroom to the school already erected there. Mr. Indian Superintendent Devlin has recommended that this building be erected by day labour using a foreman-carpenter and local Indians. In his letter to the Department recommending that we employ Mr. Christopher Junck of Parry Sound, Ontario, at the rate of \$1.50 per hour, Mr. Devlin makes the following statement:-

"I am recommending that the building be erected by day labour and can obtain the services of a foreman carpenter whom I believe to be an exceptionally good man and have seen him at work in charge of other buildings. There are only one or two contractors in town who might be interested in putting up this building on the basis of tender and I have not much confidence in their work and believe that we would get a much better job done in the manner I have suggested and at perhaps less cost. I can very strongly recommend the man whom I have selected and whose name is Christopher Junck, a resident of Parry Sound. He will hold himself open for a few weeks and I would be pleased if final arrangements could be completed as soon as possible so that we may go ahead with the work and have the school, if possible, ready to open for the fall term."

Memorandum:

DEPUTY MINISTER

Re: Ryerson Indian Day School
Parry Sound Indian Agency, Ont.

Included in our 1949-50 Estimates is the sum of \$14,000.00 for the erection of a one-room school and teacherage on the Ryerson Reserve, Parry Sound, Ont. This is to be a second classroom to the school already erected there. Mr. Indian Superintendent Devlin has recommended that this building be erected by day labour using a foreman-carpenter and local Indians. In his letter to the Department recommending that we employ Mr. Christopher Junck of Parry Sound, Ontario, at the rate of \$1.50 per hour, Mr. Devlin makes the following statement:-

"I am recommending that the building be erected by day labour and can obtain the services of a foreman carpenter whom I believe to be an exceptionally good man and have seen him at work in charge of other buildings. There are only one or two contractors in town who might be interested in putting up this building on the basis of tender and I have not much confidence in their work and believe that we would get a much better job done in the manner I have suggested and at perhaps less cost. I can very strongly recommend the man whom I have selected and whose name is Christopher Junck, a resident of Parry Sound. He will hold himself open for a few weeks and I would be pleased if final arrangements could be completed as soon as possible so that we may go ahead with the work and have the school, if possible, ready to open for the fall term."

I would recommend, therefore, that you approve the erection of this one-room school by day labour and the employment of Mr. Christopher Junck of Parry Sound, Ontario, as foreman-carpenter at the rate of \$1.50 per hour.

I am in receipt of your letter of May 27 and note that all necessary arrangements are now being made for the construction of the new school on Parry Island. I can at any time proceed with the clearing of the site and the necessary excavation.

In order that there may be no delay with the payment of wages, I would be obliged if you would have an accountable advance of say \$5000.00 made to me for this purpose. If further advances are necessary they can be arranged for later. I can then also proceed with the cleaning out of the well.

I am enclosing a schedule of repairs necessary for the Ryerson Indian Day School and the Shawanaga Indian Day School. These repairs are considerably overdue and I would like to get them done if possible during the summer holidays.

In order to do this, it might be necessary to employ other than Indian labour for the bulk of the work as at this time of the year the majority of the Indians are absent from the Reserves on their summer vocation as tourist guides.

As will be seen from the schedule, the materials required will amount to \$535.00 and the labour I have estimated at \$490.00. The materials may be purchased locally and if you approve of these repairs, I would wish to have an accountable advance of \$490.00 as soon as possible to take care of the labour charges.

We have your letter of the 29th ultimo enclosing statement regarding repairs to the Ryerson and Shawanaga Indian Day Schools. It is noted that you estimate the cost of the materials will be \$535.00 and the labour \$490.00.

In order to comply with departmental purchasing regulations, it will be necessary for you to forward a requisition for the materials required so that they may be purchased from the Departmental Purchasing Agent. The requisition should contain specific information regarding the quantities and types of material necessary, and if you have any prices from local merchants you should also attach them for the guidance of the Departmental Purchasing Agent. When we receive the requisition for submission to the Departmental Purchasing Agent, we will arrange to forward you an accountable advance for labour.

I am in receipt of your telegram of yesterday's date with reference to material for the new school on Parry Island. The Beaver Lumber Company are prepared to give a complete quotation but were unable to do so in the first instance as they had not been supplied with a blueprint. I have a copy of this blueprint which I will let them have temporarily so that they may complete their estimate.

C. F. Jacklin are not prepared to quote on the entire bill but will send you in a quotation on the items which they can supply.

Mr. S. Devlin,
Supt. of Indian Agency,
Parry Sound, Ontario.

This refers to your letter of
July 29th in connection with your voucher 456
for Credit Voucher amounting to \$241.75.

When your Labour Returns for
the week ending July 9th and 16th were received,
a Credit Voucher for \$249.00, being the gross
salary paid was made up and forwarded to Treasury
for payment. This voucher has now been paid.

When your voucher was received,
the case was brought to the attention of Treasury
officials and it was noted that on your voucher you
did not include the Income Tax deductions and
Employers' Share of the Unemployment Insurance. We,
on the other hand showed the Income Tax Deductions
but not the Employers' share of the Unemployment
Insurance.

The Treasury Branch are requesting
that for every vouchered labour return you pay the
Unemployment Insurance, both employers and employees
share; and the Income Tax which should be sent to the
local Income Tax Office, and then prepare a voucher for
the amount of the Gross Salary paid plus the employers
share of the Unemployment Insurance. Also quote the
cheque number sent to the Income Tax office.

This means that in the case of these two pay lists the voucher should have read for \$149.70, as the voucher for \$149. has been put through. In order to keep the books straight you should place another voucher for 70¢ to clean up the Employers share of the Unemployment Insurance providing the employee concerned has had his stamp placed in a book. If the latter has not been done it should be done and your bookkeeping that far will be complete.

Trusting this information will assist you in keeping your books in order and in agreement with Treasury records.

Bernard F. Neary,
Supt. of Indian Education.

With reference to the materials required for the new school on Parry Island, I am advised by the Beaver Lumber Co., that they have now received a purchase order for these materials, with some exceptions, which are mainly as follows:

P.O. 46307
e.g. Devlin
Parry Sound
Insul-Brick Siding
Shingles
Brick
Window sash & frames

Some of these items are not ordinarily carried in stock and if they are to supply them the Beaver Lumber Co., must order them immediately to insure supply in time.

Please advise if these have been omitted from the Purchase Order inadvertently.

I wish to advise that the construction is now well under way, the roof is completed and shingled and the siding is now going on. There will remain the finishing of the interior, laying of floors, etc.

I am advised by the Beaver Lumber Co. who have the orders for the bulk of the material required that they are unable to obtain the hyloplate blackboards. Would you please advise me if there is any source from which the Purchasing Department would be able to obtain these or if there is an alternative type which might be used.

Fort William November 22^d 1909M^r J. Bonin

Acting Indian Agent,

Dear Sir,

The Indians residing at Sandy
 Lake region are very desirous to have a school
 open for the benefit of their children at the said place.
 The children of school age number between 1 and 20
 residing at the same place. It seems to me very desirable
 to have a school open for them there, they are willing

to have the school at their own expenses provided the
 Government furnish them with boards and shingles for
 flooring. M^r John Fitzblack well qualified to teach
 school and would build the house himself and teach
 school to these children if the Department is willing
 to appoint him for the purpose. I hope that you
 will do all in your power to have a school open
 to these Indians.

I remain your humble servant,

Sir,

I herewith enclose communication from the Rev Father Dugas asking on behalf of the Indians at Sandy Point on Lake Nepigon, to have a School erected at that Place.

You will notice the Rev Father says that there are , from 15 to 20 Children of School age.

He says also that the Indians are willing to furnish their own time and also the Logs for the Sides of the building , providing they be furnished with the Lumber for the Floor and the Roof.

This would cost about as follows:

1" Boards	\$30.00
2'sx4's	5.00
Shingles	10.00
Freight	15.00
Total	\$60.00

Should you feel disposed to grant them this expenditure, and that of a teacher you may let me hear from you.

I have to acknowledge the receipt of your letter of the 30th ult. inclosing a communication from the Rev. Father Dugas asking for the establishment of a school at Sandy Point, on Lake Nipigon, and in reply I beg to say that the Department cannot identify this place. You will, therefore, be good enough to furnish a sketch showing the position of the locality so that it may be identified on the map.

You should also state what band of Indians are resident there. The Department is under the impression that these are some stragglers from the Red Rock band, who have located in this vicinity. The census returns do not show any Indians belonging to Sandy Point.

Upon receipt of this information the application will be dealt with.

Sir,

For some time I have had correspondence with the Indians at Sand Point re establishment of a school.

Some months ago I told them that if they got out logs for the building and gave their labor free that the Dept. would likely furnish the flooring, roofing, windows, doors and nails.

Last week they wrote to the effect that they were commencing to cut the logs for a building 18' x 20'. I wrote them that the building should be 20' x 30'.

Kindly advise if I may purchase the material required provided the Indians give their labor free.

There are more children at Sand Point the year around than at any other village in the agency except Mountain Road.

There are between 20 and 30 children of school age.

Yours truly,

W. R. Brown

There should be a school at Sand Point.

MEMORANDUM.

Mr. Scott,-

Mr. Agent Brown, Port Arthur, requests that the Department supply flooring, roofing, windows, doors and nails to the Indians of the Sand Point Reserve to enable them to complete a log school building which they intend to erect. The Indians intend to get out the logs and do the entire labour free.

Sand Point is situated on Orient Bay, Lake Nipigon, near the Ontario Government fishing station. It is in the centre of a tourist region. The Agent states that there are between 20 and 30 children of school age. Mr. Paget informed me that while he was there last summer he was frequently asked by Americans why the Government did not provide a school for the Indian children who are running wild around the place. He states that a school is urgently required for the Indians of this reserve.

The Agent has not furnished an estimate of the cost of supplying the above material, but I would like to advise that he be authorized to purchase the flooring, roofing, windows, doors and nails required, and also that he oversee and be responsible for the carrying out of this work.

OK
sc
If the school is erected, it will be necessary to supply desks and equipment and also pay the salary of a teacher. These Indians are members of the Red Rock Band and have no funds of their own. The cost of the material now asked for and the equipment of the school could be provided for out of the current year's estimates.

Sir,-

I have to acknowledge the receipt of your letter of the 6th instant informing the Department that the Indians of Sand Point Reserve intend to erect a building for a day school and requesting that the Department assist them by furnishing the flooring, roofing, windows, doors and nails required.

In reply I beg to say that the Department recognizes the need of a school for the Indian children at Sand Point and is pleased that the Indians are taking steps to erect a suitable building for school purposes.

The Department will pay the cost of the flooring, roofing, windows, doors and nails required and you may take the necessary steps to purchase this material and have it delivered at the site of the new school. Before making the purchases, however, you should obtain competitive prices from a number of dealers handling these supplies and purchase from the firm quoting the lowest price in each case. In making these purchases you should be guided in all respects by the requirements of the War Purchasing Commission. You should forward properly certified vouchers, in duplicate, for the expenditure incurred, together with the quotations received by you. The Department agrees with you that dimensions of the building should be twenty by thirty feet to accommodate the number of children of school age. It is to be distinctly understood that the labour required in the erection of the building is to be performed by the Indians free of any charge. You should oversee the work from time to time as it progresses and see that it is being carried on and completed according to your instructions. The Department will be pleased to hear from you at a later date as to the progress that is being made

Sir,—

Re School for Sand Point. I have just had an interview with John Fitzback and he would sell this house for \$500.00

This house could be used as a school and for living quarters for the teacher and would be cheaper than supplying material for a new building.

This house is situated on land just outside of the Sand Point Reservation and Fitzback's right to it is a squatters right only. However I would recommend the purchase as the building would be suitable for school purposes for a few years and it could be sold any time it is decided to erect a new building.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd instant, in which you recommend that the house of John Fitzback be purchased for the sum of \$500.00 and fitted up as a school and living quarters for the teacher at Sand Point.

In reply I beg to say that, as this house is not situated on an Indian reserve, the Department cannot consider its purchase. If, however, Fitzback will consent to lease this house at a reasonable rental, the Department would be disposed to lease the same for school purposes for a year. If the results attained by that time would warrant the building of a school on the reserve this matter would then receive consideration. You should take the necessary steps to see whether you can rent this house and inform the Department as to the amount of rent required. It can then be fitted up and used for school purposes and Mrs. McLaren, who is at present teaching at the Mission Bay School, can be transferred there as teacher.

If you succeed in obtaining the house you should state what would be required in the way of having a class-room fitted up for school purposes, also, if desks are required, whether suitable ones for the purpose could not be made at the place. It is considered that the Indians themselves should perform any labour required in having the house fitted up for school purposes.

I may point out that no reply was received from you to official letter of April 17th, last, regarding the erection of a building for school purposes by the Indians, towards which the Department authorized you to purchase, flooring, roofing, windows, nails, etc., required. You should state why these instructions were not carried out.

I have been unable to get a reply from John Fitzlack since I informed him that Dept refused to purchase his house on account of it not being situated on the cleared land.

It is not likely that he will rent the house as he is anxious to sell. If the Department is not prepared to purchase this house I would purchase it from Fitzlack provided that the Department would rent it from me at ten dollars per month until it is considered advisable to build.

It is advisable to open a school at Sand Point without further delay as this has developed into a permanent settlement. A large number of Indian families during the last few years.

Sir,—

Re School for Sand Point.
545454

I have been unable to get a reply from John Fitzlack since I informed him that Dept refused to purchase his house on account of it not being situated on the leased land.

It is not likely that he will rent the house as he is anxious to sell. If the Department is not prepared to purchase this house I would purchase it from Fitzlack provided that the Department would rent it from me at ten dollars per month until it is considered advisable to build.

It is advisable to open a school at Sand Point without further delay as this has developed into a permanent settlement for a large number of Indian families during the last few years.

Your Obedient Servant

W. R. Brown
Agent.

There is a school at Sand Point and it is a permanent settlement for a large number of Indian families during the last few years. It is advisable to open a school at Sand Point without further delay as this has developed into a permanent settlement for a large number of Indian families during the last few years.

Ottawa, September 21, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 18th instant informing the Department that John Fitzback has refused to rent his house for school purposes and that he is anxious to sell the same.

In reply I beg to say that, if you purchase this house as proposed by you, the Department will allow you a rent for the use of it for school purposes at the rate of \$10.00 per month until such time as it is considered advisable to erect a new school building. As it is desired to open the school at Sand Point as soon as possible, you should complete your arrangements to purchase the house. It should then be fitted up by you for school purposes.

It is noted by your letter of the 9th instant that you intend to have the desks in the Pays Plat School shipped from that point to provide seating accommodation at Sand Point. You may arrange as soon as the building is ready to have the desks transferred and also purchase a stove, chairs, etc., required. Before making the purchase of the stove, chairs, etc., you should obtain competitive prices for these articles and purchase from the firm quoting the lowest price. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred, to which should be attached a memorandum showing the quotations received by you.

With reference to the rent, you should furnish vouchers from time to time covering the amount due, when payment will be made.

As you were informed by official letter of August 26th, last, Mrs. McLaren, who is at present teaching at the Mission Bay School, can be transferred to Sand Point as teacher when the school is ready for occupation.

You should furnish the size of any blackboards required and these will be ordered from the Government Stationery Office

Office, and also a requisition should be forwarded for the school material required, such as stationery, books, etc., and these will also be forwarded.

I shall be pleased to hear from you as soon as you have become the owner of the house and have it ready for school purposes, which it is hoped you will be able to do at an early date.

Mrs. McLaren will be allowed salary at the same rate as she received at Mission Bay, namely,- \$500.00 per annum, with bonus additional.

REPORT UPON SANITARY INSPECTION OF ~~PUBLIC~~ SCHOOL ~~OF DISTRICT~~

No. Town _____ at Sand Point Ont.
Indian Village Sand Point
Township _____ District of Thunder Bay Date June 15th, 1921

(shore of Lake Nipigon two miles from Macdiarmid, Ont. Govt. Fishing Station)

1. Grounds - (size, suitability, drainage, character of soil, etc.)

No definite limits to grounds; gradually sloping to lake shore a few yards distant
sandy soil; drainage good.

2. Water Supply - (source, protection of well-top, drinking cup,
bacteriological exam.)

Dipped from lake at shore. Spring approximately 100 yards behind school should be safe
source of supply. Samples taken from lake at shore and from spring (reports to follow when
analyses completed) Lake water at shore exposed to pollution from village. No drinking cups seen.

3. Closets - (type, odor, cleanliness, covers, protection from flies,
when cleaned.)

One pit closet (log building with one seat) for common use by boys and girls
Fairly clean, but no lids on seats, and not fly-proof.

4. School Building - (material, number of rooms, accommodation and size
of rooms.)

One room in log building which is the house for the teacher and her family.
School room is 20 x 16' Partially sloping ceiling, height at lowest point 8'.
As a school this accommodation is a mere makeshift.

5. Interior of Rooms - (blackboards, number, etc., windows (no. & area),
blinds, general cleanliness, seats, type, etc.)

One piece black oilcloth nailed to wall serves as blackboard. Two windows
4'x2' & 2'x2'. Two doors. Double seats with stationary desks. Walls and ceiling covered
with coarse brown paper. Rough pine board floor. Room generally unattractive and depressing.

6. Heating, Lighting and ventilation -

One wood-burning box stove for heating purposes. Lighting by means of two windows pre-
viously mentioned. Ventilation by means of windows and doors.

7. Wash places - (type, towels, washing slates, etc.)

Nil. at present; because teacher states number of children have skin troubles and running
sores. Ordinarily one or two basins and towels.

8. Has talk on sanitation been given to pupils?

No; because would be of no benefit. The only measures which would be of any use would be
compulsory instruction in habits of personal cleanliness and in home hygiene.

9. Average number of girls and boys: On roll- 15 boys, 12 girls, total 27
Average, 7 boys, 6 girls, total 13. June 15/21, 6 boys, 8 girls, total 14.

10. Recommendations -

Separate building for school. Separate closet accommodation for boys and girls.
Compulsory instruction in personal and home hygiene. Weekly inspection and supervision
by supervision, whose orders are to be enforced by R.C.M.P. if necessary. Attendance at
school to be compulsory; also children to be required to come to school in cleanly con-
dition or to be compelled to clean up while there. On the date of inspection (June 15-21)
many of the children were in an extremely dirty condition, most of them having 'nits' in
their hair.

Report to
The Provincial Board of Health
from G.L.Sparks, D.O.H.
District No.7

Subject: Visit to "Sand Point"
Band of Indians, Lake Nipigon
Thunder Bay District.

557034

Sir:-

With further reference to my letter of the 14th instant, re "Complaint sent to the Indian Agent, Port Arthur, I have the honour to advise that, on the 15th inst., I visited the "Sand Point" Band of Indians located on the shore of Lake Nipigon about two miles from Macdiarmid. I was accompanied on this visit by R.C.M.P. Constable W.M.Campbell who is stationed at Nipigon, Ontario.

There are approximately 12 houses at Sand Point, also a few tents and tepees; and the number of Indians is said to be from 75 to 100. The surroundings are about the same as are found in any Indian village, and I do not see how a higher standard of cleanliness can be enforced unless a R.C.M.P. Constable visits the place about once weekly throughout the year.

The attached school inspection report will indicate that the present school building is a mere makeshift; and I would say that the majority of the school children were in a deplorably dirty condition. The teacher told me that her work is most discouraging as the children remain away from school if she endeavours to exercise the slightest authority over them. The names of 27 children appear on the school-roll (15 boys and 12 girls). 14 of these (6 boys and 8 girls) were present at school and were inspected on June 15/21. Four were excluded from school until discharging sores and other skin affections were cured (one other child not on the roll being forbidden to attend school for the same reason) and I may say that so many children has 'nits' in their hair that if they had been excluded for this reason the school would be practically empty.

Of 13 absentees from school, four were inspected, and one child Michel Netamagesic age 6 years, was found to have a large chronic discharging ulcer on the left index finger, which was swollen to about twice or three times its normal size. This child's left eye was also infected, and discharging pus; and on the left side of his neck was a discharging gland. He was in a most wretched condition and should immediately be removed to a hospital (I was told afterwards that one of his feet was in the same condition as his left hand but I neglected to look at his feet). Five other children (pre-school age or names not on school-roll) were inspected. One child Harry Netamagesic, age 3 years (brother of Michel N...) was found to be suffering from pustular conjunctivitis affecting both eyes. This child will likely become totally blind if the condition is not treated properly, and he should immediately be sent to a hospital. The parents should be compelled to submit to examination to determine whether or not they show evidence of venereal disease.

The Department of Indian Affairs should engage either one of the doctors at Nipigon or Jellicoe to visit Sand Point once a week to inspect the school and endeavour to clean up the discharging sores and skin affections from which so many of the children are suffering. It is apparently impossible to change the habits of Indians, but something may be done with the children if they are enabled to attend school in a clean and attractive building, also if they are compelled to be present at school, and to be clean during the time they are there. The school curriculum should devote as much time to elementary personal and home hygiene as is devoted to reading, spelling etc. for the crying need of these people is the practical application of knowledge regarding cleanliness, both of the person and in the home whether it be tent or house. As Dr. Robertson truly states "the Indians suffer unspeakable evils from lack of sanitary education" and if the children were allowed to grow to adult life careless and ignorant of the most elementary rules of decent living, their condition will become worse instead of better.

MEMORANDUM:

Mr. Burk, Indian Agent, Port Arthur, has discussed the day school situation at Pic, Sand Point, Mcbert and Gull Bay. At one time or another schools were in operation at all four of these Reserves. Mr. Burk is of the opinion that there will be an agitation for the reopening of these schools. He considers it advisable to experiment with one Reserve, and suggests Pic as the most promising. A summer school might be granted here, as there is an old schoolhouse. Desks would be required and, if the work was continued during the winter months, arrangements would have to be made to put the building in good shape.

I have not suggested to Mr. Burk that he advocate commencing a school at Pic, but if the demand is strong enough we might favourably consider the matter.

Sir,

For your information and consideration I beg to report that while on a recent inspection of the Sand Point Indian Reserve I found that there are in the neighbourhood of about 30 children of school age and the members of the Band are very anxious that a school be opened at that point by the Department and they assured me that they would insist that the children would faithfully attend the same.

Should the Department consider the opening of a school on this Reserve, a building could be rented for the time being, as a temporary summer school. There are old desks there which could be used for the present and I feel sure that it would be appreciated if a school was opened, as the parents are very anxious to have the children educated, but do not care for them to be sent from home to a boarding school.

An early reply would be appreciated.

Sir:

A communication has been received from the Deputy Minister, Department of Education, Toronto, relative to the need of establishing school facilities for the Indian children residing on the Sand Point Indian Reserve, in the neighbourhood of MacDiarmid.

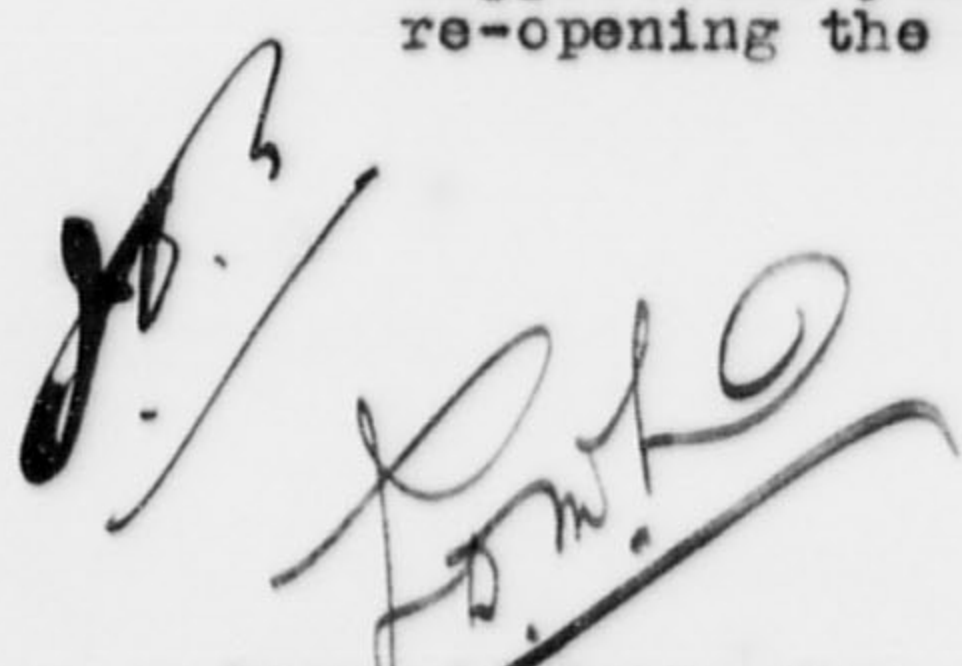

In this connection I beg to refer you to your letter of April 29, 1926, and previous correspondence. The Department will be pleased to have a report from you as to whether you would advise that a school be re-opened at this point and, if so, whether it would be possible to rent a suitable building with a view to giving this school a trial during the coming summer.

If the activity proved a success and the parents saw that their children attended regularly, the question of the erection of a building could then receive consideration. Would the Indians get out and hew the logs required and do the work in putting up the building, providing the Department gave them rations during the time they were doing the work and also if the necessary finishing materials, such as windows, doors, shingles, hardware, etc., were supplied?

This matter should receive your consideration, but, in the meantime, I would be pleased to hear whether you would recommend that the school be re-opened this summer if a rented building can be obtained. We understand from your letter above referred to that there are old desks at this point, which could be used for the present and which would be satisfactory until a new building is erected. Any suggestions you have to make regarding the advisability of re-opening the school will be appreciated.

Sir:

I have to acknowledge receipt of your letter of the 7th instant, relative to the providing of school facilities for the Indian children residing on the Sand Point Indian Reserve, in the neighbourhood of MacDiarmid.

In reply I beg to say that a school was conducted at this point for two years previous to July, 1922, at which time it was closed. Our experience with day schools on the outlying reserves in the Thunder Bay district has not been satisfactory, owing to the lack of interest by the parents and the irregular attendance.

We are communicating with the local Indian Agent at Port Arthur, requesting him to state whether a suitable building could be obtained in which to conduct classroom work at Sand Point and if he would advise that the school be re-opened. Should he recommend the re-opening of the school, favourable consideration will be given to providing the expenditure required for the purpose.

I beg to acknowledge receipt of your letter of the 10th inst., file number 9-10-1, relative to the possibility of re-opening and establishing a Day School on the Sand Point Indian Reserve. On a recent visit to this Reserve the same question was introduced as referred to in my letter of April, 29, 1926, namely that a School be opened this summer.

Referring to the second paragraph of your letter, I may state that there is a suitable building that can be rented for this purpose. This can be fixed temporarily with the old desks.

If the School proves a success the Band will cut the timber and hew the logs and do the necessary carpenter work in building the School, if the Department provide rations.

I would recommend the advisability of re-opening a School at this point as soon as possible, as I feel sure that the children would attend.

J. G. Burk,

Sir:

I have your letter of the 15th instant, relative to the reopening of a day school on the Sand Point Indian Reserve. In this connection it is noted that you recommend the advisability of reopening this school as soon as possible, that a suitable building for carrying on the classroom work can be rented and that there are a sufficient number of desks on hand.

In view of your recommendation, the Department will approve of this school being given a trial, its continuance to depend upon the attendance of the Indian children, and the success achieved in the work. It will be necessary to obtain the services of a qualified teacher, and I have to request that you will endeavour to secure the services of a teacher who would be satisfactory to carry on the work. This matter should receive your early attention, and you should forward the name, qualifications and experience of the teacher nominated by you. If you can obtain a teacher, you should then arrange for the rental of a building and have it fitted up for classroom work. If you forward a list of the material required for classroom work, the same will receive attention. No unnecessary expense should be incurred in the fitting up of the building secured. If the school is opened, it should be conducted throughout the summer months. After the school has been in operation for a period of, say, 6 months, we would then be in a position to decide, from the results achieved, as to whether it should be continued in operation, and the erection of a suitable building could be considered. It is noted that, if the school proves a success, the members of the Band would cut the timber, hew the logs and do the necessary carpenter work in the erection of a new school building, providing the Department supply them with rations during the period they are engaged in the work.

Please give the matter of obtaining a teacher and the rental of the building your prompt attention. I shall be pleased to hear at a later date regarding the teacher secured and the building rented.

Sir:

With reference to your letter regarding the reopening of the Sand Point Indian Day School I beg to advise I have just been informed by the Chief of the above noted Band there is no accommodation for a teacher on this Reserve, as the only house suitable to accommodate the teacher was recently destroyed by fire. It will, therefore, be necessary to provide the teacher with a suitable house, which can be rented for \$15.00 per month.

Would you kindly advise me by return mail, or wire, if I may have the necessary authority to purchase the furniture, cooking utensils, etc. when a teacher has been secured for this school? No unnecessary expense will be involved.

Ottawa, May 3rd, 1927.

Sir:

I have your two letters of the 30th ultimo, relative to the reopening of the Indian day school at Sand Point, and enclosing an application for the position as teacher, and also requesting authority to rent a suitable house for the teacher's use. In this connection I have to confirm the following night letter to you of today's date:

"Arrange rental of buildings for school purposes and for teacher's accommodation Sand Point and have them both fitted up. Supply furniture, cooking utensils, etc. absolutely necessary. Keep all expense low as possible. Offer Miss McAteer, 1 Waterloo Ave., Guelph, position at \$85 per teaching month, informing her concerning nature of position".

You should make early arrangements for the renting of the building referred to in your letter of March 15th, last, and have it fitted up for classroom purposes. You should arrange to have the old desks which are on hand placed in this building.

You should also arrange for the rental of suitable accommodation for the teacher. We note that you estimate the same can be acquired for \$15 per month. As advised by our telegram, you may arrange for the purchase of a reasonable quantity of furniture, cooking utensils, etc. If possible, competitive prices should be obtained and the purchase made from the firm quoting the lowest price. As it is intended that this school will be kept in operation for a period of approximately six months only, it will not be necessary for you to obtain any large supply of furnishings for the teacher.

The Department will approve of the appointment of Miss Genevieve McAteer as teacher, and will allow her salary at the rate of \$85 per teaching month. As instructed by our wire, you should inform her fully concerning the nature of the position, the period school will be kept in operation, that the school is only being conducted on trial and any other information she may require.

It will, no doubt, be necessary to forward a supply of classroom material, and I shall be pleased if you will have the teacher prepare and forward a requisition for what is needed, when same will be sent from the Government Stationery Office.

It is hoped that the Indian parents will take advantage of the facilities offered and see that their children attend school regularly, as the continuing of this work will depend entirely upon the success achieved during the coming summer. Please give the matter of arranging for the starting of this school your early attention and forward properly certified vouchers, in duplicate, in the usual manner covering the expenditure incurred.

Sir:

Referring to your letter of the 3rd inst., file number 9-10-1, relative to reopening the Indian Day School at the Sand Point Indian Reserve, and requesting me to rent a suitable house for the teacher and to furnish her with cooking utensils. In reply I beg to advise I was very fortunate in being able to rent two suitable buildings, one for the teacher's residence and the other for the classroom. Both buildings are situated in the middle of the Reserve. This property is fenced in, and is suitable for children's recreation grounds.

Referring to the 4th paragraph of your letter I did not think it advisable to rent the first building for the teacher's residence as I was told it had been previously occupied by a tubercular family. Consequently I rented the above two buildings at a rental of \$25.00 per month for each building. The owner is willing to sell the property and the two buildings for \$300.00, and will be satisfied to take a rental of \$50.00 per month until the property is paid up. The two buildings could not be replaced for less than 7 or \$800.00. T

Referring to the 5th paragraph of your letter I wish to advise that Miss Genevieve McAteer started teaching on the 17th of this month. I personally visited all the families on this Reserve, and the parents promised to see that their children attend school regularly. I think that the Department will be able to keep this school open as a permanent one, as I feel positive the attendance will be satisfactory.

Sir:

I have your letter of the 23rd instant, informing the Department that Miss Genevieve McAteer began duties as teacher of the Sand Point Indian Day School on the 17th instant. It is also noted that you have been able to obtain a suitable house for the teacher's living quarters and a house in which to carry on classroom work - both buildings being centrally located and the grounds fenced and suitable for children's recreation.

The Department approves of the renting of the buildings referred to for the sum of \$25 per month, each, and will pay the rental at that rate for a period of six months. It is understood that, at the end of that time, the amount paid as rental will cover the full purchase price of the buildings, viz.: \$300. You should prepare and forward from time to time properly certified vouchers for the rent due, and, when the 6 months' period has elapsed, you should prepare and forward, in duplicate, a Quit Claim Deed (blank forms for the purpose enclosed) for the transfer from the owner to the Department of the two buildings with the grounds surrounding same. A proper description of the plot of land should be filled in in the deed.

The continuing of the school permanently will depend upon the success achieved during the first 6 months it is in operation. It is hoped there will be a full and regular attendance of all Indian children of school age and that the teacher will meet with every success in her work.

Sir:

The enclosed letter, which is self-explanatory, was just received today from Miss Genevieve McAteer, teacher at the Sand Point Indian Day School. As you will note the teacher complains about the price of merchandise at that point. I advised her that provisions could be purchased at Port Arthur at a very much cheaper price and advised her to send me in an order which would be placed with a wholesale company in Port Arthur, and her merchandise could be shipped direct to Sand Point.

As you will note the teacher is asking for an increase of \$5.00 per month, and she will resign if the Department does not grant her this wish. Personally I would not recommend granting this increase and would recommend accepting her resignation.

Miss McAteer advises me if the Department do not grant her her request she would teacher until June 30th, but would like to receive her first month's cheque by the 17th of this month. Her cheque could be sent in care of this office.

I have a great number of applications on file and it would be a very easy matter to secure a new teacher.

I have your letter of the 10th instant, enclosing a communication which you received from Miss Genevieve McAteer, teacher of the Sand Point Indian Day School, in which she requests an increase of \$5 per month in her salary.

In reply I beg to say it is considered that the salary Miss McAteer receives, viz. \$85 per month, is all we can provide for a teacher's services at this school. If she does not agree to remain after the end of the present month, you may engage the services of another teacher to succeed her. I note that you have a number of applications on file, and it is hoped, if Miss McAteer resigns, you will be able to nominate a teacher to succeed her, to begin duties on or about July 1st, next. If a new teacher is secured, you should forward the name, qualifications and experience for the approval of the Department. Please ascertain from Miss McAteer whether she will remain or not. If not, you should take early steps to obtain another teacher.

I may say that we are sending you a cheque in favour of Miss McAteer for the amount of salary due her to the 17th instant.

In reply I beg to say that the salary at present allowed, viz. \$85 per month, is all we are prepared to pay for teaching services at this school. We note the difficulty in obtaining food supplies at Sand Point, but it is understood that you could arrange to have provisions purchased at Port Arthur at a much cheaper price by placing your order with a wholesale firm, and the supplies would be shipped direct to you at Sand Point. Madam:

I have your letter of the 9th instant, advising the Department that owing to the illness of your mother it was necessary for you to close the Sand Point Indian Day School and return home. It is noted that it will be necessary for you to remain at your home for a few weeks. While the Department regrets the necessity of having the school closed, approval is granted for same. It is hoped, however, that you will be able to return and resume duties at the earliest possible date.

In preparing your return showing attendance, days taught, etc., for the current quarter, you should state definitely thereon the dates between which the school was closed owing to your mother's illness, and consideration will then be given to payment of your salary during the period of your absence.

A cheque for the salary due for the month of October, last, is being sent you under separate cover. When you return to Sand Point, please inform the Department direct as to the date upon which you resumed duties.

We are informing Mr. Agent Burk, Port Arthur, of the approval granted for the closing of the school.

Sir:

I have your letter of the 14th instant, informing the Department that Miss Genevieve McAteer, teacher of the Sand Point Indian Day School, has not resumed duties since leaving the school early in November, last, on account of her mother's illness, and requesting that you be authorized to obtain the services of another teacher to succeed her.

In reply I beg to say that the Department desires that this school be reopened at as early a date as possible, and you may, therefore, arrange to engage the services of a teacher, having the necessary qualifications, to succeed Miss McAteer. We will allow salary at the same rate as was paid Miss McAteer, viz. \$85 per teaching month. Please give this matter your early attention and forward the name, qualifications and experience of any applicants for the position for the approval of the Department.

You should also inform Miss McAteer that her services are being discontinued. She was paid salary to the end of October 31st, 1927. If there is any balance due her for the time she taught before leaving the school in November, I shall be pleased to have a statement from you as to the number of days taught by her, in order that any balance can be paid.

Sir:

I have your letter of the 2nd instant, enclosing the applications which you received for the position as teacher of the Sand Point Indian Day School.

In reply I beg to say it is considered that Miss Mona K. Duggan, Annan, Ont., has the better qualifications, and you may offer the position as teacher of the Sand Point School to her, at a salary of \$85 per teaching month. We note that Miss Duggan has a permanent second class certificate, and three years' teaching experience. You should arrange with her to begin duties as soon as considered timely by you to have this school reopened. In writing Miss Duggan offering her the position, you should give her as full information as possible regarding living conditions and any supplies it may be necessary for her to take in with her. If for any reason Miss Duggan is unable to accept, you may offer the position to Miss Kathleen G. O'Hara, who holds a second class certificate, and has had teaching experience. You should take the necessary action as soon as possible in communicating with the above named teachers in the order mentioned. It is hoped that Miss Duggan will accept. Please inform the Department later as to whether she accepts the position at Sand Point or not, and, if so, the date upon which she begins duties.

We note you have advised Miss McAteer, the former teacher, that her services are discontinued.

The applications which you forwarded are returned herewith.

Sir:

I have your letter of the 17th instant, enclosing a communication from Miss Teresa Drury, teacher of the Sand Point Indian Day School, in which she tenders her resignation to take effect the last day of February, 1929.

In this connection, I have to request that you will inform the Department if Miss Drury returned to the school after the Christmas holidays, and if she will teach continuously until the date of her resignation. This information is required in order that the Department will be in a position to decide the amount of salary that should be allowed for her services.

It will be necessary to obtain the services of a qualified teacher to succeed Miss Drury, and I have to request that you will consult the Separate School Inspector or the local Parish Priest of the district in which the school is situated with a view to obtaining a teacher. It is thought that the Inspector might be aware of a suitable teacher whom he could recommend. Please give this matter your prompt attention, in order to obtain a teacher in time to begin duties on or about March 4th, next. The name, qualifications and experience of the teacher who is recommended for this school should be forwarded for the approval of the Department. Salary will be allowed at the rate of \$85 per teaching month.

Sir,-

The Department is in receipt of an application in reply to an advertisement for a teacher which, it is stated, was placed by you in the "Toronto Globe". The Department presumes that you are advertising for a teacher for the Sand Point Indian Day School. It is thought that it should not have been necessary to advertise as the services of a suitable teacher could be secured by making inquiry or consulting the Separate School Inspector, as instructed by official letter of January 21st last.

It is understood that Miss Drury was giving up her duties as teacher from February 28th last and, if you have any applications on hand in answer to your advertisement, you should forward them at once for the consideration of the Department. The application which we have received will be considered along with any other applications which you may forward.

Madam, -

I have your letter of the 2nd instant replying to an advertisement in the "Globe", which you state was inserted by the Indian Agent at Port Arthur, for a teacher for an Indian school near that point. We are communicating with Mr. Agent Burk in this matter and requesting him to forward any other applications which he may have received. Your application will be considered along with any others that Mr. Burk may forward and you will be advised later as to whether or not the Department can accept your services.

As the advertisement, no doubt, called for a reply to Mr. Burk, you should have forwarded your application to him in the first instance.

Sir:

Referring to your letter of January 21st, file No. 9-10-1, regarding the advisability of obtaining the services of a qualified teacher to succeed Miss Drury, who was teaching at the Sand Point Indian Day School I beg to advise I telephoned Mr. McDonald, the Separate School Inspector, and was advised he would be out of the City for 3 weeks.

I however, got in touch with the local Parish Priest, who advised me to communicate with Miss McAteer, who previously taught at the Sand Point Indian Day School. The priest informed me she was very much liked by the Indians and was doing good work. Under the circumstances I immediately communicated with her and unfortunately just recently received a reply informing me she could not accept the vacancy.

Under the circumstances I advertised in "The Globe", and wish to advise I am enclosing herewith several applications. The Inspector, Mr. McDonald, just called at this office, and favours the application of Miss Cassie Troy of the R. R. 3, Mount Forest, Ontario. This teacher has had previous experience in this District and is well qualified for the position.

I would be pleased if the Department will advise me at the earliest possible date regarding the enclosed applications.

Sir:

The Department has received a communication from Miss Cassie Troy, teacher of the Sand Point Indian Day School, in which she requests an increase in her salary. As you are aware, at the present time Miss Troy is paid at the rate of \$90 per teaching month. She states that she wrote you in connection with her request. We have many demands and our funds are limited, but, before definitely deciding, the Department would like to have your recommendation as to whether a small increase should be granted Miss Troy or not. Your early reply will oblige,

Sir:

I beg to acknowledge receipt of your letter of the 12th inst., 9-10-1, regarding a communication received from Miss Cassie Troy, teacher of the Sand Point Indian Day School, requesting an increase in her salary, and in reply I wish to report on my last visit to the Sand Point Indian Day School I advised Miss Troy I would communicate with the Department regarding an increase.

It was my intention to communicate with the Department this month and recommend an increase of \$10.00 per month in her salary. Miss Troy has been doing splendid work and is appreciated by the Indians. I am sure she would be hard to replace.

The Sand Point Indian Reserve is very isolated and consequently it would be very difficult to replace Miss Troy if she resigns.

Under the existing circumstances I would strongly recommend an increase of \$10.00 in her salary.

Sir:

I beg to enclose herewith Quarterly School Report for the Sand Point Indian Day School. As you will no doubt remember the Department transferred Miss Hamer from the Gull Bay School to Sand Point.

On a recent visit to Sand Point I find that Miss Hamer is doing good work amongst the Indians. She not only administers drugs and Cod Liver Oil to them, but also has arranged to give the school children, under her supervision, a weekly bath. Miss Ings, our Field Matron, is extremely pleased with her activities.

Under the circumstances would it not be possible to increase this teacher's salary to \$100.00 per teaching month.

EXTRACT FROM REPORT OF SEPARATE SCHOOL INSPECTOR

OF THE SAND POINT INDIAN DAY SCHOOL.

Original on File 9-10-6.

[Handwritten note: not for]

In my opinion, the Department is singularly fortunate in having a lay teacher of Miss Hamer's resourcefulness and energy. In commenting upon the cleanliness of Indian children, the writer takes into consideration the fact that the children are Indians. What might be satisfactory to the writer, however, falls far below Miss Hamer's ideals, and so she personally superintends the bathing of her pupils. She also visits Indian homes, dressing sores and suggesting sanitary precautions. I do not recall any school that I have visited having a lay teacher in charge that has impressed me so pleasantly. I was glad to hear that the Department had made her an allowance for her social work among the Indians, because I believe, salary, etc., being anywhere near approximately equal, she would sooner teach in an Indian school than in a white one.

Most of the children attending Sand Point School live close at hand, but Miss Hamer finds that they are badly underfed. She would like to give them something hot at dinner time.

I note the 'Pick' at Heron Bay has a married woman on staff whose husband is a Station Agent near there. - If she ever thought of leaving - I would like to try that out. -

Referring to your letter of November 17th, 9-10-1, regarding Miss Hamer's request to be transferred from Sand Point Day School to another Indian school. In this respect I wish to state there is a married woman teaching at the Pic Indian Day School, Mrs. McDonnell. Her husband is living at Peninsula, which is approximately 40 miles west of the Pic Reserve. I have received considerable complaints regarding Mrs. McDonnell teaching at this school, as her husband is an operator on the C.P.R. and is able to support his family.

Mr. Greening and myself have both discussed this matter recently and will be pleased to advise at a later date if we considers it advisable to secure another teacher for the Pic School at the close of the present term.

With reference to Miss Hamer's teaching qualifications I wish to state Mr. Greening has advised me she is doing very satisfactory work. She is also one the best welfare workers in the Agency. I will be pleased to advise you at an early date regarding her transfer to the Pic Indian Day School.

Dear Mr. Ferrier.

You have possibly been wondering why the teacher at Sand Point is so anxious to secure a transfer to some other school, especially in view of the fact that her services have been quite satisfactory to Mr. Burk and myself.

But, as you know, (and as the Department, I am glad to feel, desires), the missionaries take a great interest in these little schools, and are particularly ^{anxious} that the teachers act as catechists and set a example, in a religious way, both by action and precept.

Poor Miss Hamer happens to be the daughter of a mixed marriage, and her piety is not so fervent as might be hoped; or, at least, the missionary thinks that it is not, which amounts to the same thing. When the missionary gets into the average Indian village, all are agog, and the teacher is the first to get to church in the morning. Poor Miss Hamer, unfortunately, has managed to be ignorant of the Father's visit (she says she cannot hear the church bell when he rings it) and has failed, on a number of occasions, to turn up to mass in the morning. Hence she is ~~persona~~ persona non grata to the good Father, which is too bad, because she is really interested in Indians.

The situation will clear itself up in due course, because the attendance at Sand Point has fallen so low that the school will most likely have to be closed next summer. Miss Hamer will then be looking for a school. I am very favourably disposed to her, myself, and, if Lacourcière resigns his job at Whitefish Bay (Kenora) at the end of the year, I have asked Mr. Edwards to keep Miss Hamer in mind. Or, if Miss Levallee quits Birch Island at the end of the year, you might like to give Miss Hamer that position.

I have spoken to a good many people about this young lady. Above all, she would like to be employed as a field matron, organizing the Indian women into sewing circles and the like. In such work she would be an outstanding success. I should think.

With kindest regards,

Yours very sincerely,

Re:- Frank Esquiega - Indian - Sand Point Indian Reserve - Bitten by ferocious dog.

First Report:

Acting upon instructions from Corpl. Bebb F.H. F.C.O. In charge of the Nipigon Detachment, on the 13th. inst. I left on patrol per C.N.R. to Stevedore on route to the Sand Point Indian Reserve.

Information had been received from Peter Esquiega, by telegram to the effect that a ferocious dog had bitten his son Frank, age about 18 years, and he requested that we come at once and get a doctor.

Arriving at the Indian Reserve I learned that the dog who attacked and bit the above named was owned by Miss Violet Hamer, the Indian schoolteacher.

On making enquiries in regards to the incident I learned that Miss Hamer was coming across the Lake to the Indian Reserve with the dog and small sleigh, on seeing another dog, the dog of Miss Hamer's bolted with with her, whereupon she called for the assistance of the above named who was in the vicinity.

F. Esquiega grabbed the dog by the harness, and led it about 15 yards when the dog attacked him from the rear, sinking his tusks into his left leg above the ankle, on turning upon the dog to try and protect himself, the dog bit both of his hands, however he managed to grab his collar and shake him off.

During this affair Miss Hamer got frightened and ran away to a house, at the present time F. Esquiega is laying in bed with the wounds from the dog.

Steve Nockwinogus a reliable Indian on this Reserve stated that this dog of Miss Hamer's was dangerous to be at large and the children were afraid of the dog, he considered that this dog was a nuisance, and had attacked several of the Indians in the past, but not enough to hurt them.

Jerry Belanger states that he has been attacked by this same dog, and grabbed by the hand but did not cut the flesh on account of him having very thick mitts on.

Antoine Bouchard Jr. states that Miss Hamer's dog attacked him about one month ago, but being able to ward the dog off with a stick he was not hurt.

Amelia Bouchard states that the same dog ran after her and she was only able to reach the house for safety when it caught the back of her skirt.

Antoniet Nockwinogus states one day she was going to the school, when the dog chased after her and if it had not been for some boys who chased the dog off with sticks and stones he probably would have attacked her.

Margaret Nockwinogus states she was knocked down by the dog and gave her a great shock and made her terrified.

(Continued.)

Upon investigating the poor attendance at the school I found that this dog was the cause of it, as the Indian women were afraid to let the children go to school for fear of being bitten.

During my visit to this Indian Reserve on the 1st. March, inst. in company with Peter Bouchard this dog attacked the leader of our dogtrain, and in attempting to drive it off it grabbed my wrist, and owing to the thick mitts I was wearing I only received a small cut.

I told Miss Hamer that the dog would be better destroyed to save any further trouble, and that I intended doing this for the sake and safety of the Indians and children on that Indian Reserve, as it was considered a dangerous and ferocious animal to be at large, this dog was known to be running loose most of the time on the Reserve.

Although Miss Hamer did not wish to have the animal destroyed, I saw that the dog was shot before leaving, and that it was carried into the bush for burial.

I returned to the Detachment at 11.00 a.m. of the 14th. inst.

In reply to your letter of the 27th inst. with reference to the Sand Point School being moved to Grand Bay during the summer months, and the question of transferring Miss Hamer to Grand Bay Reserve, I beg to state I have discussed this matter with Mr. Greening, the Separate School Inspector, who advised Miss Hamer was being transferred to another Indian Day School not in this Agency.

Mr. Greening will undoubtedly communicate with you regarding the teacher's transfer.

Your obedient servant,

J. G. Burk,
Indian Agent.

I have written Mr. Greening asking if it is possible for Miss Hamer to carry on at Grand Bay

Sir:

I wish to refer to my letter of the 27th ultimo and to your 330-6A of the 28th idem., concerning the teaching services for the Grand Bay Indian Day School on September first. There is now some doubt that a suitable transfer can be effected for Miss Hamer, and I have written to Mr. Separate School Inspector Greening, asking him if it is impossible for her to continue her services at Grand Bay. Will you please let me know without delay whether you believe it is necessary to transfer her from this work.

E X T R A C T from Inspector Greening's Report on his inspection of the SAND POINT INDIAN DAY SCHOOL on June 10, 1932.

Original on File 9-10-6.

I am distinctly disappointed in the work done by this school during the past year. The Indian ~~parents~~ have plainly failed to cooperate with the teacher. Attendance has been poor, and some of the children are very neglected. Two of them (one the Chief's son) seemed to be attending school while suffering from scabies.

See under JDR

Whatever may be the representations made to the Department at Ottawa, it is the considered opinion of Mr. Agent Burke and myself that the advantage being taken by the Indians at Sand Point of this school most decidedly does not warrant the expenditure being made.

It would be much better to close the Sand Point School at the end of the present term, and open a school at Grand Bay next autumn. In company with Mr. Agent Burk the Inspector called in at Grand Bay. There is a partially completed residence that would do admirably for a school until the building at Sand Point can be brought over the lake.

Dear Mr. Ferrier,

Replying to your letter of the 21st.
instant, in regard to Miss Hamer.

I have discussed the matter with Mr. Burk,
so that this letter contains the views of both of us.

There is no doubt that Miss Hamer is "in
wrong" with the Indians at Sand Point. It may be
partly her own fault, as her tongue has not always been
too carefully bridled, but there is certainly no doubt
that her zeal in seeing that the children get to school
and attend in a clean condition has helped to make the
situation worse. As I have already told you, she
is "non grata" with the Missionaries, (I have never been
able to find out why, but I suspect that she has been
talking too much), and it would be altogether inadvisable
to send her to Grand Bay. It would militate decidedly
against its success. If Miss Hamer is to be given
another school, it had better be out of this Agency,
because Mr. Burk tell me that, Father Hingston having
heard that she was likely to be sent to Moberg, wrote
him to ask that such move be not put through.

I have given the young lady a good talking to,
and Mr. Burk tells me that he thinks she will take it to
heart. Miss Hamer has done good work among the Indians,
and has always been genuinely interested in them. I
asked Mr. Burk particularly if he thought she ought to be
let out altogether, or whether he thought that her past
services warranted another school. He thinks that she
deserves consideration, but he does not want to send her to
Grand Bay or to Moberg. I should, myself, be inclined
to give her a chance, but if Father Hingston does not want
her at Moberg, there may be similar objections to her being
sent to any Jesuit mission. You might like to give her
another chance, or you might decide not to bother with her
any more. I have, personally, no interest in her other
than a belief that she is capable of good work as a teacher
if she is acceptable otherwise.

With kindest regards,

Yours very sincerely,

The Department has received a communication, dated the 30th ultimo, from Mr. Inspector Greening, with reference to Miss Violet Hamer, who has been teaching at the Sand Point Indian Day School. Mr. Greening writes that you concur in his opinion. At the present time, there is no vacancy at a Catholic school, which would be suitable for her, and you will please send word to her that her services are not required on September first. Inform her that, if she is desirous of re-entering Indian work, she should write direct to the Department.

A copy of this letter is being directed to Mr. Greening, for his information and guidance. If either you or he have any suitable nominees for the vacancy at Grand Bay for September first, please inform me without delay. The Department has on file the names of many qualified applicants. I was speaking to a young man in my office yesterday who has one year's experience in Indian work. He was quite willing to consider Grand Bay, but no steps towards an appointment will be made until I again hear from you or Mr. Greening. I refer to Mr. Bernard Joyce, who taught at the Spanish Indian Residential School during the past academic year. He will be remembered by Mr. Greening. He has had to make way for a teacher who is in Holy Orders.

RECORDED

Dear Sir:
I am in receipt of a letter, enclosed - from R. D. Burf - Indian Agent at Port Arthur, advising that my services no longer required.

This is a serious matter and I feel that owing to circumstances I am entitled to some consideration.

In the first place, I know positively that when this was written "Robert" was vacant, and I asked for this school. Mr. Burf refused me, and I cannot understand his attitude.

Last year Rev. Fr. Couture wanted to move me - and Indians at Sand Point - petitioned - 12 families out of 14 - asking that I be left at this school. I wrote Mr. Serier for a transfer - and he replied that he had none - but asked that I remain at Sand Point.

I have served Dept. and Indians faithfully for three years. At Sault Ste. Marie and Sand Point. My whole life has been given over to this work, during my time as teacher here. Twenty four hours per day - I have been ready to work for these people.

Nursing the sick and dying hours at a time - caring for expectant mothers & babies - transporting

2 sick children to hospital in winter,
hauling out drugs and clothing, and
visions, besides teaching all day.
Last winter I formed a club and
under my supervision - all children
were clothed and widows dressed as well.
This necessitated my being up from
7 a.m. until 12. nightly for over 3 weeks.
I have gone down in health in two
years - and only recently the doctors
advised a rest, but I am forced
to work. - This year my father & mother
are in my hands. to support - and I
feel that after three years in the
bush among Indians, I am
attached to my work and hate to leave
because of some personal grudge
the priest may have - , who only
visits the reserve at the most, every
3 months, and then, only for a
few hours - never calling at the
school or giving any attention to
the moral welfare of teacher or children.
Often we feel the need of spiritual
guidance and are unable to receive it.

Sir I would be obliged if you
can see your way to look into this thing.
I am unable to do anything. You have
my records - for teaching which
Mr. Greening advised were satisfactory.
That in itself should be proof of
my earnestness of purpose.

I will take a school of any
denomination as far north and as
isolated as you can find - anything
and would be pleased to have
the opportunity of proving -

Dear Mr. Burk,-

Your letter of October 17th, regarding the services of Miss Hemer as Field Matron, was referred to me, and I may say that this was the first notification I had received of the fact that Miss Hemer's services have been paid for from medical appropriation.

When Miss Hemer was notified by letter of August 26th, that there was no vacancy in which she could be placed as teacher, it was taken for granted that her services were dispensed with. However, I understand a cheque for \$13.50 has been sent to her for the month of October as her name was included in your pay list. Before the November pay list is made up I would appreciate it if you will let me have your views regarding retaining the services of Miss Hemer, particularly in view of the fact that she is not living on an Indian Reserve, and it is not our practice to provide Field Matron service for Indians who may be passing through small towns such as MacDiarmid.

I shall be pleased to have your suggestions as I must confess I am quite in the dark as to why Miss Hemer's services should be continued.

Yours very truly,

Dear Sir:

Inspector Greening, in his report on the McIntyre Bay Indian Day School, dated June 23, 1939, states that there are only five pupils enrolled at this school and that five pupils were present on the day of the inspection.

I should like to have from you an explanation with respect to the comparatively small enrolment at this school, in view of the fact that there were 18 enrolled when the Inspector made his last inspection on October 8, 1938. I should add also that it is not the intention of the Department to keep schools open and in operation with an enrolment of five pupils. This is a matter that should be discussed with the teacher in charge and with the Indian parents. The taxpayers of Canada simply cannot afford to employ Indian day school teachers to take charge of schools with such small enrolments.

You might report on this matter just as soon as you can conveniently do so.

Attention-Supt. of Welfare & Training

With reference to your letter of the 14th ultimo, in connection with Inspector Greening's report on the McIntyre Bay Indian Day school dated June 23rd, 1939, I beg to report that project on this reserve has been closed for some time and in consequence the large majority of the families on this reserve moved to Gull Bay reserve to cut pulpwood. They were also engaged on other pulpwood work on Lake Nipigon.

For the Department's information, I may say that I just received a communication from the McIntyre Bay reserve advising that the majority of the families have now moved back and are now working at the Breakwater construction and other work on the reservation. It is anticipated the band will have permanent work on this reserve in the very near future consequently attendance will be back to normal by the time school opens on September 1st.

Dear Sir:

In reviewing our files I find that the last communication received from you in regard to the school on the McIntyre Bay Reserve was dated August 2, 1939. At that time you were under the impression that the operation of a school would be necessary. As you have not written it is presumed that the Indians are not residing on the reserve permanently. I should appreciate having a specific report from you regarding the situation on this reserve, particularly as concerns the school.

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return *must be added* and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation of this regulation should be made without the Department's approval.
2. Salaries of teachers will be paid on a basis of 10 teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.
3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.
4. All teachers will be required to give at least one month's notice of their intention to resign.
5. All questions relating to the day school should be referred to the local Indian Agent.

3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Ottawa, February 17th, 1928.

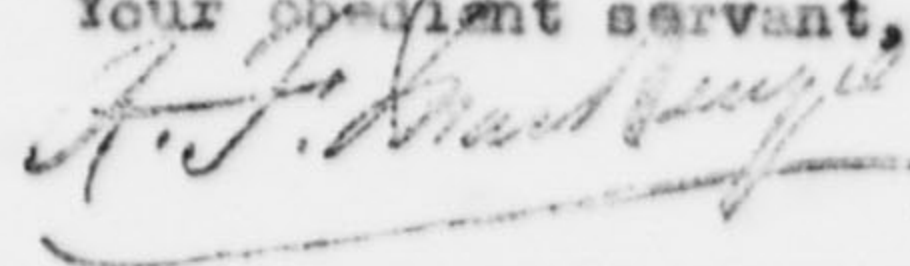

Sir:

I have your letter of the 14th instant, informing the Department that Miss Genevieve McAteer, teacher of the Sand Point Indian Day School, has not resumed duties since leaving the school early in November, last, on account of her mother's illness, and requesting that you be authorized to obtain the services of another teacher to succeed her.

In reply I beg to say that the Department desires that this school be reopened at as early a date as possible, and you may, therefore, arrange to engage the services of a teacher, having the necessary qualifications, to succeed Miss McAteer. We will allow salary at the same rate as was paid Miss McAteer, viz. \$85 per teaching month. Please give this matter your early attention and forward the name, qualifications and experience of any applicants for the position for the approval of the Department.

You should also inform Miss McAteer that her services are being discontinued. She was paid salary to the end of October 31st, 1927. If there is any balance due her for the time she taught before leaving the school in November, I shall be pleased to have a statement from you as to the number of days taught by her, in order that any balance can be paid.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir:

I have your letter of the 2nd instant, enclosing the applications which you received for the position as teacher of the Sand Point Indian Day School.

In reply I beg to say it is considered that Miss Mona K. Duggan, Annan, Ont., has the better qualifications, and you may offer the position as teacher of the Sand Point School to her, at a salary of \$85 per teaching month. We note that Miss Duggan has a permanent second class certificate, and three years' teaching experience. You should arrange with her to begin duties as soon as considered timely by you to have this school reopened. In writing Miss Duggan offering her the position, you should give her as full information as possible regarding living conditions and any supplies it may be necessary for her to take in with her. If for any reason Miss Duggan is unable to accept, you may offer the position to Miss Kathleen G. O'Hara, who holds a second class certificate, and has had teaching experience. You should take the necessary action as soon as possible in communicating with the above named teachers in the order mentioned. It is hoped that Miss Duggan will accept. Please inform the Department later as to whether she accepts the position at Sand Point or not, and, if so, the date upon which she begins duties.

We note you have advised Miss McAteer, the former teacher, that her services are discontinued.

The applications which you forwarded are returned herewith.

Sir:

I have just received a communication from Miss Teresa Drury, teacher of the Sand Point Indian Day School, who advised me her cheque for the December Quarter cannot be located at MacDiarmid.

Miss Drury communicated with the Indian Department and was advised the cheque was sent to MacDiarmid, Ontario, on December 27th. The enclosed letter is self-explanatory. Would it be possible for the cheque to have been overlooked at Ottawa?

An early reply will be appreciated.

Sir:

I have to acknowledge receipt of your letter of the 4th instant, enclosing applications which you received for the position of teacher at the Sand Point Indian Day School.

In reply I beg to say that, in view of your recommendation, the Department is approving of the appointment of Miss Cassie Troy, R.R. #3, Mount Forest, Ont., and in this connection I have to confirm the following telegram of today's date:

"You may engage Miss Cassie Troy for Sand Point School".

It is noted that she holds a second class professional certificate for the Province of Ontario and has had fifteen years' teaching experience. The salary allowed her will be at the rate of \$85 per teaching month.

It is presumed that you will inform her of her appointment upon receipt of the telegram and that she will be able to commence duties at an early date. You should give her every assistance you can when she takes up duties, and it is hoped she will meet with every success in the work at Sand Point. Please advise the Department later of the date she begins work at this school.

The other applications which you forwarded are returned herewith in order that you can notify the applicants that their services are not required.

I have your letter of the 10th instant, relative to the request of Miss Cassie Troy, teacher of the Sand Point Indian Day School, for an increase in salary.

In reply I have to say that the Department will approve of an increase of \$5 per teaching month in the salary of Miss Troy, from the 1st of September, next. This will make her salary from that date at the rate of \$90 per teaching month. This is the full amount the Department is prepared to allow at the present time. There are many demands and our funds are limited. Please advise Miss Troy of the increase granted her.

Sir:

I have your letter of the 14th instant, regarding the request of Miss Cassie Troy, teacher of the Sand Point Indian Day School, for an increase in her salary. In this connection it is noted that you recommend an increase of \$10 per teaching month. The Department will approve of an increase in salary at the above rate from the first of April, next, the beginning of the new fiscal year. This will make Miss Troy's salary from that date at the rate of \$100 per teaching month. I have to request that you will inform her.

With reference to your 210-8K of the 13th instant, I may say that under separate cover you are being forwarded the December quarter salary cheques for the teachers of the Moberg, Gull Bay and Mission Bay Day Schools. Miss Leusch's cheque has been forwarded her direct while Miss Hamer's cheque has been sent to the Bank of Montreal, Port Arthur.

No cheque was forwarded to the teacher of Pic School as the Department is not aware when Mrs. McDonnell began duties.

You should arrange with all the above teachers to prepare their returns and forward them to you when the schools close on the 19th instant for the Christmas holidays.

Sir,-

It is noted from the December quarter return of the Sand Point Indian Day School that the teacher states that her September quarter salary cheque had not reached the Bank of Montreal, Port Arthur, by December 5th. This matter has been checked and, as you were informed in official letter of November 18th, last, cheque #2319, for \$85.00, in payment of Miss Hamer's salary for the September quarter, was forwarded to the Bank of Montreal, Port Arthur, on August 12th.

The Auditor General's Office advises me today that this cheque has been returned to them endorsed "Placed to credit of Violet Hamer - Bank of Montreal, Port Arthur - August 14th, 1931". You will, therefore, note that there must be some mistake on the part of the bank as it is evident from the returned cheque that it was received by them. Please interview the bank, at once, and make arrangements for this amount to be credited to Miss Hamer.

For your information, I may add that cheque #5058, for \$255.00, in payment of Miss Hamer's salary for the quarter ending the 31st instant, was also forwarded to the Bank of Montreal, Port Arthur, on the 19th instant. It might be well to see that this has been deposited to Miss Hamer's credit.

Dear Sir,

At the end of the Quarter ending June 30th 1933
I despatched my quarterly school report as usual to Mr. G. J. Bush
Indian Agent, Port Arthur. Mr. Bush informs me that it
was duly signed & sent to Ottawa.

I have however not received my cheque for that
Quarter yet, nor the smaller cheque for janitor work for the
same period. As some considerable time has elapsed I fear
that this has been overlooked. Moreover I am unable to
leave for any vacation until I get it, and I should
therefore be grateful if you would look into this matter
immediately.

Thanking you in anticipation,

Yours very truly,

A. Thos. Haines.

Aug 24/33.

Dear Sir,

I beg to acknowledge your letter of Aug 15/33.
re. salary cheque for the June quarter. Mr. Burk arrived here
by the same boat as your letter, so the matter is now cleared
up. The misunderstanding arose because the Bank failed
to notify me of the receipt of this cheque, and Mr. Burk on
his last visit here, said he knew nothing of it. Previously
all cheques have come to me at this address.
I regret having troubled you with this matter.
According to the statements of the Bank and Mr. Burk, there
would appear to be outstanding now only the smaller cheque
for janitor services from April - July 1933, which has not yet
been received. I would like this to be sent direct to Bank of Montreal, Port Arthur
please -

Thanking you,

Yours obediently,
A. Thos. Harris.

Sir:

With reference to the teacher's winter supplies for McIntyre Day School, I beg to advise that an order was issued by Mr. Haines teacher of this school, through Mr. Beamish, at MacDiarmid. Mr. Beamish wired to this office to ascertain if I would guarantee the account. I informed Mr. Beamish it was impossible for me to guarantee any accounts, but I would be very pleased to have Mr. Haines' cheque sent to this office and in turn I would mail the cheque to his store and he could make a settlement with Mr. Haines.

I regret to report that Mr. Haines ordered these supplies last September, and has not made a settlement as yet. Consequently I would appreciate it very much if Mr. Haines quarterly cheque could be sent in care of this office.

In conclusion I may say the Department may possibly receive a letter asking that the cheque be sent to the Bank of Montreal, but I would be pleased if the cheque could be sent in my care as I feel responsible for the outstanding account of Mrs. Haines.

Dear Sir,

Some little time ago, I received a bond of indemnity from you which I had to get signed for a duplicate of my April cheque, which I never received. So far, I have not received the duplicate cheque either.

I am informed by Mr. Burk, Indian Agent, that he forwarded cheques, presumably including the above, to Macdiarmid. However I have now received all the mail from Macdiarmid Post Office and there is no cheque among it. I am therefore writing you in the hope of tracing this cheque. It would be too bad, if after all the trouble of getting people to sign a bond for a loss which was not my fault, since I never even saw the cheque, the duplicate should also be lost! Moreover from April to the end of September is a long time, and the absence of this money is causing my family very grave inconvenience.

May I ask you to try and trace this cheque, and to send it & subsequent cheques (for part of July) direct to me at Callander ?

Thanking you,

Yours very truly,

A. Thos. Harris

The Department is in receipt of a letter from A. T. Haines regarding his April salary cheque. You forwarded the necessary Bond of Indemnity signed by Mr. Haines with your letter of August 16th, last, and a duplicate cheque for \$85 was issued by the Department and sent to you on August 31st. If you have received this cheque, you should forward it at once to Mr. A. T. Haines, Callander, Ont. If you have not received it, you should advise the Department immediately.

Mr. Haines also enquires regarding the amount due him for the first part of July, during which he taught at the Grand Bay School. In payment of his services for this period a cheque for \$42.50 was issued in his favour and sent to you at the end of July. Please let the Department know if you have any record of having received this latter cheque, and, if so, what disposition was made of it.

I beg to acknowledge receipt of your letter of the 27th inst., No. 9-10-3, and note that you have received a letter from A. T. Haines, regarding his salary for April. In reply I wish to state the duplicate cheque for \$85.00 was forwarded to this office and also one for \$42.50 for his July salary. Both these cheques were sent in care of Mr. R. P. Dear Sir,

I beg to thank you for your letter of Oct. 27th. and not that you have communicated with Mr. Burk regarding the missing cheque. May I say that I also wrote to Mr. Burk, who said that he had forwarded it to Macdiarmid. I have however been in touch with the Post Office there and had all mail to date forwarded, but no cheque has arrived. Inasmuch as this is the second one that has been held up, it would seem that there is a very unsatisfactory mail system there.

Further, when sending in the duplicate I gave my address as Callander Ont. I did the same on my form for the first half of July, and so far, I have not received either the salary or janitor cheque for that period. I do not understand why these cheques should have to be sent to Macdiarmid, when the proper address has been furnished. As you will readily understand, this very unnecessary delay causes the utmost inconvenience and discomfort to a man who is dependent on his salary. I hope therefore, that it may soon be rectified .

Thanking you,

Sir:

I have your letter of the 1st instant regarding your missing salary cheques.

In this connection I have to say that the Department was advised by Mr. J. G. Burk, Indian Agent, Port Arthur, that he received the duplicate cheque for \$85 and also the cheque for \$42.50 for your July salary. He forwarded both these cheques in care of Mr. R. P. Mills, Storekeeper, Macdiarmid. It is noted that you have been in touch with the post office at Macdiarmid and were informed that no cheque had arrived. No doubt, these cheques are held in the office of Mr. R. P. Mills, and you should communicate with him. The delay in receipt by you of these cheques is regretted.

Regarding payment of your services as janitor, I have to say that a cheque to the amount of \$17.50 for the period ending July 15th, last, was sent you in care of Mr. Agent Burke, Port Arthur. We have no information regarding the address to which he forwarded this cheque.

After you have communicated with Mr. Mills at Macdiarmid, I should be pleased to be advised of the result of your enquiry.

Dear Sir,

I beg to acknowledge, with thanks, your letter of Oct. 4th. regarding missing salary cheques.

I regret to have to report that I have no word of these cheques to date. A letter to Mr. J.G. Burk, Indian Agent of Port Arthur, merely elicited the same information with reference to these cheques that your letter contains.

Letters sent to the postmaster and to Mr. Mills well over a week ago have brought no word, not even a reply, to date. I am sure that you will appreciate the inconvenience, not say hardship, caused by the hold up of this money, dating as it does from last April & last July.

Inasmuch as my address at Callander was clearly given, it would seem that the Department and its agent should have sent these direct to me at Callander and not sent them to Macdiarmid when I was not there, - this especially in view of the loss of the first April cheque at that same point. There is very evidently a grave laxity there.

I would suggest, in view of all the circumstances that the Dept. could solve the whole matter in the simplest and most expeditious manner, namely, by cancelling both the duplicate April cheque and the one for July, and then issue one new cheque for the two amounts, and remit same to me at this address, and so end this very embarrassing delay and suspense.

Thanking you,

Yours very truly,

P.S. Janitor cheque of \$17.50

The Department is in receipt of a letter, dated the 14th instant, from Mr. A. T. Haines, in which he states that he has not yet received the duplicate cheque issued in payment of his April salary nor the cheque for the amount due him for the period he taught the Grand Bay Indian Day School during the month of July. In your letter of the 29th ultimo, you stated that both these cheques had been forwarded to Mr. Haines in care of Mr. R. P. Mills, Storekeeper, Macdiarmid. In his letter of the 14th instant, Mr. Haines states that, although he had written a week previously to both the postmaster at Macdiarmid and Mr. Mills, he has received no reply.

The Department regrets that Mr. Haines has been inconvenienced by the non-receipt of these cheques and I have, therefore, to request that you will get in touch with Mr. Mills immediately and arrange for the prompt forwarding of the cheques to Mr. Haines. The Department will expect to hear from you in the near future that such arrangements have been made.

Sir:

I beg to refer you to official letter of the 17th ultimo, to which no reply has yet been received, regarding the two cheques in favour of Mr. A. T. Haines which were forwarded to you and which you have previously stated you sent to Mr. R. P. Mills, Macdiarmid, Ont. Please let me have an immediate reply to my letter of the 17th ultimo.

I am today in receipt of another letter dated the 11th instant from Mr. Haines, in which he states that he has not yet received these cheques. The Department cannot understand why there has been so much delay in forwarding these cheques to Mr. Haines. It has caused us considerable inconvenience and has resulted in a great deal of correspondence.

When replying, you should state why you sent the cheques to Mr. Mills in the first place and you should also advise the approximate date on which Mr. Haines will receive these two cheques.

Your obedient servant,

J. D. Sutherland,
Acting Supt. of Indian Education.

Sir:

I beg to acknowledge receipt of your letter of the 13th inst., No. 9-10-3, in which you referred to official letter of the 17th ultimo, addressed to myself regarding 2 cheques in favour of Mr. Haines, which were received from the Department and forwarded to Mr. Mills, MacDiarmid, Ontario. In reply I regret your letter of the 17th ultimo was misplaced and consequently was not answered.

I wish to state I have communicated with Mr. Mills at MacDiarmid and asked him to forward the cheques to the Bank of Montreal, at Port Arthur, where they will be placed to Mr. Haines' account. The Bank of Montreal phoned me several times and advised that Mr. Haines has overdrawn his account and suggested that the cheques be forwarded to the Bank and deposited in his account.

For the Department's information I may say Mr. Haines has incurred considerable debts at the store of which Mr. Mills is manager. I have communicated with Mr. Mills and asked him to get in touch with Mr. Haines.

Sir:

With reference to your recent letter regarding non-receipt of cheques for \$42.50 and \$85, I beg to say that these cheques were forwarded to Mr. Agent Burke who in turn sent them to Mr. R. P. Mills, Macdiarmid, Ont.

On receipt of your last letter the Department wrote Mr. Burke, instructing him to expedite the forwarding of the cheques to you, and in his reply dated the 15th instant, Mr. Burke writes as follows: -

Dear Sir,

Replying to your letter under date of Nov. 20th. I beg to state that I am still without cheques for salary due. Mr. Burk's reply as quoted by you, does not help me any. With regard to his statement re. my financial affairs, the facts are these: Mr. Mills is merely the local manager for J.H. Beamish "Fairway Stores". I have dealt with these stores through this and other branches for years and have spent some hundreds of dollars there without ever owing them a cent. Owing to non receipt of my cheque, when I left I obtained from Mr. Mills my account which was \$104.

This amount I told him I would remit as soon as I got my cheques, which he said would be agreeable to him. My indebtedness to the bank is the sum of \$5, notice of which I have before me. You will readily see that if I had my cheques, I should be able to meet both these obligations and have a small balance which I sorely need. There is nothing in this to justify Mr Mills in unlawfully holding up my cheques. The only communication I received from him was a suggestion that I should give him power of attorney to deduct what he thought proper from my cheques. This is not the proper method of procedure and would leave it open for him to revise my account in any way that occurred to him. Immediately I receive my cheques I am prepared to settle my obligations as stated, and should I fail to do so (which I have

never yet done,) he would have an obvious remedy.

The point is that I have not yet received cheques for salary dating back as far as last April, and I should be glad of the assistance of the Department in collecting this money which is wrongfully withheld. I have never before encountered such unwarrantable and un-British procedure, and should be glad to know what steps you suggest I should take. I know that if such a thing happened in England, I could take legal action and recover the amount plus interest and damages for unlawful detention. This I am loth to do, but will you tell me if there is any other way in which I can conclude this annoying business?

Thanking you,

Yours very truly,

Arthur Haines

On receipt of your letter of the 15th instant, the Department wrote Mr. Haines and I enclose, for your information, a copy of his reply.

I trust that Mr. Mills has returned the cheques to the Bank of Montreal in Port Arthur. If so, you should immediately advise Mr. A. T. Haines, c/o Mrs. J. Hearl, Callander, Ont. If the cheques have not yet reached the Bank of Montreal, please let me know why they have not been returned to the Bank by this time.

Ref.9-9-3.

Dear Sir,

I received a letter from Mr. J.G.Burk last week, in which he stated that he had asked that my cheques should be forwarded to my credit in my bank, and had been promised that that should be done immediately.

It has, however, not been done, and I am still minus salary due for last April and July. I think you will agree that it is high time this matter was settled, and in view of the near advent of Christmas, I need the settlement. Having taken advice on the matter, I am informed that there are two possible courses open 1. To sue the Macdarmid Postmaster for illegal and unlawful detention of these cheques, together with interest and damages or 2. to get the Indian Dept. to notify the Bank that payment of these cheques is cancelled, and issue me direct a new cheque for the total due.

I am not anxious to tread the road of litigation, but it is necessary that I should obtain the money so long withheld. I therefore appeal to you to stop these cheques and issue me a new one for the total due, so that I may have it before Christmas.

In view of the fact that this is money earned, I do not think my request is unreasonable, and I would point out that if the Department had sent my cheques to the address I gave on my form (Callander) as they did when I was in Macdarmid, the situation would never have arisen.

The position now is, that I have not yet received my wages for work

done, and that repeated correspondence, involving many letters to the various people involved, at some expense and considerable worry has not produced any effect.

I have therefore no alternative but to try other methods to recover that which is my just due, but before doing so, I would ask the Department once again to simplify matters and save trouble, by paying me the amount due, and cancelling the cheques that have never reached me, and which were sent to an address where I was not.

Thanking you in anticipation of an expedited settlement,
yours very truly,

Sir,-

The Department is in receipt of the following telegram:-

"Mr. Haines' cheque has reached Bank of Montreal, Port Arthur"

(Sgd.) M. Morton.

It is presumed that this wire is an answer to our night letter of the 14th instant addressed to you.

I cannot understand why the telegram reads "cheque". You will remember that there were two cheques. These were specifically mentioned in official letter of September 27th and your reply dated September 29th.

The Department has been caused a great deal of inconvenience owing to the manner in which these cheques were handled. Repeated letters for the last three months have not yet brought the matter to a satisfactory conclusion. Please advise me immediately on receipt of this letter if both the cheques referred to in official letter of September 27th have now reached the Bank of Montreal, Port Arthur, and, if not, you should state the reason for the totally unnecessary delay.

On receipt of your letter of the 13th instant, the Department wired Mr. Agent Burk and I am today in receipt of the following telegram:-

With reference to your letter of the 17th inst., No. 9-10-3, regarding wire received in connection with Mr. Haines' cheques, I wish to advise that both cheques have reached the Bank of Montreal at Port Arthur, and such was the message sent in the wire from this office.

It was evidently an error on the part of the Telegraph Company in using the singular rather than the plural.

Dear Sir,

I am in receipt of your letter of Dec. 17th. re. salary
cheques, and note the contents. I may say that I received last week end
a communication from Mr. Burk in which he stated that he had been informed
"over the 'phone" that my cheques had been deposited in the bank. I immediately
communicated with the Manager of the Bank for confirmation of this, but up
to the present date, no such confirmation has been forthcoming.

I also appreciate your point about there being two cheques, which
is perfectly correct.

Should I obtain confirmation of the deposit of these cheques to my
credit, I will inform you at once, as no one is more anxious to terminate
this unfortunate episode than I am. Meantime, the position remains unchanged!
Please be assured that I am appreciative of the Department's efforts to have
these cheques delivered to the proper owner.

Yours very truly,

Dear Sir:

With reference to your letter of the 4th instant, I would point out that Mr. Norman Van Hatten was allowed a full month's salary as teacher of the McIntyre Bay School, and it is considered that this amount should reimburse him for any period he may have taught the Whitesand School during the month of July.

Please let me know at which schools in your Agency you consider the teachers should remain on duty until July 15th and not reopen the schools until September 15th. You should also state if this arrangement results in a better attendance at these schools. On receipt of this information, the Department will decide whether or not we should approve of this arrangement.

In the event of our approval, it should be distinctly understood that, in future, you should write about the first of May each year and make a definite recommendation regarding each school in your Agency that you desire kept open until July 15th. This information is necessary in order that the Department can make the necessary arrangements for paying the teachers for the period they are on duty during the month of July. A separate letter should be forwarded regarding each school at which this arrangement is recommended.

I have to acknowledge the receipt of your letter of the 8th instant enclosing a requisition for supplies for the Sand Point School.

In reply I beg to say that the readers, slate pencils, scribblers and lead pencils will be ordered from the Government Stationery Office, to be forwarded to the teacher's address.

You may purchase for this school twenty-four slates, six cakes of laundry soap, six cakes of Lifebuoy soap, four yards of towelling, two enamel wash basins, one pail and one scrubbing brush. Before making these purchases you should obtain competitive prices and purchase from the dealer quoting the lowest prices. You will be good enough to forward itemized accounts, in duplicate, properly certified, for the expenditure incurred in making these purchases and you should also forward a list of the dealers asked to quote prices and the prices quoted.

MAR 26 1929
BR

Ottawa, March 25th, 1929.

Sir,-

[Handwritten initials]
With reference to requisition, dated the 23rd instant, for supplies for the Sand Point Day School, it is noted that the teacher requests 5 gals. of coal oil and 5 gals. of gasoline. If this is required in connection with the school, you may purchase same. If, however, it is intended for the private use of the teacher in her living quarters, it is expected that she will provide her own oil and gasoline.

The other articles are being ordered from the Government Stationery.

Your obedient servant,

Dear Sirs:-

I am in receipt of all
supplies except pencils -

Kindly forward 6 dozen instead
of 3 dozen at once.

The teacher's sup stand
was badly damaged and
practically unfit for use. This
was done in transit. Kindly
look into this.

The 4 sheets of blotting
paper ^(for desk) also did not arrive.

Trusting to receive
stand, pencils & paper (blotting)
and also 4 dozen G. Scribbles
at your earliest convenience

I am

Respectfully,

V. A. Stamer.

Sir, ..

I beg to acknowledge the receipt of your letter of the 18th instant, enclosing a letter from Miss V. H. Hamer, teacher of the Sand Point Indian Day School, in which she refers to supplies ordered on requisition #10317. I note from her letter that she states that the ink stand ordered on this requisition was received in a badly damaged condition and practically unfit for use. Will you be able to make a claim against the carrier and send Miss Hamer another ink stand or will it be necessary for us to forward you a new requisition.

Your obedient servant,

Russell T. Ferrier

Dear Sir:-

I beg to acknowledge receipt of yours
of the 20th, 9.10.4, re inkstand damaged in ship-
ment on requisition No. 10317.

As it takes a considerable time to
straighten anything out with the Post Office De-

Ottawa, December 12, 1934.

Sir:

I beg to acknowledge receipt of requisition dated the 26th ultimo for supplies for the Grand Bay Indian Day School.

A number of books requested by the teacher are considered unnecessary and are not being supplied.

You may arrange for the purchase and delivery of one ordinary alarm clock, 2 gallons floor oil, 12 bars soap, 12 cups, 1/2 pint enamel and 1/2 gallon varnish.

With reference to the articles requested on the enclosed two pages of the requisition, I would appreciate if you would check them carefully and advise what you consider are absolutely necessary. As you are aware, our funds are limited, and while many of the articles specified might be useful in the school, at the same time, it is considered that progress might be made without them.

The tooth brushes and camphorated chalk will be forwarded to the teacher.

Your obedient servant,

J. D. Sutherland,
Acting Supt. of Indian Education.

Dear Sirs, —
Except for a few holy pictures
that were tacked on the wall by my
predecessor, the walls of the Classroom
are bare, and as Mr. McGoogan had
offered to send pictures for a former school

Department would be very willing

with suitable pictures.

With reference to requisition dated the 30th ultimo for supplies for the Grand Bay Indian Day School, I beg to say you may inform the teacher that the Department is not now supplying the following articles: Seat Work for Primary Grades, Number Builders, Word Builders, Grip-Fast History Books, Games for Every Day, Syllabus of Physical Training and Indian Catechisms.

It is considered that the work books supplied with our pre primer should take the place of the primer materials formerly supplied.

A map of the World was sent this school recently and it should serve the requirements. Therefore, a map of Europe is not being ordered.

A playground ball and bat and a football will be sent to the teacher.

Sir:

In official letter of the 9th instant, I referred to the receipt by the Department of a requisition for supplies for the Grand Bay Indian Day School. In forwarding this requisition, which was dated March 30th, last, Miss Fex gave the express office of the school as Nipigon, and the supplies were sent to that point.

The shipment is at Nipigon unclaimed, and the Express Company was requested to forward it to Macdiarmid. The Express Agent at Nipigon now advises that the Express Office at Macdiarmid will not be open until May 24th and that, in any event, prepayment of 27 cents covering the express charges from Nipigon to Macdiarmid will have to be made.

Please give this matter your immediate attention and arrange for securing the shipment for Miss Fex. Any necessary charges should be paid by you, a receipt obtained and a voucher forwarded to the Department.

You should point out to teachers in your Agency the importance of giving the correct express address when forwarding requisitions to the Department.

Dear Sir, -

A very short time ago I received a football, soft ball and bat that I had requisitioned, however I do not know if this is the parcel you referred to in your letter of April 23rd.

I had requisitioned a school register, and I did not receive any so far. That the funds are limited, seems to me, would not prevent the Department from supplying registers for the school. Perhaps the register was in the parcel you mentioned in your letter of April 23rd. If so I'm greatly puzzled as to the whereabouts of that parcel.

I would be most grateful for a register, as this school will not close before July 15th, and the register on hand

Dear kind Mr. Allan, Last week
I gave quite a large requisition
for school material to our
Agent, Mr. Burk.

Will you kindly
see that this requisition is sent
here without delay, in order that
it may reach this school before
navigation closes on this lake.

Would the Department
subscribe for the Red Cross and
Animal Life Magazines for this
school for the coming year?

Would the Department
also allow, say five or ten dollars,
for prizes for this school? Last
year the children received
nothing at Christmas. This matter
would have to be considered at once as
our Christmas orders have to go out
early, on account of difficulties in
travelling later on in the season.

OFFICE OF

Port Arthur, Ont.,
June, 23, 1927.

Sir:

On a recent visit to the Sand Point and Pic Reserves I noticed the schoolrooms were not equipped with clocks. Both the teachers enquired if it would be possible to have one placed in the schoolrooms.

I would personally recommend purchasing these two clocks, as a great number of the children cannot tell the time.

These clocks would cost approximately \$10.00.

Sir:

I have your letter of the 23rd instant, requesting that a clock be supplied for each of the Sand Point and Pic Indian Day Schools. In reply I have to say that the clock we supply Indian schools is known as the Big Ben type of alarm clock. You may arrange for the purchase and delivery of a clock of this type for each of the above schools. Please forward a separate voucher, in duplicate, properly certified, covering the expenditure incurred in the purchase of a clock for each of the schools.

Sir, -

Regarding the school situation in this Agency I beg
to submit the following report:

x

x

x

At the Sand Point Reserve two old log buildings were
purchased this summer to conduct a temporary school. The
buildings are still answering the purpose of a temporary school
and residence, but are not suitable for permanent buildings.
Mr. F. H. Paget, Chief Accountant, of our Department, inspected
these two buildings last summer and could vouch for their
inadequacy as permanent school buildings. On my last visit
to this Reserve the majority of the Indians had left for their
trapping grounds leaving their wives and children on the Reserve
to take advantage of the school.

As this school has proved to be a success I would
recommend the construction of a new school and residence next
spring on the Sand Point Reserve.

Sir:

With reference to that portion of your letter of the 3rd instant, recommending the erection of a new school and teacher's residence on the Sand Point Reserve, I beg to say that, in view of the fact that purchase was made last summer of a building for school purposes and also a building for use as a teacher's residence at this point, the Department is not prepared to provide the funds necessary in the erection of a new school and residence next summer. It is thought that the work can be carried on under existing arrangements for the time being.

Sir:

I have just received a communication from Miss T. Drury, teacher of the Sand Point Indian Day School, inquiring if it would be possible to purchase screen doors, for the school and school residence, and also screens which are very badly needed for the windows.

I would also recommend painting the floors in the school residence and the floors in the school house. Also white washing the two buildings, as the old white wash has faded very badly.

I would appreciate an early reply regarding the above request.

I would be more than pleased to have you accompany me on one of my numerous inspection trips on Lake Nipigon. The Lake is 96 miles long, by 45 miles wide, and I am sure you would enjoy the scenery and the outing would, no doubt, do you worlds of good. At the same time you would be able to personally inspect each Reserve on Lake Nipigon and realise how we are up against it in this Agency without schools.

Yours sincerely,

XXXXX,—

Dear Mr. Ferrier:

I hope you will excuse my long delay in writing to thank you for your kind efforts and success in getting the necessary grant for the Pic Indian Day School. I am making regular trips of inspection and find the work progressing splendidly. The foreman-contractor, a returned man, is most capable and conscientious. He expects to have the school completed by the end of June or the first week in July.

The lack of good schools in this Agency has long been a subject of public comment, more particularly is it so now that we are up against new problems and facing a very serious situation. The fur catch has decreased 30% during the last 3 years and to make matters more serious the Game & Fisheries Department are also cutting down on beaver and otter, the mainstay of the Indians' hunt.

The only solution for our Indians is more education to teach the younger generation to become useful citizens. As you have helped me out so splendidly in the past, a fact that I greatly appreciate, I sincerely hope I may bank on you for even more assistance in this matter. We need more schools in this Agency and need them urgently.

Although school is being carried on at Sand Point conditions are most unfavourable. Both the school and residence were constructed some 30 years ago and are most decidedly not suitable, although filling the bill for the present. As this Reserve is isolated, it will be very difficult to retain the services of a competent teacher under the existing circumstances.

If it is at all possible I would strongly urge the construction of a combined school and residence at that point. Would it be possible, Mr. Ferrier, for you to once more bring this matter up, as I feel confident, through your influence, it could be accomplished.

Dear Mr. Burk:

I have your 1110-A of the 6th instant, with reference to the need for Indian schools in your agency. There were so many points brought out in your letter, that I took the liberty of placing it on the official file. I have made a note for next year's estimates in this connection.

I am not yet sure that I will be West this year; but, if so, I will be stopping at Fort William for a few days and I would certainly like to visit some of the work with you. When I learn definitely of my plans, I will write you again.

Memorandum:

MR. PAGET

and

MR. ORR. *O.K.*

Mr. Indian Agent Burk, of Port Arthur, writes that the foreman contractor he engaged to build the Pic school and teacher's residence last year is contemplating moving to Calgary unless he is sure of a summer's work at Port Arthur. Would you please indicate if Mr. Burk's handling of the building activity last year was satisfactory. If so, I propose recommending to Dr. Scott that he be authorized to erect the Sand Point and Gull Bay school buildings, by day labour, under the supervision of the same foreman.

Sir:

With reference to earlier correspondence and conversations when you were in Ottawa last week, I have now to authorize you to erect a classroom and teacher's residence at Gull Bay and also Sand Point. The work may be proceeded with when timely. The Department relies on you to supervise the activity and to see that there is no unnecessary expenditure.

You should purchase the materials required, after securing competitive prices from the best sources of supply. When forwarding properly certified accounts, in duplicate, in favour of the firms awarded the business, you should attach memoranda showing those asked to quote and the prices quoted. The bill of material and your experience last year in connection with the Pic Indian Day School should guide you as to what is required. I understand that the Department Architect has provided you with specifications and has given you his advice.

You may engage the services of a competent foreman-carpenter, who will be responsible for the erection of the buildings and who will be paid by the day. Indian and other local labour should be employed as far as possible. Labour returns, in duplicate, should be prepared, as usual. When timely, you may apply for an accountable cheque, with which to pay for the labour, and also for a supply of labour returns. The plans which were forwarded to you last year should be followed as closely as possible.

When these two buildings are being constructed, you should visit the work when possible for the purpose of overseeing the activity.

J. D. McLean

I have your letter of the 30th ultimo, recommending that screens be provided for the use of the schools and teachers' residences in your agency. In this connection, I beg to say that you may arrange for the purchase of the quantity of screens required for each of the following schools and residences:-

Sand Point
Mission Bay
Pic
Gull Bay
Lake Helen

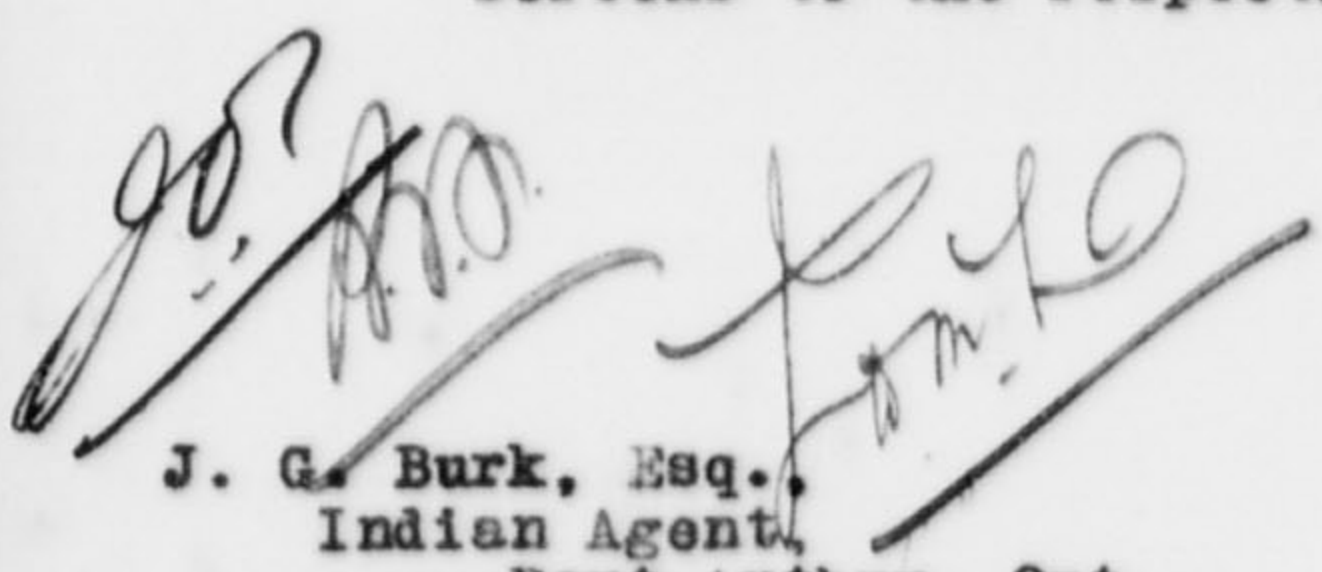

You should arrange for the purchase and delivery of these screens to each school as soon as possible. No unnecessary expense should be incurred. The Department considers that it is unnecessary to screen all windows. I cannot authorize any expenditure for screen doors.

Please forward properly certified accounts, in duplicate, covering the expenditure incurred for each school separately. Receipts should be attached to the accounts covering the cost of any freight charges in forwarding the screens to the respective schools.

Sir: RE: Wettlaufer Mixer, Hamilton, Ont.

With reference to the construction of the two combined Indian Day Schools and residences, which are to be erected in the very near future at the Sand Point and Gull Bay Reserves, I beg to report I have just had a long personal interview with the foreman-contractor, and we both came to the same conclusion it would be far cheaper to purchase a small concrete mixer which would, undoubtedly, pay for itself during the construction of the two schools. On completion of the two above mentioned schools the mixer could be shipped to our warehouse and kept in storage for future work.

The Indians in this Agency and especially on Lake Nipigon are hunters and do very little building, consequently they would be very slow workers. Under the circumstances I would recommend that the Department purchase a small Wettlaufer Mixer, which holds 3 cubic feet and costs \$265.00.

If the above meets with the Department's approval I would strongly recommend that one be ordered immediately and shipped to Port Arthur.

An early reply will be appreciated.

Gentlemen:

I have your quotation of the 12th instant for the supplying of the school desks, teacher's desk and chairs required for delivery at MacDiarmid, Ont., and to inform you that your quotation is accepted. I have, therefore, to request that you will arrange to ship, as soon as possible, addressed to Mr. J. C. Burk, Indian Agent, MacDiarmid, Ont., the following: -

- 6 - No. 6 Style No. 10 Single School Desks,
- 4 - No. 5 " " " " "
- 16 - No. 4 " " " " "
- 4 - No. 3 " " " " "
- 1 - Teacher's Desk, Style No. 121,
- 1 - " Arm Chair, Style No. 1563,
- 2 - Visitor's Chairs, Style No. 1562.

These desks and chairs should be supplied at the aggregate price quoted, viz., \$258.75 F.O.B. MacDiarmid, sales tax included.

The school desks should be shipped knocked down, securely crated, all parts complete, and ink wells should be supplied with each of the three largest sizes of desks.

Please forward your account, in triplicate, covering the cost of the above furnishings to Mr. Agent Burk, whose post office address is Port Arthur, Ont. He is being informed of the order placed with you, and requested, upon receipt of the desks, if in good condition, to certify the account and send it to the Department for payment.

As these desks are required for seating accommodation in a new school, I shall be pleased if you will arrange to make shipment at the earliest possible date.

Yours very truly,

Sir:

I am enclosing herewith duplicate vouchers, amounting to \$2550.00, covering material furnished to construct a school on the Sand Point Indian Day School.

Mr. McBride and myself considered it advisable not to tender for the hardware as it was difficult to specify the different kinds of locks and hardware required. As you will note a separate voucher is enclosed herewith, for the purchase of hardware amounting to \$211.35.

The labour return forms will be sent in the very near future.

Your obedient servant,

Sir:

With reference to the construction of the new combined Indian Day Schools and Residence on the Sand Point Reserve, I beg to advise there is approximately 6 inches of water in the basement under the teacher's residence.

I consulted the foreman-contractor, Mr. McBride, and we decided it would be advisable to put in a tile drain 100 feet long, which will cost approximately 6 cents per foot for the tile and \$15.00 for labour, a total cost of \$21.00. In order to successfully drain the basement I would strongly recommend that authority be granted immediately to proceed with this work.

An early will be appreciated.

Your obedient servant,

J. G. Burk,
Indian Agent.

Sir:

I have your letter of the 24th instant, relative to the providing of drainage for the basement of the teacher's residence portion of the Sand Point Indian Day School building.

In this connection I have to say that you may arrange to put in a tile drain. It is noted that it will require 100 feet of tile, at a cost of approximately 60 cents per foot and \$15 for the labour. You should arrange to have this drain installed, and you should see that a satisfactory job is completed. It is hoped that when this drain is installed it will overcome any future difficulty in keeping the cellar under the teacher's residence portion of the building in a dry condition.

Please forward accounts, in duplicate, properly certified, covering the cost of the tile for the drain and the labour in having same installed.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Dear Sirs:

We enclose herewith a duplicate copy of invoice covering shipment of two #6 standard fronts for Macdiarmid, Ontario.

If you will refer to our invoice of October 15th you will note that we forwarded only two #6 fronts; the balance #6 fronts being shipped October 26th 1929.

Your order called for four #6 fronts. We trust you will find this correct and will favor us with your cheque for \$13.00 by return.

Yours truly,

Sir:

Enclosed herewith please find duplicate vouchers covering the cost of the construction of the Sand Point Indian Day School. The material for this school was shipped to Orient Bay and reloaded into scows and towed to the Sand Point Reserve, which increased the cost of constructing this school.

As you will note I received from the Department for the construction of this school \$2000.00, and actually paid \$2052.00. I would, therefore, be pleased to receive a cheque for the balance.

Sir:

With reference to the Sand Point Indian Day School, which was constructed on the Sand Point Reserve last year, I beg to report it would be advisable to construct a fence around this property to keep the cattle from trespassing.

The approximate cost would be \$50.00 to \$60.00.

If the construction of this fence meets with the Department's approval will it be in order to carry on with this work.

An early reply will be appreciated very much.

Port Arthur, Ont.,
Dec., 4th, 1930.

1110-A

Russell T. Ferrier, Esq.,
Supt. of Indian Education,
Dept. of Indian Affairs,
Ottawa, Ontario.

Dear Mr. Ferrier:

I just returned from Lake Nipigon on my last tour of inspection before freezeup. Mr. Greening, the R. C. School Inspector, was rather anxious to inspect the Lake Nipigon schools before the freezeup. We were certainly very lucky as we encountered a terrific hail and snowstorm 15 minutes after we tied up at the dock. Mr. Greening certainly was frightfully sick going up the lake, as the weather was very rough, but I must confess once he reached dry land and consumed a few cups of tea he was as lively as a cricket.

Mr. Greening seems to be a very fine fellow and I am sure is a very good school inspector. He was very favourably impressed with the good work Miss Hamer is doing at Sand Point not only in school hours but also socially.

The classroom at Sand Point and also the kitchen and bedroom really should be kalsomined. I was just wondering if it would be possible to stretch a point and order a furnace for Sand Point. A wood burning furnace would really pay for itself in a few years, as you burn approximately twice the amount of fuel with box stoves and this combined with the features that the classroom should be kalsomined every year when stoves are used, and the everlasting dragging in wood and fixing fires which undoubtedly disturbs the pupils, would more than counter-balance the expense of the furnace.

*Request

MHO*

If the Department would consider a furnace for Sand Point we could get one installed for a very reasonable figure. At this time of year when the plumbers and tinsmiths are not rushed a furnace could be installed for approximately \$300.00. If you could possibly see your way clear to authorize this expenditure I can assure you it will be very much appreciated.

Weather is much colder at the Head of the Lakes and is hard on one's coal bin.

Yours very truly,

A. G. Smith

Sir:

I have your letter of the 4th instant, reporting on your inspection in company with Mr. Greening, Separate School Inspector, of the Sand Point Indian Day School, and requesting that a wood burning furnace be installed and the kitchen and bedroom of the teacher's residence kalsomined.

In reply it is regretted that there are no funds available during the balance of the present fiscal year to provide the cost of installing a furnace or to renovate the teacher's living quarters. It will, therefore, not be possible to authorize the expenditure required for the above purposes this year.

Your obedient servant,

Russell T. Ferrier

EXTRACT FROM REPORT OF SEPARATE SCHOOL INSPECTOR
GREENING, DATED NOVEMBER 24, 1930, ON HIS INSPECTION
OF THE SAND POINT INDIAN DAY SCHOOL.

Original on File 9-10-6.

See under

It is, perhaps, not within the writer's province to criticize, but it has always struck him as decidedly odd, upon entering a school up-to-the-minute in every other respect, to see shabby old stove pipes stretching out crazily over the ceiling. But at no time has the contrast struck him so forcibly as when visiting Sand Point after having been at Gull Bay. In the latter, a hot air furnace heats the school and residence very comfortably, the objectional stove pipe is eliminated, and the classroom is a joy to the eye. At Sand Point, a room, with exactly the same potentialities, has an ugly wood stove right in the middle of a splendid classroom. Apart from the aesthetic side, I think it would be an advantage to change the heating of Sand Point from stoves to furnace. In fuel, alone, a furnace should pay for itself in ten years at the most. If one were to include the replacing of stove pipes and the frequent calsomining resultant upon smoky little stoves, I believe the cost of installation would be covered in half that time. And precious moments would not be wasted while trying to recall the attention of the students from the, (to them, entrancing) sight of a fellow student putting some more wood on the stove.

Sir:

With reference to the Sand Point and Pic Indian Day Schools, I beg to report both these schools are heated by stoves. Consequently the walls have been darkened by the smoke. I would suggest that the kitchen and sitting room of both these schools be kalsomined.

With reference to the classrooms I would recommend that the floors be thoroughly oiled during the summer holidays. It will also be necessary to revarnish the woodwork which can be done for a very reasonable figure.

Would you kindly advise if the above meets with the Department's approval?

Sir:

I have your letter of the 23rd instant, recommending that the kitchen and sitting rooms at the Sand Point and Pic Indian Day Schools be kalsomined, also that the floors be oiled and the woodwork varnished.

In reply I have to say that our funds this year are so limited that it will not be possible to authorize any expenditures other than those absolutely required. This work, with the exception of oiling the floors, will have to stand over this year. You may, however, arrange to have the floors thoroughly scrubbed, and, when dry, given a coat of oil. No unnecessary expenditure should be incurred for this purpose, and when the work is completed, you should forward separate accounts covering the expenditure in the purchase of the oil and for the work in having same applied at each school.

A. F. MacKenzie

Re:- Investigation at the Sand Point Indian Reserve -
Department of Indian Affairs -

First Report:

Acting upon request from J.G. Burk - Indian Agent to make a general investigation at the Sand Point Indian Reserve, and also to ascertain if Indian Constable T. Bouchard had removed his horse barn off the school property situated 20 feet from the school. He had been told by the Agent last winter and also at Treaty time to remove this barn, so I was requested to give Bouchard a reasonable period to remove same.

On the 15th inst I proceeded per C.N.R. to Macdiarmid, and by boat to the Sand Point Indian Reserve.

I learned at the Reserve that four old people were having quite a bit of sickness, but not in a serious condition.

Several families were away picking blueberries, and the Indians present were mostly catching fish for food, and as a supply for the coming winter. On information received from the Indian Agent I informed them that the Department would supply them with a reasonable amount of salt and salt kegs to put up fish for the winter if they only applied for same. Most of the Indians at this Reserve are living under destitute circumstances throughout the year.

On interviewing Indian Constable Tom Bouchard in regards to the horse barn, he stated that he had not removed it and showed me where it was, and said he did not intend moving it until he was paid for his time. On giving him a definite period until the 15th October to remove the barn, he became very insolent and said he would see Burk the Indian Agent about it.

This barn is a danger to the health of the children at the school. Indian Bouchard has now been given definite instructions to remove the barn. He is a very poor Indian Constable, and if he does not remove this barn by the 15th October I would recommend that this Indian lose his appointment and another Indian appointed at that Reserve instead. The Department would then have to pay other Indians to move the barn.

I returned to detachment at Nipigon at noon of the 16th inst.

Mr. Indian Agent Burk's 330-6A, of the 25th instant (on file 9-10-5) refers to the moving of the Indian Day School and teacher's residence from Sand Point to Grand Bay. It appears that most of the families have moved over to Grand Bay, the change being heartily approved by Mr. Burk and the Department. As on June 30th, the school at Sand Point will be closed and will re-open at Grand Bay on September first.

Dear Sir

We are arranging to build a small school house at the mission to accommodate a few Indian children whose parents are anxious to have them taught.

We can get out the timber and put up the building but there will be some outlay of money for Lumber Nails and windows.

We would like to ask the Indian Dept to aid us a little in this matter. And we trust you will approve of this and knowing our circumstance will help us to obtain what we need.

Should you approve may I write you again when I can give an idea of what we will require. It will not be a large amount. as we wish to have the Indians do what they can.

Hoping you may be able to grant us this

Dear

During the past season we have been trying to induce some Indians to move to the English Church Mission, so that we could have a sufficient number to open a small school. In the spring we intend to build and our Bishop while down East called on the Department and they are willing to allow us a teacher. We asked for a teacher for half year only, as the Indians go back into the woods for winter. We have already so children from beyond Nipigon House, and the promise of more to come in spring and remain for the summer.

The Bishop wishes me to ask you for permission, that my daughter may act as teacher. She has been two terms at High School Port Arthur, and this winter she is at school and music at Sault St Marie, Mich, where she has been very successful. Bishop Thorndike of Soo Ont. wishes to be referred to if necessary, but thinks it will not be. I am sorry I could not see you while at Port Arthur. You were out on business.

If you can possibly do this for us we shall be much thankful to you.

Faithfully Yours

Sir,-

I have to acknowledge the receipt of your letter of the 21st inst, inclosing communications from Rev. B. Fuller in which he asks for a grant of \$50.00 towards the erection of the school-house which the English Church authorities propose building at Nopigon Mission.

In reply I beg to say that, in view of your recommendation, the Department will grant assistance to the extent asked, which will be paid upon receipt of vouchers showing the material purchased up to that sum. These vouchers should be sent through you.

With reference to the teacher, the Department approves of Miss Fuller being placed in charge of this school, which should be opened as soon as possible.

A register and a supply of quarterly return forms are being sent you under separate cover, and upon receipt of these returns, properly filled in, payment of the grant will be made.

Sir:

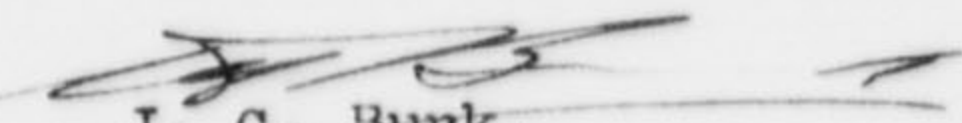

With reference to the Grand Bay settlement which was established last fall I wish to state we now have 15 families living on the Reserve. Approximately 15 acres of ground has been cleared and from 8 to 10 acres will be planted in the near future.

For the Department's information there are approximately 22 children on this Reserve who should be attending school. The majority of the families have moved from the Sand Point Reserve to better their living conditions at Grand Bay.

The school on the Sand Point Reserve should be moved to Grand Bay. I have had an expert inspect the school and find it can be sawed and moved in 3 separate pieces. A large scow could be obtained and the school moved from Sand Point to Grand Bay for approximately \$300.00. I would strongly recommend the school being moved during the summer holidays, as there will be approximately 25 to 30 children should attend school at Grand Bay.

For the Department's information I may state I have spent a great deal of time in order to make Grand Bay a success, and trust the Department will approve of the above proposition.

Your obedient servant,

J. G. Burk,
Indian Agent.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ontario.

Ottawa, May 27, 1932.

Sir:

I have your 330-6A of the 25th instant, with reference to moving the school and teacher's residence from the Sand Point Reserve to Grand Bay. I note your estimate of \$300 in this connection and that the Indians will work for rations only. Is this \$300 to include the cost of the rations? You might let me have detailed information regarding the cost of the whole move.

The Department approves of the moving of this school, but, before you take any action, please let me have the information requested, so that definite instructions can be given.

Your obedient servant,

Sir:

Referring to your letter of the 27th ultimo, No. 9-10-5, relative to previous correspondence moving to the Sand Point Indian Day School and residence from the Sand Point Reserve to Grand Bay, I wish to state it will cost approximately \$300.00 for equipment and supervision to move the school, and about \$100.00 or \$200.00 rations which will be supplied to Indian labourers. I have been advised from very good authority the approximate cost would not exceed \$400.00 or \$500.00 to move the school from Sand Point to Grand Bay Reserve.

If the Department approves of the above the school could be moved during the summer vacation.

Your obedient servant,

J. G. Burk,
Indian Agent.

I have your 330-6A of the 4th instant, with reference to moving the Sand Point Indian Day School to Grand Bay. The Department approves of this proposal and authorizes an expenditure of approximately \$300. In addition, you may give about \$150 worth of rations to Indian labourers whom you get to do the work. These, of course, will be the regular relief rations and will not be charged to Indian Education. Please purchase any materials needed from authorized sources.

Ottawa, January 23, 1933.

Sir:

The Department is in receipt of your voucher No. 63-4 for \$149.99, covering the cost of relief supplies issued to Indians of the Grand Bay reserve, in connection with the moving of the school from Sand Point.

In your letter of June 4th, it is stated that it would cost approximately \$300 for equipment and supervision to move the school as well as expenditure necessary for rations supplied to Indian labourers. The Department authorized this expenditure by official letter of June 7th, last, but, as yet, we have not received any accounts covering the cost of moving the school.

Please let me know if your original estimate was too high and if the total cost of the work is covered by voucher 63-4.

It is noted that the account from Fairway Stores is dated November 30th. The Department was under the impression that this school had been moved before that time. Please let me know the exact date on which the school was moved from Sand Point to Grand Bay.

Sir:

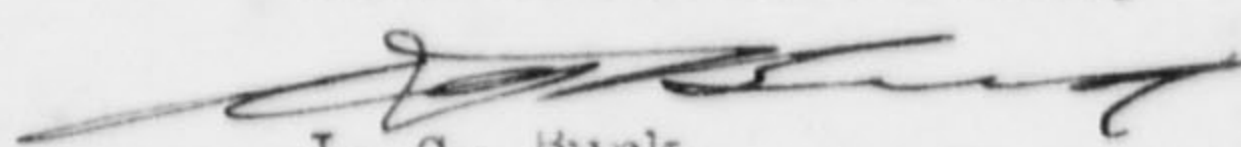

I am enclosing herewith vouchers for miscellaneous school accounts, amounting to \$39.21.

With reference to the item of \$16.05, I may say it was absolutely necessary to employ an Indian to dig a drain as the basement at the Sand Point school was flooded. It was also necessary for the teacher to employ an Indian with his dog team to convey school supplies to the Reserve. Two trips were made which accounts for the charge of \$3.00.

Referring to the Lake Helen School, I wish to state the classroom walls were very dirty owing to the smoke from the stove, and Miss Lesuch employed an Indian girl to wash the ceiling and walls, as this would be much cheaper than kalsomining.

I trust the Department will find the enclosed accounts satisfactory.

Your obedient servant,

J. G. Burk,

Sir:

I beg to acknowledge receipt of your letter of the 23rd inst., file No. 9-5, regarding voucher No. 63-4, amounting to \$149.99 for relief supplies issued to Indians of the Grand Bay Band, recommended in my letter of June 4th, 1932, to compensate Indians for work performed in moving the Sand Point Indian Day School to the Grand Bay Indian Reserve.

In reply I wish to state the provisions were purchased to compensate Indians for getting out the necessary timber to move the Sand Point school, and digging and completing a basement for the school, and supplies furnished the Indians, building a temporary school and residence for the school teacher on the Grand Bay Reserve.

Referring to your second paragraph regarding the proper cost of supervision in moving the school amounting to \$300.00, I may say the figures are extremely low, as one of the moving contractors in Port Arthur, advised he would not take the contract under \$800.00. However, I have made the necessary arrangements to secure a large Caterpillar tractor at \$5.00 per day, and have been waiting for the proper thickness of ice to start moving.

With reference to your 3rd paragraph I can assure you that \$450.00 is without doubt an exceptionally low figure for such a large undertaking.

In conclusion I may say if all goes well I expect to have the school moved to the Grand Bay Reserve, a distance of 45 miles by the end of next month. With reference to the cost of moving the school, which I figure will cost approximately \$450.00, I hope to keep within my estimates, and if all goes well I am quite convinced we can move the school for approximately \$450.00.

could be moved from one point to another, and it will not be necessary to purchase hay and oats. We have some good Indians who could operate the tractor. A tractor is certainly a great thing to clear and cultivate land, and as conditions are, at the present time, if we do not get down to farming I am afraid the Indians will be a great burden on the Department, especially as they are creating a large game sanctuary in this Agency.

If you think you are going to have any spare funds I would certainly appreciate a supply of clothing, consisting of underwear, top shirts, flannelette, kersey, mens and boy's pants, and sox. I am going my utmost to keep the cost down in the Agency, but really conditions are becoming quite serious. I would suggest that MacInnes write to Corporal F. Bebb, at Nipigon, and ask him to send in a report regarding the condition of the Indians in this Agency. He has travelled through the country and could send in an accurate report.

I am indeed sorry to trouble you, as I know you are very busy, and this combined with the sickness you have had must keep you right on the jump, but if you have time to scribble a note, will appreciate it very much. I presume it will be O.K. to charge my telephone call to Account 75.

Kind regards to Mrs. Allen and yourself.

Mr. G. Allen,

Dear Norman:

Place on official file

You will no doubt wonder why I communicated with you by long distance today. I was frightfully worried, and did not know what to do about the school. In the first place I got in touch with a house mover who advised he would move the school for \$300.00, if the Department would pay the cost of the tractor, to and from the Reserve, and also feed the men. Counting the freight rate on the tractor and equipment, and feeding of the men, and his contract price of \$800.00 would bring the price up to approximately \$1400.00. I considered I could move the school for \$450.00 I did not, however, figure on using \$149.99 on food supplies to build a temporary school, and make a grade from the beach to allow the school to be pulled from the beach to the Reserve.

When I first made enquiries regarding the freight rates on the tractor I was advised I could ship it for \$65.00. I was flabbergasted when I found out I had to pay \$133.00, nor did I figure paying \$50.00 insurance on the tractor, and \$55.00 for timbers. I figured we could cut timbers at our sawmill, but the moving contractor advised green timbers cannot be used. Consequently I was obliged to purchase 4 10 x 10 timbers, 30 feet long, at a cost of approximately \$55.00. I did not figure the cost of labour involved in fixing the school permanently on the Reserve, that is time and labour involved in building a foundation, etc., which all costs money.

I am attaching herewith the approximate cost of moving the school and do hope we will be able to get extra funds. Moving this school is a big undertaking, but when you consider the school cost approximately \$5000.00, and is only going to rack and ruin, it is a very good investment.

With reference to my official letter enclosed, regarding the tractor, I really believe it would be a very good investment. The tractor

I considered this cost too high, and consequently made the above arrangements.

I would appreciate it very much if the Department would advise if it will be possible to secure additional funds to have the building moved. The school cost approximately \$5000.00 and is practically new. For the Department's information I may say that the majority of the families from Sand Point have moved to the new Reserve at Grand Bay.

Sir:

I beg to refer you to previous correspondence of June 4th, 1932, and your reply of June 7th, File No. 9-9-5, regarding the moving of the Sand Point Indian Day School to the Grand Bay Reserve, which I figured would cost approximately \$450.00.

For the Department's information I may say I spent \$149.99 for supplies to compensate Indians for work performed in clearing a right-of-way on the Grand Bay Reserve for the purpose of moving the school from the ice onto the Reserve; also considerable expense was involved in grading the ground from the beach to the Reserve, and putting a small bridge over a slight ravine on the Reserve where the school would have to pass over. We also constructed a temporary residence on the Grand Bay Reserve for the teacher, which was included in the supplies amounting to \$149.99. I do not believe this expenditure should have been charged to the moving expense.

For the Department's information I may state I got in touch with the C.N.R. Freight Department and advised them I was anticipating shipping a 10 ton tractor and equipment. I was informed the freight would be \$60.00 one way. Yesterday when the tractor was loaded with moving equipment, the total freight amounted to \$133.00 one way, which was extremely high. I did everything possible to have the rate reduced, but was unable to meet with any success. It will cost approximately \$100.00 to have the tractor shipped back to Port Arthur, and about \$120.00 for supervision, \$50.00 for new 10 x 10 timbers, \$25.00 for rental of tractor, \$25.00 for the man to drive the tractor, \$50.00 for insurance--total including supplies mentioned above \$752.99.

When I first sent in my estimate of \$450.00 I did not figure on \$50.00 insurance on the tractor, and the freight rate, as previously stated, was exceptionally high.

Referring to previous correspondence you will note I obtained a figure from a moving contractor to move this school for \$800.00. This did not include freight on tractor, and moving equipment which would be paid by the Department, or the board of the man.

Sir:

I have your letter of the 11th instant, regarding the moving of the Sand Point Indian Day School building to the Grand Bay Reserve.

In reply I have to say that the Department considers that there has been delay on your part in having this work completed and also with regard to the extra cost over your first estimate. In your letter dated May 25th, you stated that this school could be moved for approximately \$300 by using a large scow, plus the sum of \$200 for rations to the Indian labourers who perform the work, and that the work could be carried out during the past summer holidays. You received the necessary authority by official letter dated June 7th, last. Our appropriation for the purpose will lapse at the end of the present month, and we have no funds provided in our Estimates for the coming fiscal year for this work. The Department now notes that, besides the amount that was paid for supplies to the Indians, viz., \$149.99, a further amount of \$603 will be required to do the work. In this connection I have to confirm the following night lettergram of today's date:

"Reference your letter eleventh may move school to Grand Bay provided work can be done next week and accounts reach here by end of month. Further cost moving and fixing school must not exceed Six Hundred and Three Dollars."

It is noted that these further costs, including fixing the school at Grand Bay, will be as follows:

Supervision moving school	\$120.00
Rent of tractor	25.00
Hire of man to drive tractor	25.00
New timbers	50.00
Insurance on tractor	50.00
Freight on tractor to Sand Point	133.00
Freight on tractor return trip	100.00
Extra labour at Sand Point moving school on ice	50.00
Labour fixing school at Grand Bay	50.00
	\$603.00

Could you not personally arrange for necessary supervision of the work without incurring the expense of \$120.00?

You should have the building moved before the end of the present month, and all accounts, in triplicate, which should be dated previous to March 31st, covering the greater part of the cost forwarded in time to reach the Department not later than the first week in April, or earlier if possible. You should also obtain proper receipts for all freight charges on moving tractor, and the accounts for labour should show, in detail, time employed, rates paid, etc. If the moving of this school is delayed, and accounts not received by the date mentioned, we will have no funds in our Appropriation next year to provide for the cost. You will, therefore, give the matter of moving this building your prompt and personal attention, using every endeavour to have the work completed and accounts, as far as possible, covering the cost, forwarded as requested.

Sir:

I beg to acknowledge receipt of your letter of the 17th inst., No. 9-9-5, regarding the moving of the Sand Point School. In reply I wish to state it was my intention at the time of receiving authorization to move this school by scow. When the scow was moved from the skids I discovered it was too old to undertake this exceptionally large load. It would have been necessary to tear down the building, and to rebuild it. This would have entailed a great deal of expense. Consequently I interviewed Chambers, McQuigge, & McCaffrey, who did a great deal of towing on Lake Nipigon in the winter months during construction. They advised me if the services of a competent house mover could be obtained this building could be easily moved on the ice. I obtained a contract price of \$800.00 from Frank Love, who advised he would move the building from Sand Point to Grand Bay, and set it up on a wooden foundation for \$800.00, on condition that the Department supply tractor, and pay freight charges on same. This charge appeared excessive.

I then got in touch with Mr. C. Carlough, a man with a great deal of experience in moving houses, who advised he would undertake the work, supply all equipment consisting of house jack, sleighs, pulleys, cables, etc., for \$8.00 per day--total amount not to exceed \$120.00. I again interviewed the above mentioned firm, who informed me they considered this arrangement should be satisfactory. They advised me not to undertake the work myself.

It was my intention to move the school in February, but owing to the severe weather, it was impossible to do so. I was travelling on Lake Nipigon from February 1st to 10th, during which time the temperature average was 40 degrees below zero, with strong winds.

Upon my return to MacDiarmid on February 10th, I got in touch with Captain McKay, who is winter fishing on Lake Nipigon, and asked him to send word when he considered the best time to commence operations. I received word on March 8th, advising that the lake was in good condition for moving, with approximately 8" of snow. The equipment

was loaded on the car the following day. Mr. Garlough and the tractor driver left for Sand Point on the 9th. I followed on March 11th.

Unfortunately we encountered most unfavourable weather, with exceptionally heavy snow fall, and very strong winds. Within 6 days over 28 inches of snow fell, and drifted so hard it would actually hold the 10 ton tractor. It was at this time, upon the advice of the tractor driver, that I sent a night letter to the Department asking if it would be possible to purchase a small tractor to assist. The purchase of a small tractor had been approved in official letter of August 17, 1932 for the Gull Bay Reserve, and could be transferred easily to Gull Bay--40 miles distant.

It was necessary to employ extra Indian labour for shovelling snow. We made very good progress the first two days until we got out to the open lake, where the snow had drifted. After several days attempt to continue moving I considered it unwise to go on, as we were moving only a few hundred feet each day. We worked constantly from daylight until dark.

I returned to MacDiarmid, leaving the building jacked upon skids, with a watchman in charge. The ice was tested several hundred feet from the school, and was found to be 32 inches of solid blue ice. I consulted several reliable men at MacDiarmid, who agreed with my opinion that the school is perfectly safe for the present, and can be easily moved immediately the snow melts.

For the information of the Department 3 cars of hay were conveyed on sleighs from MacDiarmid to the Gull Bay Reserve, a distance of 72 miles, when there was a depth of 12 inches of snow water on the ice.

I considered it advisable to ship the heavy 10 ton tractor to Port Arthur, as the charge of retaining same was too much. The school can be moved by 2 teams of horses, or a smaller tractor, when there is no snow.

In conclusion I wish to say that I regret this delay, but feel I have done my utmost to move this school at the least possible cost. I also have the assurance that the Grand Bay Indians will give such

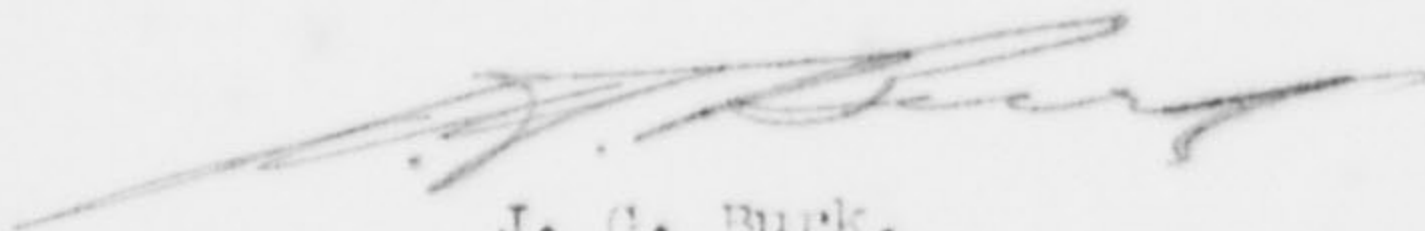

---Page 3---

further assistance as is necessary without remuneration. It is not considered at present that the snow on Lake Nipigon will melt until the 2nd week in April, and navigation open before the middle of May. I am keeping in constant touch with MacDiarmid, and will leave immediately word is received that the snow has melted.

As a last resort, I will have the Indians take the building apart in sections, and remove to a near by island to be taken across in the summer. This, however, is not anticipated.

Ottawa, March 29, 1933.

Sir:

I have your letter of the 25th instant, reporting the difficulty met with in moving the Sand Point Indian Day School building to the Grand Bay reserve and enclosing photos showing the work in progress.

The Department has noted the exceptional weather conditions and the heavy snow, which has interfered with the work. It is hoped that you will use every effort to have this building moved to its future site on the Grand Bay reserve and that there will be no danger of loss, owing to a sudden change in weather and the ice becoming unsafe to bear the weight of the building.

The Department will leave this matter in your hands to have the work of completing the removal of the building carried out at the lowest expense and as early as weather conditions permit. It is thought that there are certain accounts in this connection, which you could forward, in order that payment can be made before our books close for the present fiscal year. It is noted that you considered it advisable to ship the heavy tractor to Port Arthur. Accounts for freight charges on the tractor, for any other expenses in connection therewith and for any labour to date could be forwarded, in triplicate, properly certified. All these accounts should be dated previous to the end of the present month, and, if received by the 8th of April, next, they could be paid from this year's Appropriation. Please give this matter your prompt attention.

I note you have the assurance that the Grand Bay Indians will give the necessary assistance in the moving of the building, without remuneration. I would urge that you use your utmost endeavour to have the school moved to Grand Bay without resorting to the necessity of taking the building apart and removing it to a near island to be taken across in the summer.

Your obedient servant,

I beg to enclose herewith voucher in my favour amounting to \$400.40, covering labour returns, etc., moving the Sand Point Indian Day School to Grand Bay Reserve.

The following is a complete itemized statement of expenses paid to date regarding the removal of the school:

Labour March 11th to March 18th	\$374.25
Testing ice from Sand Point to Grand Bay	7.50
Food supplies, etc.	18.65
Freight on tractor to MacDiarmid	
Paid by Transport Requisition No. 12181	133.77
Freight on sleighs to MacDiarmid	6.20
Freight on tractor & moving equipment from MacDiarmid. The 2 above items paid by Transport Requisition No. 12182	112.13
	<u>\$652.50</u>

400.40

In conclusion I may say most unexceptional weather conditions were encountered causing difficulty in moving operations. It was necessary to secure extra labour to shovel snow, etc. The labourers were paid at the rate of \$2.00 per day, as we were continuously working from daylight until it was too dark to carry on.

The foreman was paid at the rate of \$8.00 per day, total not to exceed \$120.00, which included all moving material, consisting of sleighs, pulleys, jacks, and other moving equipment. The tractor driver was paid at the rate of \$4.00 per day, and his assistant \$3.00 per day.

As you will note I am enclosing herewith duplicate freight receipts covering freight on tractor, etc., to and from MacDiarmid.

J. G. Burk,

Sir:

I beg to enclose herewith voucher in my favour, covering insurance policy on one 10 ton, 60 H.P. Tractor, for the purpose of moving the Sand Point Indian Day School across Lake Nipigon.

For the Department's information I may say I was compelled to insure the tractor, as the owner would not allow the heavy tractor to go over the ice until it had been insured.

I regret this additional cost, but unfortunately I was obliged to put this insurance on, consequently I have gone over my estimate.

Sir:

I have to acknowledge receipt of the voucher which you submitted, in favour of Donald A. Clark, to the amount of \$212.80, covering hire and freight charges in connection with a tractor, used for the purpose of moving the Sand Point School to Grand Bay.

ENCUMB.
REQ'N. No. 672

Payment of this account will be made in due course, but I would request that, if there is any other expenditure with reference to this work, you will forward properly certified accounts, in triplicate, as soon as possible.

Further, you should submit a report regarding the present situation in connection with this building, giving particulars as to its condition and what further work is required to place it in shape for the conducting of classes, with an estimate of the cost of same. It is hoped that the building can be placed in satisfactory condition to carry on classroom work when the schools re-open after the summer holidays, on or about September first, next. The Department will expect a full report from you, together with any further accounts in connection with moving the building, as soon as possible. Please forward your estimate of what is further required to place it in a serviceable condition.

Sir:

I beg to acknowledge receipt of your letter of June 14th, No. 9-9-5, relative to previous correspondence in connection with moving the Sand Point Indian School to the Grand Bay Reserve. In reply I beg to advise I am enclosing herewith additional accounts in connection with the moving of the school.

For the Department's information I wish to report that we had 2 tractors which were continually on the move 12 to 14 hours each day. The last 3 days we worked night and day as the condition of the ice was becoming very serious, and our sleighs on several occasions broke through the ice. As you will note by the enclosed accounts we consumed 8 barrels of gasoline. We actually purchased 10 barrels, but as we did not use the latter 2 barrels, I charged same to the Grand Bay Reserve.

With reference to the attached invoice for food amounting to \$12.49 I beg to advise these supplies were purchased for the watchman.

With reference to supplies purchased on April 14th and 19th amounting to \$112.98, which includes spark plugs and Mobiloil, I wish to state we fed 10 men, 4 meals per day for 11 days, which amounted to 440 meals. The balance of food on hand we distributed to the Indians when we completed the moving of the school.

A further letter will be mailed today giving a full report in connection with the moving of the school.

210-A.3

Sir:

I beg to enclose herewith accounts in connection with moving the Sand Point Indian Day School to Grand Bay Reserve, a distance of approximately 25 miles. The account, as you will note, amounts to \$164.29.

Unfortunately I am unable, at the present time, to send in the balance of the accounts which should not exceed \$30.00 to \$40.00 covering the rental of the cable and also moving equipment.

For the Department's information I may say we were obliged to move the school a second time to a better site, as on the first site the ground proved to be quicksand, and we were unable to excavate for a basement. The new site is in sandy ground, and is much better. We are still retaining the moving equipment, consisting of jacks, cables, etc., which will have to be returned to Port Arthur. The approximate cost of putting the school in good condition, kalsomining, and doing minor repairs, should not exceed \$75.00.

Your obedient servant,

J. G. Duck,
Indian Agent.

Sir:

I have your letters of the 30th ultimo and the 4th instant, enclosing vouchers in connection with the expenditure incurred in moving the Sand Point Indian Day School to Grand Bay. Cheques in payment of these accounts will be issued in due course.

It is noted that there will be further accounts rendered which, you state, should not exceed a total of from thirty to forty dollars. I would request that you render all accounts in connection with the moving of this school as soon as possible. The expenditure in this matter has been greatly in excess of the first estimate submitted by you. In your letter dated June 4, 1932, you stated the cost of moving this building from Sand Point to Grand Bay would not exceed, approximately, \$500.00, while the total expenditure to date has been in the vicinity of \$1,300. In view of the need for strict economy and the necessity of making a great reduction in our Appropriation, it is doubtful, if we had been aware that the cost would be so high, if authority would have been granted to move the building.

It is noted, when the building arrived at Grand Bay, that it was necessary to move it to a better site. It is considered a proper site should have been selected for the building before it was moved.

You should endeavour to have this building placed on a satisfactory foundation and all the moving equipment returned to Port Arthur. You may incur an expenditure not exceeding the sum of \$50.00 in putting the school in good condition and carrying out any minor repairs. There will be no funds available for calcimining or decorating. After the work of placing the building in good condition has been completed, you should forward an account, properly certified and in triplicate, covering the expenditure, which should not exceed the above authorized amount.

It is hoped that this building will be ready for occupation when the schools re-open after the present summer holidays. You might also inform the Department regarding the teacher who will conduct the classroom work.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Indian Affairs cheque No. 5547 for \$50.00 was issued on April 15th last in payment of the A.G. McLean Agency account for insurance on a ten ton tractor used for moving the Indian school across Lake Nipigon.

In this connection I would refer you to Order in Council of July 5, 1881, as amended by Order in Council of June 16, 1927, prescribing regulations regarding insurance of government property. In view of these regulations will you please inform me why a policy was effected in this case.

Dear Sir:

I beg to acknowledge the receipt of your letter of the 13th instant requesting information concerning the payment of an insurance premium on a ten ton tractor used for moving the Indian School across Lake Nipigon.

Reference has been made to the Orders-in-Council quoted by you, and it is found that these refer to the placing of insurance on Government property, whilst the question under review does not involve Government property, but was to cover private property in the form of a ten ton tractor which was rented by our Agent for the purpose of moving the school referred to above.

The tractor was rented from Donald A. Clark, of Port Arthur, Ontario, whose account therefor was paid by cheque number 6615, dated 28th June last.

For your information I beg to quote the following paragraph from our Agent's letter of the 4th April last:

"For the Department's information I may say I was compelled to insure the tractor, as the owner would not allow the heavy tractor to go over the ice until it had been insured".

I trust the above information explains the matter to your satisfaction.

Yours truly,

Sir:

Referring to your letter of July 11th, No. 9-9-5, regarding the Sand Point School building which was moved to McIntyre Bay, I beg to report I overlooked the necessity of constructing a chimney and also the providing of a cement foundation for same. At present an improvised chimney built by the foreman is in use, but will not be sufficiently safe to use during the winter months.

I am extremely pleased to report that this building has been put in first class condition by the Indians--floors scraped and varnished, walls kalsomined, a splendid foundation constructed, and the school and residence has the appearance of a newly constructed building.

The cost of constructing a new chimney and foundation for same would be approximately \$75.00 to \$100.00. As this Band have not sufficient funds to cover the cost of building this chimney, I would recommend an additional grant to cover this expenditure, as I feel it is absolutely essential to the safety of the building. I would appreciate it very much if you would inform me at your earliest convenience regarding this matter. I may say this will be the last expenditure required for this school.

Your obedient servant,

J. G. Burk,
Indian Agent.

Dear Sir,-

Replying to your letter of the 4th instant, with reference to the Sand Point School building which was moved to McIntyre Bay, I beg to say that there are no funds available at the present time for the additional work asked for in your letter. The cost of this building has already exceeded considerably the original estimate.

Sir:

With reference to conversation with you during your recent visit to the Department, regarding the need of renewing the chimney and painting the exterior of the Grand Bay Indian Day School, I have to say that the Department will approve of you arranging to have this work carried out at the earliest convenient time. You should arrange for the purchase of all materials from firms on the list to receive consideration. Any labour, as far as possible, should be carried out by Indians. If necessary to engage the services of a bricklayer, other than an Indian, you may do so.

After the work has been completed to your satisfaction, please obtain accounts, in triplicate, covering the cost of the materials, and time sheets, also in triplicate, for the labour employed. I enclose an encumbrance certificate, authorizing the expenditure in the purchase of the materials and for the labour in performing the above mentioned work, to the amount of \$175. The Department will be pleased if you can effect any saving in this amount. Please state on each copy of your voucher that the expenditure was incurred under authority of E. R. No. 1112.

Your obedient servant,

Sir,

With reference to the enclosed requisition, I would suggest ordering 6 medium sized desks and 10 large size desks.

At the present time I have applications on hand for 14 families who desire to move to this Reserve, but unfortunately we cannot accommodate them, but hope to have sufficient building erected by this fall to accommodate 6 or 7 new families. Under the circumstances I would recommend the purchase of 16 desks which could be shipped to J. G. Burk, MacDiarmid, Ontario.

Sir:

With reference to requisition dated the 6th instant for supplies for the Grand Bay Indian Day School, it is noted that the teacher requests one mattress, one pair pillows, one white bedspread, one pair blankets and four white sheets. The Department does not see the necessity for supplying these articles, as it is understood they had previously been purchased.

If you consider the undermentioned articles absolutely necessary, you may arrange for their purchase and delivery: -

2 wick cleaners and mantles for Alladin lamp, Model 12,
2 large burners for coal oil lamp

2 kitchen forks	1 water pail
1 butcher knife	10 Yds. towelling
1 butter knife	2 spools thread
1 paring knife	1 bunch tape
1 teapot	1 looking glass
2 scrub brushes	3 combs
1 O'cedar mop	1 double boiler
2 brooms	3 Yds. screening
1 shovel	3 cans stove polish
1 can opener	1 milk pitcher
2 vegetable dishes	1 mixing bowl & spoon
2 " platters	1 kettle
3 cans Gillet's lye	1 saucepan
5 Lbs. washing soda	1 pudding dish
1 bread tin	1 frying pan
20 bars soap	2 cake tins.
1 lantern	
Stove pipes (for classroom)	

In the case of many of the articles just mentioned, the Department cannot understand why they should be necessary as we have already purchased a considerable quantity of supplies for the residence at this school. However, as stated above, the question of purchasing these articles is being left to you, providing you consider them necessary.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir:

I beg to acknowledge receipt of your letter of the 12th ultimo regarding the enclosed requisition for supplies sent in by Miss Fex for the McIntyre School, and in reply I may say I have recently returned by dog team from this Reserve, and have carefully gone over the list with Miss Fex and pointed out that the appropriation for school vote was almost exhausted and it would, therefore, be necessary to use discretion.

Miss Fex would appreciate if the articles marked on the enclosed requisition with a cross could be ordered. The teacher would also appreciate if the supplies for the cooking class could be purchased. I would recommend a small amount of flour, lard, cocoa, baking powder and sugar.

I note the toothbrushes and camphorated chalk will be forwarded to the teacher.

Sir:

With reference to basement which is urgently required for the McIntyre Bay Indian Day School, I would refer you to my verbal conversation during my visit in Ottawa.

For the Department's information I wish to state I recently returned from the Reserve and find that the school is continually sagging. The foreman advised he has blocked the corners up repeatedly, but owing to the nature of the soil he states the only remedy is to put in a cement foundation. The approximate cost of building a basement, and putting in tile for a drain under the school, would not exceed \$300.00.

I would appreciate the necessary authority to carry out this work, which is urgently required.

Sir:

I have your letter of the 25th ultimo, regarding the installing of a cement foundation and tile drain under the Grand Bay (McIntyre Bay) Indian Day School.

The Department will approve of you having this work carried out. You should arrange for the purchase of the cement and other materials required, from firms on the approved list. Indian labour should be employed as far as possible, under the charge of a competent foreman.

It is noted, you estimate the cost should not exceed the sum of \$300. I enclose an encumbrance certificate, authorizing an expenditure to that amount. Please obtain itemized accounts, in triplicate, covering the cost of all materials. You should also keep proper time sheets, in triplicate, of the labour employed. After the work has been completed to your satisfaction, you should forward the accounts for the material and for the labour. You should state, on each copy of the accounts, that the expenditure was incurred under authority of E. R. No. 3428.

The Department expects you to see that a satisfactory job is completed in the installing of the foundation and putting in the tile for drain. Please see that all costs are kept as low as possible. This work should be carried out during the present summer holidays. The entire cost must not exceed the amount stated above.

Sir:

Referring to your letter of July 4th, No. 9-9-5, regarding authorization to build a cement foundation and tile drain under the McIntyre Bay School, I beg to advise that owing to the fact we were extremely busy during the summer months, we were unable to carry out this work, and upon making enquiries regarding the amount of cement required, I find that \$300.00 would not be sufficient to construct the basement as we require 225 bags of cement, costing \$1.06 F.O.B. MacDiarmid.

The cost of handling from MacDiarmid to the school, not charging transportation by boat will be \$10.00. There is also the cost of excavating and building forms and labour, and as the season is getting on I have decided it would be better to postpone this work until next year. I have included, however, \$500.00 in the estimates for the construction of a basement next year.

Would it be possible to use the \$300.00 to install a hot air furnace in the McIntyre School? The classroom is heated by a large Queen heater and the residence is heated by a box stove. Both these stoves quite frequently smoke and discolour the walls. If a furnace was installed this would not happen.

I trust the Department will authorize the installing of this furnace which can be put in immediately. The cost will be approximately \$300.00.

Your obedient servant,

J. G. Burk,
Indian Agent.

The Department is not prepared to authorize the installation of a furnace at this school. Recent orders have been issued to curtail expenditure as far as possible, and, as you have been unable to have the foundation and drain installed, the encumbrance requisition has been cancelled.

Dear Mr. Sutherland,

When I was at Ottawa recently, I discussed with you the matter of the school at McIntyre (sometimes called "Grand") Bay. If you remember, a certain amount had been allotted for provision of a basement, but the amount was not enough to do the job. Mr. Burk and I think that it would be much better in every way if the money were spent for a furnace. You said that you thought it would be all right to go ahead, but ~~it~~ that it would be well for Mr. Burk to secure covering authority.

I wrote him to that effect, and, as the season for navigation is drawing to a close, Mr. Burk went ahead with his arrangements to get the material up to McIntyre Bay before freeze-up.

Imagine our dismay when the official letter came from Ottawa turning down the project.

It struck me that, perhaps, the letter may have gone to some other official, or had not been connected in your office with the matter we had talked over.

Could you offer any advice upon the matter as it now stands? Any assistance in our embarrassment would be appreciated.

With kindest regards,

Yours very sincerely,

W. J. Greening

Dear Sir:

Your letter of the 13th instant has been received. Following your visit, Mr. Burk wrote the Department, but as there is no foundation under the Grand Bay Indian Day School, the Department did not consider it advisable to supply a furnace. In addition, orders have recently been issued to curtail expenditure as far as possible during the balance of the fiscal year. Under these circumstances, Mr. Burk was advised that the Department was not prepared to authorize the installation of a furnace.

Sir: Attention Educational Branch

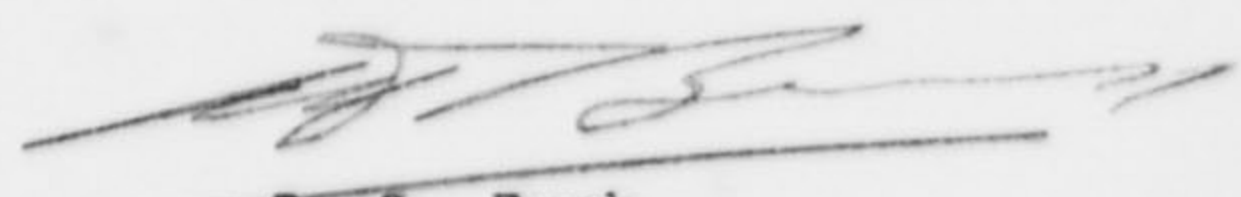

I beg to acknowledge receipt of your letter of the 7th inst., No. 9-9-5, which I received on my return to the City. I note in the second paragraph the Department is not prepared to authorize the furnace in the McIntyre Indian Day School.

For the Department's information I may say I received a letter from Inspector Greening advising me he had interviewed the Department, and that authorization would be granted to install this furnace; consequently considerable work has been done enlarging the basement, and cribbing the walls with timber. This has been done gratis.

The teacher will be exceptionally disappointed if the furnace is not installed.

I trust the Department will reconsider their decision, especially as this is such an isolated spot, and Miss Fex is doing such good social service work.

Referring to conversation during your recent visit to the Department, regarding the installing of a cement basement under the McIntyre Bay Indian Day School and the installing of a new furnace, I would say that the Department will be able to provide the funds required to carry out the work, to an amount not exceeding the sum of \$900.00.

I would request that you advise the Department regarding the cost of the new basement, the cost of a suitable furnace and the installing of same. You should state, also, how you would recommend the work be carried out, and what labour, other than that performed by Indians, would be required. In any event, it is understood that the work would not be proceeded with until after the school closes for the coming summer holidays.

Dear Sir:

The Department is in receipt of your letter of the first instant, with reference to the proposed construction of a cement basement and installation of a furnace at the McIntyre Bay Indian Day School.

No special provision was made for the above expenditure in the current year's Appropriation, but when you were written on April 15th, last, it was hoped that funds could be made available. However, during the past few months there have been so many unexpected demands on our Appropriation that it is now found impossible to proceed with the work at the McIntyre Bay School.

When preparing your Estimates for the fiscal year 1937-38, you may include an item covering the work you recommend at McIntyre Bay School.

Sir:

Referring to our verbal telephone conversation of recent date, may I draw your attention to the appropriation of \$900.00, to install a new furnace and construct a basement at the McIntyre Bay Indian Day School. For your information, I may say, that owing to the fact that the school is located near a weeping bank which has been gradually falling in, I was informed by an engineer that it would be better to wait until the fall of the year, as the summer rains would make any excavating impossible, and to ascertain just how far the bank would fall in during the summer months. Consequently, I decided to postpone the building of the basement until the Fall.

I may say, that I secured a contract from the C.N.Rly for from 5000 to 10,000 ties to be cut on the new timber limit, adjacent to the McIntyre Bay reservation but as this limit was cancelled, the contract also had to be cancelled. I would strongly recommend that authorization be granted to build the basement under the school as in this way we will be able to create work for the band.

In conclusion, I might add, that the grant was secured for this work in 1935 also, but was also cancelled.

I have the honour to be, sir,

Your obedient servant,

OFFICE OF
INDIAN AGENT

Port Arthur, Ont.,
March 19th, 1937.

210-2

Sir:

Attention Welfare &
Training Division

I beg to report I have today received a communication from the teacher of the McIntyre Bay Indian Day School requesting that the children at that school be supplied with tooth brushes, and a powder or paste cleanser.

I would appreciate if the Department would advise if these can be supplied and if so, if the purchase could be made here, or if it will be sent direct from the Department.

The approximate cost of 13 brushes and cheap powder or paste would not exceed \$5.00.

I would be pleased to receive the necessary authorization.

Your obedient servant,

J. G. Burk
J. G. Burk,
Indian Agent.

Referring to your letter of the 3rd instant, File No. 9-10-1, relative to re-opening the Indian day school at the Sand Point Indian Reserve, and requesting me to rent a suitable house for the teacher and to furnish her with cooking utensils. In reply I beg to advise I was very fortunate in being able to rent two suitable buildings, one for the teacher's residence and the other for the classroom. Both buildings are situated in the middle of the reserve. This property is fenced in and is suitable for children's recreation grounds.

. I rented the above two buildings at a rental of \$25.00 per month for each building. The owner is willing to sell the property and the two buildings for \$300.00, and will be satisfied to take a rental of \$50.00 per month until the property is paid up. The two buildings could not be replaced for less than seven or eight hundred dollars.

Sir:

I have your letter of the 23rd instant, informing the Department that Miss Genevieve McAteer began duties as teacher of the Sand Point Indian Day School on the 17th instant. It is also noted that you have been able to obtain a suitable house for the teacher's living quarters and a house in which to carry on classroom work - both buildings being centrally located and the grounds fenced and suitable for children's recreation.

The Department approves of the renting of the buildings referred to for the sum of \$25 per month, each, and will pay the rental at that rate for a period of six months. It is understood that, at the end of that time, the amount paid as rental will cover the full purchase price of the buildings, viz.: \$300. You should prepare and forward from time to time properly certified vouchers for the rent due, and, when the 6 months' period has elapsed, you should prepare and forward, in duplicate, a Quit Claim Deed (blank forms for the purpose enclosed) for the transfer from the owner to the Department of the two buildings with the grounds surrounding same. A proper description of the plot of land should be filled in in the deed.

The continuing of the school permanently will depend upon the success achieved during the first 6 months it is in operation. It is hoped there will be a full and regular attendance of all Indian children of school age and that the teacher will meet with every success in her work.

Encl.

[Handwritten signature]
Sir,

With reference to my letter of the 23rd ultimo and your reply of the 25th, your file number 9-10-1, regarding two buildings purchased on the Sand Point Indian Reserve to be used as a teacher's residence and the other for a schoolroom, I beg to advise I have just received word from Mr. J. Nicholson informing me that he is now willing to sell the house and a large woodshed for \$250.00. This also includes a first class canoe which the teacher could use when going to and from MacDiarmid where the nearest postoffice is located--a distance of approximately two or three miles.

Personally I would recommend the Department purchasing the woodshed, as it only is only a few hundred feet behind the schoolhouse, and would be very useful for storing wood. As the road from the Reserve to MacDiarmid is very wet I would consider it advisable to purchase the canoe also.

The building purchased for the school is just a very few feet from the residence. This building was purchased from Mr. Nicholson's son for \$100.00. I have already advised him that he would receive two months rent at \$50.00 per month until the building was paid for, when a quit claim deed will be filled out and sent to the Department.

*Mr. G. Burk
will be here
early in July*

Mr. Nicholson Sr. expects to build a new house at MacDiarmid and would like to be paid in full for his property. Personally I would recommend the Department purchasing this building as the same could not be erected under six or seven hundred Dollars.

If the Department favours the purchase of this building the cheque could be sent to Mr. Nicholson, MacDiarmid, Ont.

I am enclosing herewith vouchers covering the rental of the schoolhouse and the purchase of the school residence.

Your obedient servant,

Sir:

I have your letter of the 22nd instant, relative to the purchase from Mr. J. Nicholson, Sr., of a house owned by him on the Sand Point Indian Reserve to be used as a teacher's residence, and also for the purchase of a woodshed and canoe for the sum of \$250.

In this connection I have to say that Mr. Paget, of this Department, will inspect this house, and report as to the advisability of purchasing same, on the occasion of his coming visit to Sand Point. The matter of the purchase will, therefore, not receive consideration until after Mr. Paget's report is received.

You will be advised in a separate communication regarding the purchase of the building for classroom purposes.

IN YOUR REPLY REFER TO No. 210-40
ALSO
TO DATE OF THIS LETTER

Sir,

On Saturday, September 24th, I received a wire from Miss McAtteer, teacher of the Sand Point Indian Day School, advising me that Mr. Nicholson had removed all his furniture from the school house. When the house was purchased from Mr. Nicholson we were informed the furniture would possibly be left in until next Spring, as he expected to go north to the Hudson Bay Company. Unfortunately he has changed his mind and has removed his furniture from the school residence.

I would, therefore, recommend purchasing the following supplies immediately:

- 1 Dining Room suite.
- 2 Stoves, 1 for school residence and 1 for school house.
- 1 Small Carpet.
- 1 Plain Rocking Chair.
- 22 Stove Pipes.
- 1 Small Lounge for the Sitting Room.
- 2 Lamps.
- 1 Teacher's Desk.
- 1 Galvanized casing for roof to run stove pipe through.
- 4 Inexpensive Pictures.
- 2 Wash Basins, 1 for school house and 1 for school residence.
- 1 Wash Tub.
- 1 Wash Board.
- Sufficient wall paper to paper the teacher's residence.

As these supplies are required immediately I would be very pleased if you would reply by return mail.

Your obedient servant,

J. G. Burk,
Indian Agent.

Sir:

I have your 330-6A of the 25th instant, with reference to moving the school and teacher's residence from the Sand Point Reserve to Grand Bay. I note your estimate of \$300 in this connection and that the Indians will work for rations only. Is this \$300 to include the cost of the rations? You might let me have detailed information regarding the cost of the whole move.

The Department approves of the moving of this school, but, before you take any action, please let me have the information requested, so that definite instructions can be given.

Referring to your letter of the 3rd instant, File No. 9-10-1, relative to re-opening the Indian day school at the Sand Point Indian Reserve, and requesting me to rent a suitable house for the teacher and to furnish her with cooking utensils. In reply I beg to advise I was very fortunate in being able to rent two suitable buildings, one for the teacher's residence and the other for the classroom. Both buildings are situated in the middle of the reserve. This property is fenced in and is suitable for children's recreation grounds.

. I rented the above two buildings at a rental of \$25.00 per month for each building. The owner is willing to sell the property and the two buildings for \$300.00, and will be satisfied to take a rental of \$50.00 per month until the property is paid up. The two buildings could not be replaced for less than seven or eight hundred dollars.

Sir:

I have your letter of the 23rd instant, informing the Department that Miss Genevieve McAteer began duties as teacher of the Sand Point Indian Day School on the 17th instant. It is also noted that you have been able to obtain a suitable house for the teacher's living quarters and a house in which to carry on classroom work - both buildings being centrally located and the grounds fenced and suitable for children's recreation.

The Department approves of the renting of the buildings referred to for the sum of \$25 per month, each, and will pay the rental at that rate for a period of six months. It is understood that, at the end of that time, the amount paid as rental will cover the full purchase price of the buildings, viz.: \$300. You should prepare and forward from time to time properly certified vouchers for the rent due, and, when the 6 months' period has elapsed, you should prepare and forward, in duplicate, a Quit Claim Deed (blank forms for the purpose enclosed) for the transfer from the owner to the Department of the two buildings with the grounds surrounding same. A proper description of the plot of land should be filled in in the deed.

The continuing of the school permanently will depend upon the success achieved during the first 6 months it is in operation. It is hoped there will be a full and regular attendance of all Indian children of school age and that the teacher will meet with every success in her work.

- With Cheque -

Referring to that portion of your letter of the 22nd instant, relative to the purchase of a building for classroom purposes from Mr. J. Nicholson, Jr., in which you enclose a voucher for two months' rent of same to the amount of \$50, I have to inform you that the Department is prepared to purchase this building for the sum of \$100, which amount will include any rental due since the time the building has been used for school purposes.

I am returning herewith the voucher which you submitted for the rental and have to request that you will prepare another voucher, in duplicate, covering the purchase of the building. This voucher should read, -

"To purchase of building to be used for classroom purposes on the Sand Point Indian Reserve\$100."

The following note should be made on the lower part of the voucher:

"As the Sand Point Indian Day School is more or less in the experimental stages, the Department does not wish to erect a building at the present time, and we have been able to make satisfactory arrangements for the purchase of an Indian owned structure, which can be used for the time being. The price is fair and reasonable."

A cheque to the amount of \$100 is being sent you herewith, which you should hand to Mr. Nicholson, Jr., upon his signing the quit claim deed covering the sale of this property to the Department. You should then forward the same to the Department, together with the voucher as requested above.

I enclose herewith blank quit claim deed forms. You should see that a proper description of this property is given in the space for that purpose on the forms.

Ottawa, January 5, 1912.

Mr. Pedley,-

Miss Isabella Ruxton, teacher of the Saugeen Village Indian School, has applied for an increase in salary from \$450.00 to \$500.00. Miss Ruxton has been over two years in charge of this school and the reports from the Public School Inspector are quite commendatory. There are two other schools on the reserve, one taught by Mr. Wallace and the other by Mrs. Robb, each of whom receives a salary of \$500.00. These three are among the best Indian schools in the province both in respect to equipment and work performed. Miss Ruxton's qualifications, an expired Third Class Certificate, are practically equivalent to those of Mr. Wallace, but Mrs. Robb is the holder of a Second Class Certificate. In view of the favourable reports on Miss Ruxton's work I think she should be placed on the same footing as the other two teachers. All the salaries at these schools are paid from Band funds, which ~~can~~ bear this increase.

Saugeen School.

E.D.

The school at the village is a splendid building
having all modern conveniences and would be an ornament
to any town. The attendance is not large, 13 boys and 5
girls. I found on visiting this school I was informed by
the teacher, Miss Ruxton, that there were no more child-
ren of school age in the vicinity of this school. I may
say that this school would accommodate at least 50 pupils.
The teacher is painstaking and capable and the children
were clean and well dressed and appear to be making good
progress.

Miss Ruxton herself, however, might wish for a change and I have to inform you that there is at present a vacancy at the Walpole Island No. 1 School at the front of the island, where ~~ix~~ there is good accommodation and the salary is the same as at present paid Miss Ruxton, viz.- \$500.00. To the Superintendent of Indian Affairs
Hon. Sir. Ottawa

I Beg to inform you that the Indians would like to have a Change in their Day-School Teacher of this Section of this Reserve

Now the present Teacher has been Teaching for nearly four years there was a vacancy at that time and she was temporarily put in to teach for the time or untill we could secure a Teacher but she has remained in ever since.

Now I wish to state that this Teacher is not of our Religious Denomination and the Majority of the Indians here are of the Methodist Denomination therefore I think a Teacher of our own Religious Denomination would take more interest in our children.

Now this School Section is far behind compared with the other two School Sections of this Reserve where they have good qualified Teachers.

We had a Band meeting on the 14th of July and it was passed by the Band and Councillors that we should get a School Teacher of our own Religious Denomination and well qualified we also went by the 97 Section of the Indian Act.

I think you might write to our Missionary Rev. D. Sharpe as he is a just man and has been our Missionary here going on three years and he knows how this School stands compared with the other two schools

Ottawa, September 13, 1913.

Rev. Sir,-

The Indians of the Saugeen Reserve have represented to the Department that they wish a change of teacher in the village school, which is now in charge of Miss Ruxton. The reason advanced is that Miss Ruxton is not of the same religious persuasion as the majority of the members. The Department in dealing with this matter in the first place advised the Agent that it did not consider this a valid reason. According to the reports of the Public School Inspector Miss Ruxton has been doing very good work at this school and she has said that she wishes to retain the position at least for this term.

Miss Ruxton has been in charge of this school since December 6, 1909, and it is only two months ago that they made any objection to her religion and it would hardly be fair to her to dispense with her services summarily on religious grounds only.

The Department would like to have your views as to the advisability of meeting the request of the Indians for a change.

Your obedient servant,

Asst. Deputy and Secretary.

The trouble in regards to Miss Ruston
started in The Indian Council not in
The Church. As a Church we are strong
and can get along all right with The

say they would like The Teacher to
train The Children for Christmas
entertainment etc. That is all I have
ever heard, and that not at any
Church meeting. Your Indians know
The Indian Act pretty well, so they think
that would be a good reason for a change.

don't refer The Indians to this letter.

REPORT.

The Indian children referred to are children of an Indian named Ritchie. There are two only - a boy and a girl. The teacher in the Indian school gave them some slight punishment, and for this the parents, influenced by Chief Mandawab, the grandfather, took them from their own school, and sent them to the white school, which is barely half a mile from the Indian school. The average attendance at the Indian school is 16, average attendance at the white school 13. The Indian school is large, one of the finest schools in the County, the white school is small. The case is similar to many schools, where parents or grandparents champion the cause of their children, instead of giving them to understand clearly their proper relation to school and teacher. The teacher in the Indian school is doing good work, and would not be unkindly unkind or unjust to any pupil.

John McCool,

Inspector.

Walkerton, October 27th, 1913.

Note - Indian School in question is called Saugeen Indian School -
White School is No. 13 Arnabel - address of both.

I have the honor to inform the Dept- in answer to your official letter of the 6th inst- regarding two Indian Children named Pitchik that- are attending the white school adjacent- to the Saugeen Reserve that- these children have been adopted by Chief I. S. Mandowoub as their father is dead and their mother is married again. The Chief claims that- he has always sent- his own children to this school and payed a fee for doing so and as he informs me that he got- permission from two of the Trustees of the school to send them he thinks that- he has a right- to do so and refuses to send them to the Indian school as he does not like the teacher Miss Ruxton. Ottawa, November 20, 1913.

Sir,-

I have to acknowledge the receipt of your letter of the 17th instant with reference to the Ritchie children, who are attending the white school adjacent to the Saugeen Reserve.

In reply I beg to say that the Department has noted the statement of their adopted father, Chief Mandowub, that he had always been allowed to send his own children to this school and paid a fee for doing so and that he had got permission from two of the trustees to send these two children there also.

*File

The Department would like you to find out from the trustees whether they are unanimous in objecting to the attendance of Indian children at the white school, or is the complaint ^{only} made by Alexander Fraser, one of the trustees, who does not like to have his children mixing with the Indians. Be good enough to ascertain the feeling of the trustees on this point and advise the Department, and also, if possible, whether Mr. Fraser has any valid objections to these children attending the school, as their presence should not contaminate any of the white pupils. Be good enough to report fully on this matter.

Sir,-

I have the honor to acknowledge the receipt of your official letter of the 20th Nov with reference to the Ritchie children who are attending the white school adjacent to the Saugeen Reserve.

In reply I beg to say that I interviewed the trustees namely John Mc Lelland Joseph Chebott and Alexander Fraser.

John Mc Lelland & Joseph Chebott have no objection whatever to the children attending the white school as the school has only an attendance of from 10 to 12 scholars.

The only reason that Alexander Fraser would give was that he did not want them there. There is nothing about those children as far as I know that would justify anybody objecting to their going to any school. The boy is 9 years old and the girl 6 years and I have two little girls attending this school and I have no objection whatever to the Ritchie children attending the school.

Sir,-

In further reference to your letter of the 31st of October, last, enclosing copies of correspondence in regard to the attendance of Indian children of the Saugeen Reserve at the white school near that reserve, I beg to say that upon inquiry into the complaint of Mr. Fraser, one of the trustees of the white school, who objected to the presence of the two Indian children, the Department is informed that the remaining trustees have no objection whatever to these two Indian children attending the school, which has only from ten to twelve scholars. Their presence does not interfere in any way with the efficiency of the school and there is nothing about these children personally that would justify anybody in objecting to their going to any school. Their father is the chief of the band, is in good circumstances and pays the required fees regularly and his reason for sending the children there is that they may more readily acquire a knowledge of the English language.

In view of this report the Department is not, as stated in official letter to you of the 5th, to enforce the attendance of these children at school on the reserve and I trust that your Department Education,

at the white school.

Dear Sir:

I would respectfully draw your attention to the fact that I have been teaching the Saugeen Indian Village schools for the past year for \$700 (in fact have received only \$705 to date)

This is quite inadequate to present day expenses, and out of proportion with what is paid other teachers in the district.

Would kindly ask that my salary be raised to \$900 for the coming year. I consider the services rendered in the past as you will see by my record warrant this amount.

Sincerely yours,

Mr. Scott:-

Miss Isabella Ruxton, Teacher of the Saugeen Village Indian Day School, applies for an increase in salary. She at present receives salary at the rate of \$600 per annum, plus bonus of \$150 - a combined salary and bonus of \$750. ~~There is a teacher's residence provided and fuel allowed.~~ She asks that her salary be increased to \$900 per annum, and states that the salary now paid her is out of proportion to that paid other teachers in the rural white schools of the district.

Miss Ruxton has taught this school for 12 years; she has a Non-professional Third Class Certificate. The Public School Inspector speaks very highly of her work: he states that her methods of teaching are very good and that a great deal of originality is shown in the school work. He adds that his visit was very satisfactory and that the pupils were making marked progress.

The teachers in the two other schools on this reserve receive salaries as follows:-

Mrs. Robb, Scotch Settlement, \$650 and bonus \$150 - total \$800.
 J. T. Wallace, French Bay, \$800 and bonus \$150 - total \$950.

As Miss Ruxton is giving as good service as the other two teachers on the reserve, I would beg to recommend that she be granted an increase of \$50 in her salary for the school year beginning September first, next, which would give her the same amount as is paid Mrs. Robb at Scotch Settlement.

The salaries of all the teachers on the Saugeen Reserve are paid from Band Funds, and the interest at the credit of this band could stand the increase in salary.

I have to acknowledge receipt of your letter of the 16th instant, in which you apply for an increase in salary as Teacher of the Saugeen Village Indian Day School.

In reply I beg to say that the Department will allow you an increase of \$50 for the next school year. This will make your salary from the first of September, next, at the rate of \$650 per annum. Owing to the many demands for increases, and as our funds for the purpose are limited, we are not able to make you any further increase than that mentioned above. The bonus is being allowed for the current fiscal year, ending March 31, 1923, at the rate of \$15 per month.

Sir,—

I have the honor to inform the Dept. that I called the School Inspector John, Mc. Cool. by telephone to find out if he could give me any information where we would likely be able to get a Teacher for the Indian Village School and he said at present he had no one in view, But would endeavor to find one. And I am also sending an Add to the Toronto Globe as well. Have the Dept. secured a Teacher for French Bay School. I am having the Applications sent to the Dept. instead of sending them to me as it will save time as the time is getting short now.

I have the honor to be Sir,

Your Obedient servant,

Sir,-

In reply to your letter of the 18th instant, I beg to say that your action in advertising for teachers in the Toronto Globe is approved.

As yet we have not been successful in obtaining the services of a teacher for the French Bay School.

We have exhausted the possibilities of the applications sent under cover of your letter of July 28th, last, with the exception of Miss M. I. Jones, Toronto. She is being written today and offered the Saugeen school as it would appear the most suitable for her. As soon as we hear from her you will be further advised.

Any applications received in answer to the advertisement inserted by you will receive immediate consideration for either French Bay or Saugeen.

Your obedient servant,

Madam,-

Mr. T. A. Stout, Indian Agent, Chippawa Hill, has forwarded your application for the position of teacher in the Indian day school on the Saugeen Reserve.

The qualifications which you possess will be satisfactory and the Department will be pleased to accept your services as teacher for the Saugeen Indian day school for the next school year beginning September 4th, next.

This school is located about half a mile from the village of Chippawa Hill. The salary allowed will be at the rate of \$80.00 per month for the academic year, supplemented by the bonus provided by law. At the present this bonus is being paid at the rate of \$15.00 a month for each teaching month.

Kindly advise me at once if you will accept the position as teacher of this school and if you will be prepared to begin duties on the date mentioned above.

Your obedient servant,

A. F. MacKenzie,
for Asst. Deputy and Secretary.

Dear Sir,

I received your letter of the 21 inst., yesterday. I am very sorry that I cannot accept the position as teacher at Chippawa Hill, as I have accepted a position at Duncan.

I would rather teach at Chippawa Hill because of the location. If it is possible that you could make arrangements for a change with the Trustees of Duncan I would be satisfied. I have not signed any papers yet.

Dear Sir, - In reply to your advertisement in to-day's Globe, I wish to state that I am an applicant for the position of teacher in the Indian village school near Southampton, Ont. I hold a Second-class Professional certificate for Ontario. I am also a Third Year Undergraduate in the Arts Course of Victoria College which is affiliated with Toronto University. I am a graduate of a Business College. I have had thirty-two years' experience in the public schools of Ontario. I am a male teacher. I have several good testimonials from different school inspectors. I have an excellent testimonial from the late Thomas Bain who was speaker in the House of Commons under Sir Wilfrid Laurier. I know that I can give a good account of myself if I get a chance in the school. My brother is Principal of the Morse St. School in Toronto and gets \$35-00 per annum. He has been here since January, 1890.

In case my application is too late, I would be willing to accept any other similar position in any part of the Dominion.

TO DATE OF THIS LETTER

Sir,—

I have the honor to inform the Dept.

That Mr Mc. Ivar opened the Indian Village School Sept. 4th. 1923. And from what information which I can get about Mr Mc Ivar I believe he will be a success, but as he is a married man and has a wife and Mother to support, and there is no Teachers residence in connection with the Indian Village School I am at loss to know what to do as Mr Mc Ivar informs Me that he expected that there was a residence in connection with the School when he applied for it. and at the present he is boarding with us till there can be some arrangement made to getting a house. There is a small house near the School which could be purchased for about \$300,00. but is in bad repair and would cost about \$300,00. to put it in shape to live in.

He would be willing to live in Southamptonton awhile if the Dept. would pay a reasonable rent say \$8,00. per. month for him as he would have to keep a horse to go in and out with and as the salary that he receives is not large he could not afford to pay rent and the up keep of a house the Dept. can advise Me as soon as possible what action to take.

I have the honor to Sir,
Your Obedient servant,

I have to acknowledge receipt of your letter of the 5th instant, with reference to securing a house for Mr. McIver, teacher of the Saugeen Village Indian Day School.

In reply I beg to say that the Department is not prepared to either purchase the house mentioned by you or to pay rent. It has been decided, however, to increase Mr. McIver's salary from \$800 to \$850 per annum, for the ten teaching months, plus the bonus provided by law. The increase allowed will pay the greater portion of his rent. It is hoped that this will be satisfactory to him.

I have to inform you that the Department wishes to arrange for a new incumbent at the Saugeen Indian Day School as from the first of January, next. I am pleased to offer you the position of teacher at the Tyendinaga Western Indian Day School. This school is on the Tyendinaga reserve and is situate two miles from Shannonville, Ont. The Indian Agent, Mr. G. M. Campbell, lives at Deseronto, which is seven miles from the school.

The classroom is three years old and is in good condition. The parents on this reserve show considerable interest in the matter of education. There is no residence for the teacher, but suitable quarters can be secured either in Shannonville or on the reserve. The last teacher boarded less than 300 yards from the school. Two Indians perform the duties of janitor and of truant officer. The Department will allow you salary at the same rate you are now paid, viz.: \$100 per teaching month.

I should be grateful if you would let me know without delay if you will accept the Tyendinaga Western School.

In speaking to Inspector Wright of Hanover tonight, he mentioned a Mr Milton Seim, Mount Forest, as a suitable teacher. He taught a short time ago in one of your Indian schools in Ontario. So that you will probably have his record. If you thought it advisable, you might correspond at once with the two above mentioned and in the meantime I shall be looking around for a good teacher. Dear Sir:-

I received your letter to-day and regret that I am at present engaged.

My salary here however is not satisfactory but I am living at home and as a married man am doing my best to make ends meet so to speak.

Last term I taught at the Indian Day School on The Six Nations Reserve at Ohsweken as Principal being in charge of Senior Department. But as living quarters were not furnished at that school I had to seek elsewhere. I found Col. Morgan a real friend and helper in my year at Ohsweken.

I am a returned man, have had six and a half years experience as principal of schools in Ontario, hold a second class permanent certificate, physical culture certificate and diploma in art.

If you have a vacancy where residence is in connection with school and state full details in regard to salary and school I would consider opportunity should I be in a position to accept as I am deeply interested in Indian School work.

Thanking you and Inspector Mc.Cool for your sincere kindness.

I remain,

Sincerely yours,

Milton Seim.

Dear Sir,

If you have not yet secured a teacher for the Chippewa Hill Indian School, I enclose a letter from Miss M. Christina Sturdy, Toronto. Miss Sturdy taught in East Bruce some time ago and impressed me as being a very good teacher. She has recently returned from China and is anxious to teach again for some time. I am satisfied that she would take the Indian work seriously and not just for the salary attached to it. She has a Second Class Certificate. I described the situation to her in a letter. As the school is on the borders of the white settlement there would not be much trouble about the living part - she could board or live in your Indian Dwelling. If the application please you, you might correspond with Miss Sturdy and let me know your intentions. Yours sincerely John McCool

Dear Sir, Your letter of December 6th (No. 31-2-1) has been received. As the time is pressing rather short, would it not be well for the Indian Department or myself to advertise? I have noted the fact that the Indian Department prefers a married man and I have written to a good man, but have not yet heard from him whether he would take the school or not. The great trouble with some of the teachers in Indian schools, I have noticed, is that they look upon the position as one for their comfort and of course, it is quite right to be comfortable, but often the enthusiasm in the work and interest in the children are not strongly noticeable. Whatever may have been Mr. McLean's faults, he took quite a commendable interest in the pupils, and seemed to have gained their confidence and good will.

Yours sincerely,

am taking liberty of answering same for a
friend who does not take daily paper Globe,
noting applications must be in before Dec 15.
As experience in such work is necessary I
might say Mr Watson taught in B.C near
Vernon some few years ago where there were
many Indians at that time. He was also
Principal of public school in Fernie for
about ten years where he had to teach
high school work as no college near. He
is a patient, thoughtful man, and well qualified
for such a position. His wife is capable of
teaching Domestic Science and sewing to girls
if needed, and quite musically inclined.
Mr Watson has not been teaching for some
time, excepting privately, at times helping
some pupils along for exams. He is around
sixty I should say. Owing to circumstances he
would gladly have agreeable work of that kind.
His address is - F. J. Watson. Waterford. R.R. 5.
Hoping you will have another opening if this one is filled
at some future date. Yours truly, J. J. O'Brien

Dear Sir,

Having seen your advertisement in the Globe for a married male Protestant teacher for Village School, Saugeen Indian Reserve, three miles from Southampton, Ont., salary \$100. per teaching month; partly furnished residence with fuel, I wish to apply for the position.

Although a female Protestant teacher I would live in the residence with my brother.

My musical education on the

I am not applying for the

the pupils through the things in
which they are interested. The

Dear sir,

In reply to your ad' in the Globe of this date, I wish to make application for the position therein stated. Your ad' calls for a married, male, Protestant teacher for village school, Saugeen Indian Reserve.

I am a married man of twenty-one years of age. I have a first class professional certificate and a grade 'B' certificate in Physical Training. I have had four months' experience teaching an ungraded school of fifty-six pupils and I believe I can call this experience successful.

Besides this, I have had two years' practical business experience and four years' experience in vocal and instrumental music. As yet, I have had no trouble with discipline and so I believe I can assure you of good service in this way.

I have pleasure in certifying that Mr. R. A. Gibson has taught in this inspectorate during the past three years in S.S. No. 1 Hain and Lorne (two teachers) and that his work has been perfectly satisfactory.

At my various official visits I found Mr. Gibson's classes well abreast of the average in proficiency and a good spirit pervading the school throughout.

I can readily recommend him as a successful and conscientious teacher to any Board of Public School trustees.

Dear Sir,

I notice in the 'Toronto Daily Globe' of Dec. 4th, that you require a teacher for the village school of Saugeen Indian Reserve. I herewith offer myself for the position.

I have a Second Class Professional Certificate and have had sixteen years experience teaching. I am a married man with two children of school age; Religion Protestant; age 37. I am enclosing Testimonials from my inspectors.

If I am appointed to this school I will do my best to further the interests of the pupils and community.

Yours truly

This certifies that J. Douglas Lindsay received all his High School education at Shelburne during my term as principal here.

Throughout his course he was popular with his fellow-students and held many positions on the executives of the Literary Society and the Athletic Association of the school. This experience should help to develop ability to organize which is so essential to the successful teacher.

I believe his pupils will like him and that he will be successful as a teacher.

Dear Sir:

I find by your advertisement in the "Globe" that you are in need of a male teacher for the Saugeen Indian Reserve school, and I wish to apply for the position.

While I am a single man I believe that I can fill the position as teacher of the Saugeen school with satisfaction to the Department and to the residents of the Reserve. I am living in Southampton with my parents and am well acquainted with many of the Indians of the Reserve. My father Mr. Peter Guchtel is well known and respected by the Indians. Previous to retiring from business he owned a saw mill at Slabtown near the Reserve and had many dealings with them for many years.

For three years previous to last June I was teaching in Peterborough County and am enclosing a copy of a testimonial which the secretary of that school kindly gave me, and which will testify as to my ability as a teacher.

In regard to the teacher's residence I should like to use same for the Winter months but would prefer to live in town when the weather is good, and the roads fit for driving a car.

Hoping that my application will meet with your approval.

Sir:

I have your letter of the 6th instant, applying for the position as teacher at the Saugeen Village Indian Day School, and also your telegram of yesterday's date accepting the position.

The Department is pleased to approve of your appointment, to begin duties when the school opens after the coming Christmas holidays, on or about January 3rd, next. As you were informed by our advertisement, the salary allowed will be at the rate of \$100 per teaching month, payable quarterly.

If you reside in the teacher's residence during the winter, fuel will be supplied, and you should make a requisition for the quantity needed to the local Indian Agent, who is being informed of your appointment.

Should you require any classroom supplies when you begin duties, you should prepare a requisition for same and hand it to the local Indian Agent for transmission to the Department.

We hope that you will meet with every success in the work at this school.

I have the honor to refer to your letter # 31-2-1 of the 16th, inst. re appointment of Mr. Walter Knechtel as teacher of the Saugeen Indian Village Day school.

I was wondering if there had been an error in your letter re wood being supplied to the teacher's residence as I was under the impression that the stove only was supplied, as the French Bay and Scotch Settlement school teachers have stoves supplied and they buy their own wood, but Mr. McIver had his own stove and bought his own wood.

At the present time there is no furniture of any kind in the Village teacher's residence belonging to the Department.

Kindly let me hear from you re above as soon as possible.

Sir,-

I have your letter of the 21st instant, relative to the appointment of Mr. Walter Knechtel as teacher of the Saugeen Village Indian Day School.

If Mr. Knechtel lives in the teacher's residence, he is, under the terms of his engagement, to be supplied with fuel. You should ascertain from him whether he will reside in the teacher's residence during the winter and, if so, you should arrange at once to have a sufficient quantity of dry wood supplied to last until the Spring. You should obtain this wood as cheaply as possible and, after the wood has been delivered at the residence, you should forward properly certified vouchers in duplicate covering the expense incurred. The Department will expect you to give the matter of the purchase of a sufficient quantity of wood your prompt attention after you are definitely assured by Mr. Knechtel that he will use the residence this winter.

Relative to furniture, I would be pleased if you would prepare a list of what you consider is absolutely necessary for the use of the residence and, if possible, you should give an approximate cost of same. This matter should receive your immediate attention and you should state what is required to make suitable living accommodations for the teacher. The furnishings will, of course, only be supplied provided Mr. Knechtel intends to use the residence this winter.

J. D. McLean.

Attendance very fair. 26 on roll, average
for April 20. A number of the Indians complained
to me that this teacher uses liquor, and that he
does not have proper control of the pupils during
recess and play hour. They ask that a married man
be engaged. I could find no evidence in support
of the liquor complaint whatever. I have in-
structed Agent Robertson to report to the Depart-

Mr. Knetchel states that the play hour is personally

Sir -
As we wish to leave here
as soon as school closes would
you please send my quarterly
cheque earlier than usual. School
closes on the 22nd and it would
greatly oblige me if you could send
cheque direct to me by that
date.

I will have to leave for
Iyandiraga during vacation week
and will have to erect and
move our furniture in such a
short time. Trusting that you can
oblige me in this. I have the
honor to be, Sir,

Ottawa, December 16, 1926.

Sir:

I beg to inform you that we are today appointing Mr. Walter Knechtel as teacher of the Saugeen Village Indian Day School, to begin duties on or about January 3rd next. The salary allowed him will be at the rate of \$100 per teaching month. Mr. Knechtel has a permanent second class certificate and nine years' teaching experience.

If he resides in the teacher's residence, any fuel required is to be furnished him, and I have to request that you will arrange to see that there is the necessary supply of fuel on hand. If necessary to purchase any at the present time, you should arrange to see that a good grade of dry wood is obtained at the lowest possible cost.

I shall be pleased if you will give Mr. Knechtel any assistance you can upon his taking up duties at this school.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Sir,-

I have the honor to inform that Walter Knechtell, Teacher of the Saugeen Village School, would like to have his December quarter salary by December 25th. as he has some payments to make. I might say, last year it was on in January before he received his salary. If the Department does not see fit to send this salary before the quarterly School Report goes in, would it be possible for him to get an advance of \$100.00 before Christmas.

In regard to entrance door at village school house
I would suggest that about $\frac{3}{4}$ of an inch be cut
off bottom of door & a hardwood board of same
thickness put over the sill so that the door could
open & shut easily. The latch also requires to
be renewed - at a cost of one dollar.

Sir

Secretary - The Board was authorized to have a school built at a cost of \$200 (Apr 19-). I think this is too small a sum for a outside building in this locality. The specifications are for a small shed of considerable dimensions and construction. The price tendered \$32 is a fair sum for the work. I then recommended acceptance of the tender.

I have the honor to refer the Dept. letter dated Apr 19th Last No 153979-5 to inform the Dept. that in accordance with said letter I put up notice asking tenders to erect woodsheds at French Bay & South Settlement School houses. Buildings to be the size & kind I thought was required. Specifications ~~enclosed~~ tenders for which I herewith enclose. Will the Dept. kindly advise me in this matter.

If the above is agreeable to the Dept. I would recommend the accepting of the lowest tender \$32 from Mr James Cook who is a Carpenter by Trade.

Sir

I have the honor to state that on a close examination of the Woodsheds at French Bay & S. Settlement School Houses I found that some of the Shingles used for the Roof were second class. This I did not observe on first inspection. And therefore stated to the Dep't in letter dated Nov 27th last, that the buildings were completed according to Contract.

When I handed Official Cheque No 1726 dated Dec 5th, to Mr. J. C. Cook Contractor, I gave him to understand that he used 2nd Class Shingles instead of 1st. This he acknowledged & said he could not get 1st class at the time, but was willing to allow for the difference in price which is 40cts per M. and handed the same to me which Amount I herewith enclose 4500 shingles @ 40cts per M. = \$1.80

That the village school house

as follows: a new double door on the
entrance. The plaster in the basement
repaired. The grounds around the
school house graded and gravelled
so that the wall will fall from the
building. The cost of repairs to be
taken from the Band funds.

wind strikes it, causing it to be very hard to handle on ac-
count of its width and has been repaired three times in the last
four years. The space is wide enough to have a double
door put in, which would be lighter and easier
handled by the children.

Front door hard to open, needs a stop at the back, one hinge loose,

Plaster broken in basement between where boys and girls play, making a large hole

Weeds are abundant on the site and should be cut.

When you visit these schools it would be well for you to have such simple repairs as these attended to.

Chippawa Hill Dec 15 1902

Sir:-

I have the honor to herewith enclose accounts for cost of Repairing at the Sanguin Indian Village School as all the items of repairing were not included in my letter of the 10th of Oct. 1901. I herewith attach Resolution of Indian Council covering the total expenditure of said repairs.

In explanation why the repairs authorized by the Department were not done before this, I would say that I let the work to be done over a year ago, to James Cook. Since that time three different white men have promised to do the work but failed to do it. I therefore got Henry Ritchie, ^{to do the work} who is the only Indian on the Reserve that can do this kind of work satisfactorily.

The Basement windows of the School being on a level with the ground the greater part of the glass was broken by the children. It was necessary that it should be replaced. It was considered of little use to replace it without it was protected. I therefore procured the best & only obtainable protection 3/8 inch mesh of heavy woven wire.

The other repairs were all necessary. I would therefore recommend that the enclosed be paid. Amounting to \$1.07

Sir.

I have the honor to state that as the pump at The Indian Village School had been out of working order for about six weeks before the school opened and as the water was impure I found it necessary to engage Henry Ritchie to repair the pump, the cylinder of which was split, clean out the well, and repair the platform which was decayed. I enclose herewith his account for the same amounting to \$300. I would recommend payment of same.

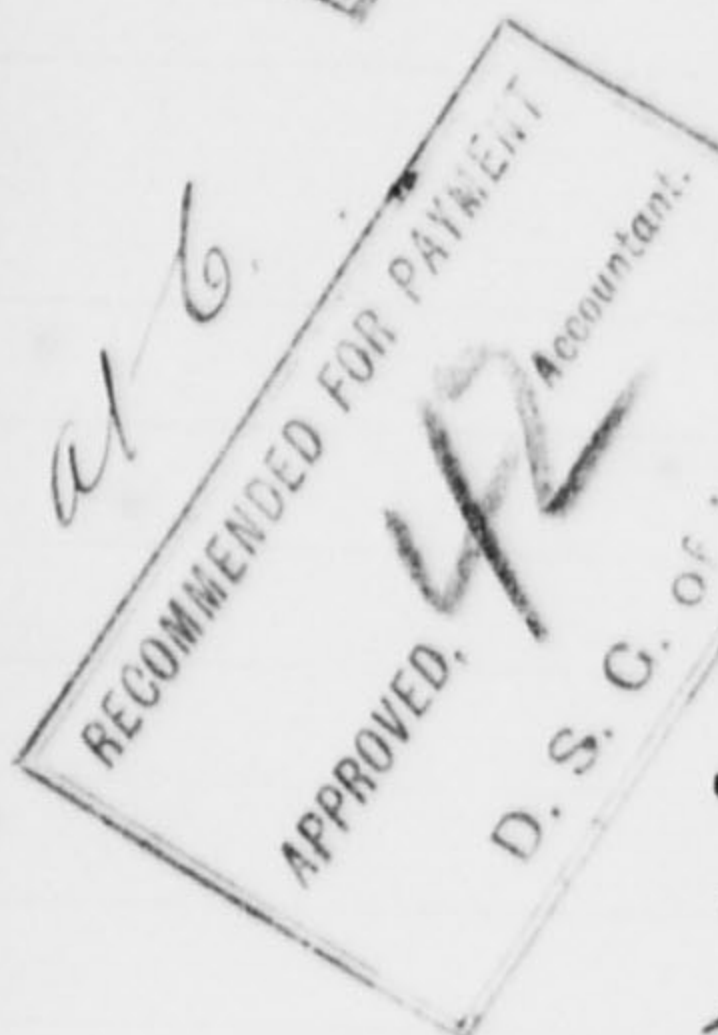

In this connection I would inform the Dept. that when the platform of the well referred to was taken up I found that the cribbing was very badly decayed and I had to have it patched in order to prevent the earth from falling into the well. It will be necessary to have a new crib put in in the near future. I would suggest that it be done in the dry season and that it be bricked. On account of the sandy nature of the soil stone can not be used and a wooden crib decays very rapidly.

I have the honor to be sir

Sir:-

I have the honor to forward to the Dept. Resolution No 3. passed by the Indian Council at their regular meeting held on the 14th inst

No 3. Moved by Ed. J. Madurishmuind Sec^d by Peter Henry
That the Sanguem Village School well be
Bricked inside of the crib, and a new
cylinder and head be procured for the
Pump. or a new Pump if necessary.
also a new platform be made and
the cost taken from the Band funds
Certified correct Carried.

As to the well and pump spoken of in the above Resolution I would refer the Dept. to my letter of the 20th ultimo and would say that the Pump is again completely out of order and, it is necessary to have it repaired or replaced with a new one. The Pump Log appears to be good but the cylinder is split and the head is perhaps worn out, I cannot tell until it is examined by a Pump Manufacturer. The cribbing of the well as stated in above letter above referred to, is decaying, and caving in in some places, it requires to be newly cribbed.

If allowed to remain in its present condition much longer, it will cost more to have it redug than to dig a new well.

I would therefore recommend that the work be done this fall.

The estimate cost-

The estimate cost of cribbing the well with Lumber, and a new platform will be about \$35⁰⁰. Cribbing it with brick including platform will cost about \$40⁰⁰.

The well cannot be cribbed with stone as it is only 5 ft. ^{in diameter} inside the old cribbing. It takes 18 inches for one stone wall three feet for the walls, which would leave the well too small for a man to work in.

Hemlock or other timber except Cedar quickly decays above the water. We cannot use Cedar as the water would taste of it.

I would recommend that brick be used for cribbing.

Sir: *School*

I have the honor to forward to the
Depart- resolution passed by the Indian
Council at their monthly meeting held on the 1st inst

Moved by Peter Henry seconded by Jesse Root-

That the water-closets in the basement-
of the Indian Village School be closed &
two new ones be erected in the school yard;
the school room be cleaned, repaired scrubbed
and white washed

Certified correct-

Carried

I would recommend that the request of the above
Resolution be authorized and would inform the Dept.
that the water-closets in the basement of the school-room are
not in a sanitary condition, in account of the pipes having
decayed; Mr Inspector Macrae informed me that he
did not consider the system a good one. Public
School Inspector Mr Mc Cool advised me to have
them removed, or put into proper working order

I do not think it will cost any more to
build two new ones, and it will be more satisfactory
The pipe into the chimney will have to be replaced.

I cannot give an estimate of the cost of replacing it -
The white-washing scrubbing &c will cost 15 or 20 Dollars
The two new Water Closets Completed will cost 50 or 60 Dollars
I enclose herewith an itemized estimate of the cost of Water Closets

Mr Benson. Two copies of plan of water-closets (399)
and two copies of the bill of quantities for the same are
herewith attached which may be forwarded to the Dept
for his guidance. J. May 16 Oct 1906

Ottawa, October 19, 1906.

Sir,-

I have to acknowledge the receipt of your letter of the 9th inst. with reference to the resolution passed by the Saugeen council at its meeting on the 1st inst. to have the closets in the basement of the school-house closed and new ones erected in the school yard and to have the school-room cleaned and repaired.

In reply I beg to say that this resolution is approved by the Department. You should, therefore, see that the school-room is attended to in accordance with the resolution. A plan of a single dry earth closet, together with quantities of material and an estimate of the cost, is inclosed herewith. Two closets on this plan should be built in the school-yard at a suitable distance apart and short screen approaches should be provided.

I beg to state in reference
to official letter that the
Indian Village School is
not in bad need of white
washing. That when it is done
it should be done with fresh

I beg to state that I found it necessary to have the grating that supports the fire-wood in the furnace of the Indian Village School repaired.

I got Peter Henry an Indian to take it to Mr Robertson of Southamptown and leave it there to be repaired. He went after it when the repair was made. Paid Mr Robertson his charge ^{\$1.50} and placed the grating in place. It works now quite satisfactory.

I would recommend that the \$2.50 be paid to Peter Henry.

Sir, - I have the honor to refer the Dept. to official letter of Feb 17 last and my letter of the 18th ultimo. I would inform the Dept that Wm Akewenzie did not make a satisfactory job. I took the Indian Council, who were in session, to the school and after examining the work done, they passed the following resolution

Moved by Levi Amegabough Secd by Jesse Root

That after looking over the school & hearing the Agent's statement, that the work of cleaning & white-washing the school was let to Wm Akewenzie for the amount of \$35.00. This Council does not consider ^{that} the work has been done according to Agreement, and would advise the Agent to retain \$10.00 from the contract price to complete the work and allow him \$25.00 for the work he has done. Carried
Certified correct.

- I let the work of completing the job to a non-Treaty Indian woman. She has completed the work satisfactorily. I would recommend the enclosed be paid by separate cheque from the Band funds. Wm Akewenzie \$25.00.

Sir, — I have the honor to state, that the Pumps and wells at the 3 schools and Agency on the Sanguin Reserve has to be repaired

I cannot estimate the cost until the pumps are taken out of the wells

The pump at the Agency may cost two or three dollars, the others will cost more

I brought the matter before the Council who passed the following resolution

Moved by A. Ritchie seconded by John Washkewicz

That the pumps at the Indian Village French Bay & Scotch Settlement schools be repaired also the pump at the Agent's dwelling.
 ~~And the cost be taken from the Band~~

I have the honor to state in reference to the enclosed account \$ 7.00 for repairing Furnace pipes at the Indian Village School. The work has been done very satisfactorily and I would recommend that the ac be paid.

In this connection I would say that I thought as the Furnace was made safe, & it being good, with this small cost of repairing. And as we have yet so much dead timber for fuel on the Reserve, that it would not be advisable to be at the expense of getting in a new Furnace.

Report of Inspector C.C. McGibbon on the Saugeen School.

The furnace is not a success and a new one should be installed at once. The Agent states that he is sure that a suitable furnace would not consume as much fuel and would keep the building comfortable which the present furnace fails to do. The cost would be under \$200.00 which would seem a proper expenditure which I would recommend.

Saugeen Village School.

This is a good school building. Furnace is not giving satisfaction; hot air pipes not in right place. The school cannot be heated properly till pipes lead to places marked X. There is no need for such large hot air grates in entry rooms. The hot air grate in wall is supposed to heat the whole room.

The defecating tanks in basement should be removed, also the small furnace which connected with it.

Sgd. R. H. Abraham.

Sir,-

In his report on the Saugeen Village School, Mr. R. H. Abraham states that the furnace is not giving satisfaction and that the hot air pipes are not in the right place.

By official letter of August 12, 1914, you were authorized to have the furnace repaired and the hot air pipes changed. It is hoped that you will have this work done immediately so that it will not interfere with the opening of the school after the summer holidays.

I have the honor to inform the Dept. re furnace in the Cordian Village school. I had a furnace man from Southampton examine it last summer and his advice was that it was useless expenditure as it would not be a success as the old furnace is almost worn out and as it is in one corner of the basement it is difficult to make it heat the school in cold weather. My advice would be to make it do another year and have it taken out and a new furnace put in and put in a different place. The Dept. can advise me in the matter.

SCHOOLS.

Village School.- the school is a good one, the children are bright and are advancing under Miss Ruxton.

The furnace of this school is worn out. The castings on the inside are burned out. The furnace was made by Smead, Dowd & Co. of Toronto. Mr. Stout says he has tried to get new castings but the patterns are destroyed and it is impossible to get new ones. The heating system should be installed in a different way, as it is sometimes three o'clock before the back of the room is warm.

I would recommend that 1/12 of an acre be leased or purchased from the Herny property, which adjoins the school, for school garden purposes. Miss Ruxton is anxious to undertake this work and I think she would make a success of it. It should be ploughed and fenced this fall, and five or six loads of man well rotted manure worked in, in, the spring.

Sirs:

It is found necessary to remove from the Saugeen Indian Village School (Southampton, Ont.) the obsolete Smead-Dowyd heating and ventilating system and to replace with a modern bricked-in wood burning system of sufficient capacity to satisfactorily heat and ventilate this school.

In connection with this the Department would request that you will have your nearest representative inspect this building with a view of providing a rough plan of the heating and ventilation which you would propose to install, using your hot blast furnace style 405 and 505 of sufficient capacity to effectively do the work. Your Tender should include the installing and bricking in of the furnace complete with all necessary piping, registers, etc. that may be required to complete this, together with all necessary cutting and repairs of wood and brick work there which is made necessary by the installation and in the removal of piping of the present furnace in the walls, partitions, etc.

The removal of the old Smead-Dowyd system will be undertaken under the direction of the Indian Agent who will remove the furnace with all debris resulting therefrom. It is not however, intended to remove the piping as it is thought a considerable amount of this may be re-used in the proposed installation and where unfit this can easily be disposed of later.

Kir-Ben Ltd.,

Almonte, Ont.

It is intended to complete the installation as soon as possible so that the school work will not be interrupted. I have therefore to request that you will at the earliest possible time forward your Tender to the Department for consideration.

Dear Sir,-

Enclosed you will please find tender for the removing of the old furnace in the Indian village school Sougeen, Ontario, near Southampton, and the installing of a new furnace in its place.

We find on going over this building which the writer did on Tuesday with one of the best heating engineers of the City of Toronto, that when this original heating system was installed, it was as near perfect as could be, but the people in charge of running the system did not understand it and that is the reason of it being burnt out so soon. The trouble has been that they have not been giving the furnace the air it requires, or have they ever fired the furnace, that is, there to heat the ventilating shaft, that forces circulation, and after looking everything over, I think you will always be up against this same proposition, and in figuring out our proposition, we are still going to use the old system, but have added an independent system to circulate from the inside, so that if they shut off the outside air we will still be able to heat the building satisfactorily, and not endanger the burning out of the furnace.

You say in your letter to us, that the Indian agent will remove the old furnace. We prefer doing this ourselves, as we expect to use part of the walls that are in use in the present system. I find that on looking over the tinsmith and metal workers in Southampton, and Port Elgin, that their experience in this kind of work has been very limited, and while it will cost a few dollars extra for railroad fare, and hotel expenses, I think it better to handle this from Toronto. Where we have men who know how to handle this kind of a job, and finish it in such a way that it is done and no need of going back after the cold weather comes.

Trusting to be favored with your valued order,
we are,

Yours very truly,

Sirs,-

The Department wrote you on the 30th ultimo in reference to the installation of a Ben-Kir furnace in the Saugeen Indian Village School, ~~your~~ estimate for which was accepted on August 11th, the furnace to be installed completed by September 1st, and pointed out the necessity for the immediate completion of the work. As no answer has been received from you in reference to this, I must again remind you that the furnace should be installed complete at once, and in the event of your not being able to complete the work immediately, you should inform the Department when other arrangements will be made, as the school cannot longer be kept open without the furnace.

I have the honor to inform the Dept. that there has been a new furnace installed in the Indian Village School & presume by the Kir Ben Furnace Co which may be satisfactory but as far as I can learn the old furnace never gave satisfaction as there was only one hot-air register to heat the school room part of the room would be too hot when the rest of it was cold and there has been no change made only one cold air register cut in the floor and the most of the work of putting in the furnace was done on Sunday as the men informed me that they had authority from the Dept. to work on Sunday which I did not approve of

Memorandum for
Mr. Scott.

Approved
On October 28, I made an inspection of the village School, Saugeen Agency, in which has been installed a Kir-Ben warm air furnace and ventilating system replacing the Smead-Dowyd system erected with the building.

On the date of the inspection the weather was very mild and a practical test could not be made to prove its capability. The furnace is however, of the kind and capacity contracted for, and I am of the opinion will give satisfactory results.

(In the placing of the furnaces the supports of bricks under do not appear substantial enough and these should be strengthened by providing a larger and more satisfactory base support. The cost of this will probably be about \$10.00 which should be deducted from the amount due the Kir-Ben Company when settling with them, and the cost of additional supports paid for.) Certain repairs are necessary to the school including pointed up of stone work, resetting stone cap on chimney, oiling and varnishing of school desks and oiling of floors.

The school desks should be treated as soon as possible as the woodwork is warping and the joints loosening for lack of this.

There are in this school 50 single desks in fair condition except for minor repairs and the finishing and varnishing, and the pupils enrolled here are only 24 with an

Sir,-

It will be necessary to strengthen the supports under the furnace recently installed at the village school, Saugeen agency to ensure safety, and I have therefore to request that you will have the wall connected between the two front and the two rear supports making a solid bridge of brick at each end. The brick to be firmly laid in cement to ensure entire stability.

The work should be done as soon as possible and the accounts forwarded here for payment that the cost may be deducted from the heat contract before settlement has been made.

The work to be done as economically as possible and should not exceed \$10.00.

Dear Sir:

Re your letter of Aug. 11th, No. 153979/5 accepting tender for installation of Heating System in the Scotch Settlement School, Saugeen Agency.

A deduction has been made in making payment for this account for the reason that your report on this System appears to contain the following paragraph:

"In the placing of the furnaces the supports of bricks under do not appear substantial enough and these should be strengthened by providing a larger and more satisfactory base support. The cost of this will probably be about \$10.00 which should be deducted from the amount due the Kir-Ben Company when settling with them, and the cost of additional supports paid for."

Respecting this we respectfully beg to submit as follows;

"Installation at Saugeen Indian School is O.K. Pillars that Furnace stand on are solid and the same as used in the old furnace."

We are willing and moreover, are anxious that any work done by us shall be correct in every way. In this particular instance we further submit that the work done is correct and we believe that there is a misunderstanding somewhere and shall be pleased to have you look into the matter further.

Further, this work stands covered by our guarantee

Sirs-

I beg to acknowledge the receipt of your letter dated 27th instant in reference to the supports under furnace installed at the Village school, Saugeen Agency, and in reply to inform you that the furnace was set up on four loose brick pillars about nine inches in width and one foot in height. The pillars being loosely build would not support the furnace in the event of one or more heavy pieces of wood being thrown into it and jarring same.

The strengthening of the supporting pillars does not in any way interfere with the circulation of air or decrease its volume or its free and full admission, nor does the strengthening of the piers by increasing the size and casing-in with cement, interfere with the setting of the furnace in any particular, or your guarantee, as this work is necessary to ensure stability and safety only, and cannot be accepted as satisfactory otherwise.

The installation was inspected from headquarters before being paid for and it was thought better, as the work was necessary, to have this done by the contractor who was making other improvements there, thus lessening the cost to you.

It is possible, however, that the work has not yet been done and notice can at once be sent to Mr. Stout to hold the same in abeyance if not already completed.

I have, therefore, to request that in the event of your wishing to complete the work yourselves, that you will telegraph me on the receipt of this letter, when instructions in the matter will at once be sent to Mr. Stout.

Gentlemen:-

Some months ago
I wrote re. the new furnace
put into the Saugeen Village School,
not heating satisfactorily.

Yesterday with weather about
zero, the highest we could get the
school was 62° . This is not fit
for pupils to sit in so long,
and though I sent them ^{for a while} out to
run about in the basement to
try to keep them warm, some
of them are ill after it. In
fact I was almost sick
myself after being chilled so
long. It was only about 20° at 9 o'clock.

To-day the highest we could
make it by noon was 62° .
After that the sun aided
in putting it higher.

As I stated in the previous letter, the only register in the room is ~~in~~ way up in the wall, and there is no way of getting the children to it. (Of course this should not be necessary if the room were comfortably warm.) Were the furnace placed near the centre of the room, and registers put in the floor, it might work.

The old furnace was never satisfactory. It took hours to warm the school and consumed a great deal of wood. This one takes hours to heat up and then does not throw enough.

The weather was only about zero yesterday, so you see how it will be when the thermometer registers 16° to 20° below, or even more.

The Indians having been obliged to pay for the furnace, it seems too bad that the children have to suffer from the cold. I have had to send them out to exercise, but this means lost time for the pupils.

Had the Agent - Mr. Stout - been consulted, he would not have allowed it to be put in as it is, as he was aware of the unsatisfactory place of the old one. The furnace was put in on Sunday without him being consulted.

Scotch Settlement has a new furnace, which gives good satisfaction and does not require a great amount of fuel.

Trusting this will receive your immediate attention, I remain

Yours sincerely (in the interest of my charge)
J. Ruston, Teacher.

Ottawa, January 16, 1917.

Sir,-

I beg to acknowledge the receipt of your letter dated the 12th instant in reference to the furnace in village school, Saugeen Agency, and to inform you that the makers of the furnace have been informed of your statements and notified to at once demonstrate the effectiveness of their furnace, also requested to notify you of the date when this would be done so that you may assist.

The furnace installed is of a good make of sufficient capacity and should heat the building satisfactorily. I am, therefore, of the opinion that the fault is in the operating rather than in the furnace, and it will be well to have the caretaker manipulate the furnace under the direction of the furnace expert so that there may be no further trouble in the matter.

You should also inform Mr. Buxton that his letter in this matter has been received.

The Indian Agent at Saugeen Reserve, writes the Department that the Kir-Ben furnace recently installed at the village school there by you is not giving satisfaction, as it was impossible to raise the temperature to the required degree during the cold weather of the 10th and 11th instant. The states that he, with the assistance of the caretaker for 21 tried to fire up and could not raise the temperature at degrees in zero weather. School cannot be conducted at temperature and as you guaranteed us to heat the building 70 during zero weather which apparently it is not able and as it is necessary to maintain the school, I have that you will, at once, demonstrate by heating the building in a satisfactory way the efficiency of the furnace, or of its being insufficient, to provide adequate heat.

Before demonstrating, it will be well for Mr. T. A. Stout, the Indian Agent at Chippawa, to assist you during the demonstration..

Referring to the Departmental letter of the 16th instant, in regard to heating-furnace at village school, Saugeen Agency, wherein you were informed of the intended procedure in respect to the testing of this furnace, I beg to inform you that it has been considered advisable to procure additional information in connection with this, before requesting the Company to make a test of their furnace.

The information requested is as follows:-

What kind of fuel is used, and is this dry, seasoned, or green wood?

Is the wood used, maple, beech, birch, oak or soft wood?

Is the building kept heated during the night or is the fire started again in the morning, and if so at what hour?

Is the cold air from outside, shut off during the hours when the school is closed, and the inside cold air used during the night and when the building is unoccupied, or is the outside cold air duct left open at all times? Is the small ventilation heater used at any time, and if so, when?

Sir,-

*Look
over*

The teacher in her annual report on the Saugeen Village Day School in reference to the heating has prepared a tabular statement of temperatures of the class-room on February 12, 13, 14 and 19. The results shown are not satisfactory, and the temperature is certainly not high enough for comfort. It is noted that the temperature is very low at 9 o'clock and rises rapidly during the day. This shows conclusively that the fires are not being properly attended to or the temperature would be maintained at a normal point at all times. It is impossible to heat a class-room the size of the one there with its very high ceilings unless the building is at the right temperature on the opening of the school. The furnace is capable of properly heating the building, it being considerably larger in capacity than is necessary for this purpose. The trouble, therefore, appears in the attention given, and possibly the fuel used is not dry. With reference to this I may say that you were written to on January 24th last, and requested to give certain information with respect to the attention given the furnace and the fuel used. This information should be sent in at once as the Department requires it before communicating ^{again} with the Kir-Ben people who placed the furnace.

The wood used is dry beech and maple in four ft. lengths, the fire being kept in banked-state during the night with the fresh air from the outside closed and inside circulation established. The fires are said to be renewed each morning between 7 and 8 o'clock and efficiently maintained during the day, and notwithstanding this, the temperature is reported as being too low to enable them to carry on school work, the temperature ranging during the school hours as follows, viz.,- Feb.12th, from 20° to 58°; Feb.13th, from 22° to 54°; Feb.14th, from 40° to 68°; Feb.19th from 18° to 65°. From the temperatures shown it must be admitted that furnace is not showing satisfactory results as guaranteed by you, and I have, therefore, to inform you that the Department cannot accept this as being satisfactory, and requires that you will efficiently demonstrate its capacity to do the work guaranteed.

It is now too late to make the test this year owing to the delay of the Agent in answering the Department's enquiry of Jan.24th last and which reached us on the 12th instant. The test must, therefore, be made during the next Winter in presence of an official of this Department at a suitable date which will be arranged.

I beg to acknowledge the receipt of your letter of the 9th instant in reference to furnace at village school, Saugeen Agency, and in reply to inform you that the Kir-Ben Company has been written to in reference to this and informed that a practical demonstration of the furnace must be made to ensure satisfaction, and as it is now too late in the season, owing to the delay in your report, to have this effectively done, the test will necessarily take place next Winter.

[Handwritten signature]
[Handwritten initials]
The reason given for not using the ventilating furnace is not considered satisfactory, as the wood could be cut to suit the furnace at a very small cost, which would be allowed. It is also necessary to have a certain quantity of dry light wood with which to raise the temperature in the mornings or at other times when a sudden demand for heat is needed.

It is quite certain that in this school, as in every other, that satisfactory results cannot be obtained without efficient attention, and the lack of this is generally found to be the reason for unsatisfactory heating.

A copy of the Department's letter to the Kir-Ben Company is enclosed for your information.

Dear Sir;

Your favor of the 21st Re 153979-5 duly received and carefully noted and from the length of time your agent took to reply to our and your letters of Jan. 20th or 23rd to him, in connection with this heating contract we cannot think there is very much wrong with this contract but we are quite willing and have been willing to go there in cold weather with one of your Ottawa architects or engineers and prove to you that this furnace with proper attention will heat this building to the letter of contract.

Awaiting your further instructions in the matter, we are,

Yours very truly,

Dear Sir:-

Last winter I wrote the Department re. the heating of the school - Saugeen Village. The heating system in this school has always been a very poor affair, and I complained of it when I first took charge of the school - eight years ago.

When the new furnace was installed last fall it proved even more unsatisfactory than the old one - it being simply impossible to heat the room on a severe day. (I gave you temperatures for a week last year). It seems cruel to keep the children in such cold.

I would earnestly plead for your attention to it for the children's sake.

Truly yours, J. Ruston

REPORT OF INSPECTOR Mc Cool on the Saugeen Day School.

Furnace does not seem to give satisfaction. On day of Inspector's visit which was not too cold, thermometer showed temperature to be only 54 degrees at recess and 58 degrees at 11.30.

There is only one large register too high above the floor and it would seem as if the furnace at the end of the building were not central enough.

Very ample provision for good dry wood has been made, an abundant supply being on hand.

Memorandum
for
Deputy Minister.

I beg to report that on September the 19th and 20th I made an inspection of the village school, Saugeen Agency, it having been reported that the furnace was not giving satisfactory service.

The furnace and ventilation system was carefully examined and found in good working condition and amply capable of satisfactorily heating and ventilating the building if given the proper attention, (which it apparently does not get.) There is only one change which might be made to advantage, viz. the lowering of the combined hall and cloak-room registers to floor line, to permit of the children warming and drying their feet there when coming in wet and cold, which might be an advantage for this purpose but would not otherwise change the conditions.

There are twenty-seven pupils enrolled with an average attendance of sixteen, which is reported as unlikely to be increased. The class-room is 25 x 41' with accommodation for 63 pupils, thus providing considerable more than double the room space required. There are eight large windows in class-room having a combined glass area of about 216 square feet, and without storm-sash to protect the windows from the direct outside temperature, and in addition some of the sash is broken, and in one instance will require a new sash.

Recommendations

I would therefore recommend that storm-sash be provided for all the class-room windows, the damage sash be made good, that one new front door be provided and fixed in position, hall register lowered, and would suggest that as the class-room is more than twice the capacity at present required, (or in the near future) a partition be built, shutting off the unnecessary portion with the consequent saving in fuel which would itself pay the cost of the change in two or three years.

Sir,-

I beg to inform you that it is considered necessary to provide storm-sash for all class-room windows at the village school, Saugeen Indian Reserve, a new sash to replace the broken one; also a new front door, unless this can be repaired economically.

The storm-sash should be made of $1\frac{1}{2}$ inch material, glazed with medium sized glass, hinged at top and fastened with proper hook fasteners where required. Ventilation openings should be provided in the bottoms of each sash, the sashes to be painted two good coats before being hung.

Prices should be obtained from persons in the vicinity doing this work and submitted to the Department for consideration that the work may be authorized if the prices are found reasonable.

mm
You are also authorized to have the registers in hall entrance and boy's cloak-room lowered to the floor height and a tin register box placed in the stack to make this satisfactory. This should be completed as soon as possible, so that the furnace will be ready when required.

Paul
With reference to the ventilation, ~~the~~ hinged door should be placed over the fresh air opening in furnace so that the air in ~~the~~ only may be used during excessively cold weather, the door to be controlled by a chain and pulley set where convenient for this purpose. This work to be done as early and as economically as possible.

Sir,—

I have the honor to forward to the Dept account rendered by R. McVitie for repairs done to the furnace in the Indian Village School amount of ac. \$38.¹⁵

I would recommend that the ac be paid as the work is done in a satisfactory manner when I examined the furnace I found that the furnace base had fallen down and it let the furnace come apart in several places and I had a brick and cement base put under the furnace which I think will stand and I also had check damper put in the smoke pipe which I think will also help a good deal in heating and also in fuel saving I think that when the storm windows are completed and on that we will have no more trouble in heating the school room

Act under

Ottawa, April 19, 1920.

Sir,-

Miss Ruxton, teacher of the Saugeen School, in her annual report for the fiscal year ended March 31st, last, states that the desks are in fair condition, but require to be painted and the teacher's desk needs a coat of varnish.

You may arrange to have this work done during the coming summer holidays and the cost of the work and the material should be at the lowest possible price.

The teacher also states that the fence is getting rather delapidated. You should furnish a report as to the repairs required to be done to place the fence in good repair and the probable cost of having the work done.

Your obedient servant,

T. A. Rout

Moved by Andrew Ritchie 2nd by Jas John
That a new fence be erected around the
Indian Village school yard as it is impossible
to repair the old fence and make it satisfactory
The cost of the new fence not to exceed \$80.00
carried

I would recommend that a new fence
be erected around the school yard as I
examined the old fence and it is fast repairing
as the posts are almost all rotted off at the ground
and the wire and gates are in bad condition
so I came to the conclusion that we better
have a new fence

Sir,—

I have the honor to forward to the Dept- account rendered by James Williams for erecting a fence around the Indian Village school yard amount of ac. 88⁰⁰ I would recommend that the ac be paid as the work is done in a satisfactory manner the amount is a little over the estimate as when he went to purchase the wire and fixtures they cost more than he figured on there was fifty rods of fence and two gates the wire and fixtures cost- 857⁹⁸ so all he had for his labor and furnishing the posts 27⁰² which makes his pay very small
